

# JOGG: Healthy Youth, Healthy Future

A high-angle photograph of five children sitting on a light-colored wooden floor, playing with various wooden toys. The toys include colorful blocks, rings, and a small wooden car. The children are wearing casual clothing like t-shirts and jeans. The scene is brightly lit, and the floor has a natural wood grain pattern.

This course teaches how to set up a community-based approach (CBA) to create a healthy environment for children.

With input from  
Maastricht UMC and  
the Dutch JOGG approach,  
Elevate provided expert  
guidance on instructional  
design, tool selection,  
and didactical reviews.

Elevate also supported multimedia development and the technical implementation of a user-friendly e-learning and virtual learning environment (VLE).
