

Guyana Suriname Basin: Challenges and Opportunities - Wednesday August 31st

Start	End	Title	Speaker(s)	Moderators
8:00 AM	8:45 AM	Keynote	John Ardill (ExxonMobil) Kevin Mc Lachlan (TotalEnergies)	Jean-Marc Ugolini (TotalEnergies) Nysha Chaderton (ExxonMobil)
8:45 AM	9:10 AM	The Upper Cretaceous Stratigraphic Play in Guyana: Post-Liza Exploration, evolution of a geological and geophysical calibration, and growth of a world class resource	Luke Wilson (ExxonMobil)	
9:10 AM	9:35 AM	Process Stratigraphy: Key to unlocking the depositional architecture of the Guyana-Suriname basin	Casey Meirovitz (ExxonMobil)	
9:35 AM	10:00 AM	New Integrated Sequence Bio-Chronostratigraphic Framework for the Cretaceous offshore Suriname: a must have to understand the distribution of reservoir-seal pairs in space and time.	Jeremie Gaillot (TotalEnergies) Vincent Delhaye-Prat (TotalEnergies)	
10:00 AM	10:45 AM	Pause		
10:45 AM	11:10 AM	The prolific Upper Cretaceous Slope in Suriname: where amalgamated and destabilized deep-water fans challenge explorers	Vincent Delhaye-Prat (TotalEnergies)	Nysha Chaderton (ExxonMobil) Rosa Maria Campo (TotalEnergies)
11:10 AM	11:35 AM	Guyana / Suriname Basin: Deciphering the hydrocarbons provenance through biomarkers analysis and plumbing system modeling.	Johannes Wendebourg (TotalEnergies)	
11:35 AM	12:00 PM	Operation enablers to sustain ExxonMobil's Exploration and Appraisal pace in Guyana	Jason Combs (ExxonMobil)	
12:00 PM	1:00 PM	Lunch Time		
1:00 PM	1:25 PM	Beyond the Best Estimate: A Guyana inversion case study in supporting geomodel development	Patrick Monigle (ExxonMobil)	Rosa Maria Campo (TotalEnergies) Rachel Paez (ExxonMobil)
1:25 PM	1:50 PM	Leveraging seismic inversions and novel geologic modeling workflows to enable rapid development of Guyana's resource	Mike McGlashan (ExxonMobil)	
1:50 PM	2:15 PM	The Liza Field and Phase 1 Development: Stratigraphic insights from the horizontal drilling campaign and early production	Jane Lock (ExxonMobil)	
2:15 PM	3:00 PM	Pause		
3:00 PM	3:25 PM	Managing Subsurface Uncertainty through Development: A case study from the Payara project	Jason Burwell (ExxonMobil)	Rachel Paez (ExxonMobil) Tim Cook (Apache)
3:25 PM	3:50 PM	Integrated Chance of Success (iCOS)	Patrick Monigle (ExxonMobil) Tiffany Hedayati (ExxonMobil)	
3:50 PM	4:15 PM	Advantaged resources at scale: the Guyana-Suriname basin in context	Andrew Latham (Wood Mackenzie)	
4:15 PM	5:00 PM	Panel discussion	Drew Bishop (ExxonMobil) Jacques-Antoine Dal (TotalEnergies) Andrew Latham (Wood Mackenzie)	
5:00 PM	6:00 PM	End of Day Reception
