Disclaimer: In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Grave Liners do not have a bottom and are available only through some cemeteries. They are designed to prevent the grave from collapsing from above and on the sides. Vaults have a bottom and are designed to enclose the casket. Either a Grave Liner or Burial Vault will satisfy these requirements.
