- ✓ Cyber Insurance
- ✓ Inland Marine for Contractors (specifically Contractor Equipment and Contractor' Tools)

Why You Might Want to Work With Us.

1

We want your customers to succeed.

Let's do it together by helping them with insurance. All business owners — especially new ones and startups — want to protect what they're building. Not all of them know how. We can help them, together.

With a click, tap, or a call, we can get them business insurance in just 10 minutes.

They get the coverage they need. You get the credit.

2

We want you to succeed.

Do an online search for "digital marketplace growth," and you likely see a lot of double-digit growth figures and trillion-dollar revenue numbers. Much of that comes from data. More accurately, it comes from pulling insights from data.

We started doing that back in 2005 in the UK. Then, we brought that knowledge and skill to the US in 2017. SEO, demand gen, customer engagement, user experience — we're pretty good at those things, and many others. We're also pretty passionate about the small business owners we do it for.

3

We want you to succeed even more.

Ernest Hemingway wrote more than 40 endings to A Farewell to Arms. The U.S. Constitution currently has 27 amendments. Nobody gets it 100% right the first time.

To us, a business relationship is a work in progress. We believe the best way to make it better is for both sides to continually work together to find new ideas, streamline processes, and reach more customers.

Sound like the kind of people you'd like to work with?
