

ROOTS, OPTIMIZED.

WHAT IT DOES:

Nuvano Ramp is a water-based formula designed to improve the delivery and efficiency of starter fertilizer applications while encouraging early root development. Better nutrient placement and availability help young plants establish quickly, improving nutrient uptake and early-season vigor.

WHEN TO USE:

When applying planter, sidedress, and foliar nutrient applications.

OPTIMIZER TECHNOLOGIES:

Nuvano Ramp contains a proprietary blend of advanced ultra-chelation technologies that maximize the availability and uptake potential into the crop.

For more info on each technology, visit nuvano.ag.

RATE:

1-2 pints per acre

0-8-5

GUARANTEED ANALYSIS

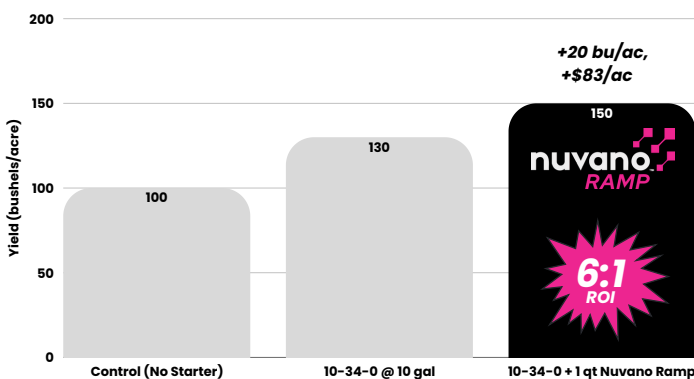

Available Phosphate (P_2O_5)..... 8%
Soluble Potash (K_2O)..... 5%
