

# CITY HALL LED LIGHTING & CEILING UPGRADE

**PROJECT COST**  
**\$178,510**

## **ESTIMATED PROJECT SAVINGS**

- **71,033 KWH SAVED  
ANNUALLY (\$6,393 IN  
ELECTRICITY SAVINGS)**
- **\$2,500 IN MAINTENANCE  
COSTS ANNUALLY**

The City of Sun Prairie is located in northeastern Dane County just outside of Madison. From just 4,000 people when it was founded in 1958, this vibrant and growing community has committed to progressive development and improvement of new and existing infrastructure.

City staff issued a Request for bids (RFB) for a city hall facility-wide LED lighting upgrade. the RFB also included two alternate bids:

- one for access challenged lighting, which was be funded by a \$15,000 grant awarded from the public Service Commission's 2021 Energy Innovation Grant Program (EIGP)
- the second for the replacement of the second floor ceiling tiles

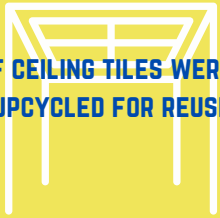

On top of energy and cost savings, Upper 90 worked closely with the City of Sun Prairie to help achieve their project sustainability goals, with landfill diversion, repurposing, as well as recycling. In total, these efforts diverted 6,672 pounds of what would have otherwise been waste.

**6,672 lbs**

**TOTAL WASTE  
DIVERTED**

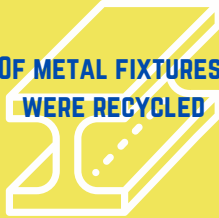

**2,024 lbs**

**OF CEILING TILES WERE  
UPCYCLED FOR REUSE**

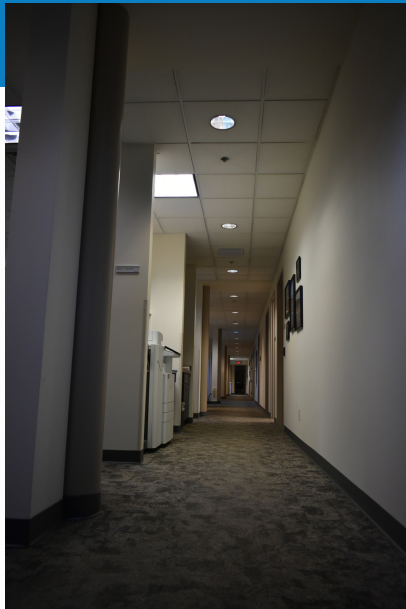

**4,095 lbs**

**OF METAL FIXTURES  
WERE RECYCLED**

**553 lbs**

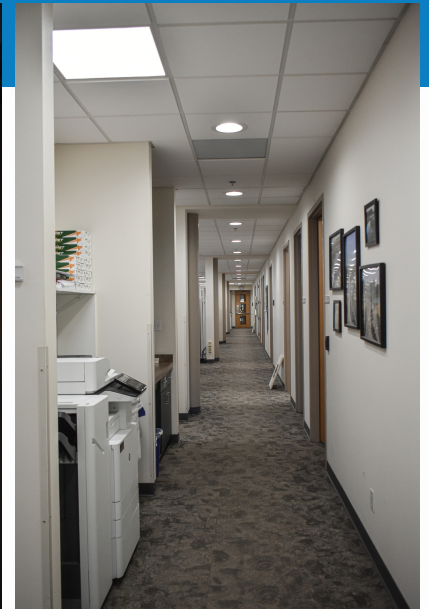

**OF CARDBOARD  
WAS RECYCLED**
