

Year 4 Newsletter Summer Term 2026

After the Easter holidays, it's great for us all to be back together again in the classroom to complete our learning time in year 4. The children have already been introduced to an exciting curriculum in History, Geography, Science and Music.

We begin with The Stuarts (History), London and the South East (Geography), States of Matter (Science) and Jazz music. Later in the Summer term, we will learn about Japan and Electricity. In RSE our topics are growing up, responsibility, relationships and drugs. As you can see there is a diverse range of topics to be explored and a lot of learning to be done before we break for the summer. It must be remembered that underlying this curriculum are the values that knowledge is valued, specified, carefully sequenced and taught to be remembered.

Alongside these exciting new areas of learning, our mornings are filled with maths and literacy. In maths our areas of focus are: decimals, fractions, measurement, geometry and statistics. In Literacy, our new book is The Miraculous Journey of Edward Tulane.

PE continues on a Wednesday and Friday.

The long-awaited class trip is planned for Tuesday 9th June, when we will be travelling to the Holkham Estate. More details to follow.

We're continuing to focus on supporting excellent attendance for all our pupils, as we know how important it is for learning and wellbeing. If your child's year to date attendance drops below 96%, class teachers will be in touch to offer support and see if there's anything we can do to help. We really value your partnership in this and appreciate all you do to ensure your child attends school regularly.

Please feel free to contact me if you have any questions or concerns on tfurness@anthonycurton.norfolk.sch.uk

Kind Regards

Mr Furness and Mrs Harvey
