

Technical Data Sheet

Principal Functioning Agents:

Guaranteed Analysis: 3-0-3

Total Nitrogen: 3%
Soluble Potash: 3%
Cobalt: 0.2%
Molybdenum: 0.3%

Derived From: Molybdenum, Potassium Acetate, Potassium Citrate, Cobalt Sulfate, Urea

Density:

9.2 pounds per gallon at 68°F

Application Rate:

Apply 8-16 oz per acre.

Mixing Compatibility:

CAUTION: This fertilizer is to be used only on crops which respond to molybdenum. Crops high in molybdenum are toxic to grazing animals (ruminants). Shake well before using. For professional use only. Apply only as directed.

Available Packaging:

2.5 gal jug, 2x2.5 gal box, totes

Storage & Disposal:

Storage and handling of Nuvano MoCo shall be in either fiberglass, polypropylene, plastic or low carbon stainless steel (316LSS) containers. Avoid steel or nylon vessels or steel or nylon valves and plumbing as prolonged contact will deteriorate valves and plumbing. Dispose of contents and container to an approved waste disposal plant in accordance with local, regional, and national regulations.

Foliar nutritional product

Nuvano MoCo is designed to help crops maintain vigor and recover from abiotic stress while supporting efficient nutrient uptake. The combination of molybdenum and cobalt works alongside Chelix™, Meld™ and Stimuli™ technologies to support plant metabolism, nutrient delivery and continued growth during challenging conditions.
