

Pope St. John XXIII
STEM ACADEMY

April 29th, 2026

Dear Parents & Guardians,

Pope St. John XXIII STEM Academy,

My name is Celeste Conflitti, though many of you know me as Ms. C. It is with great honor and humility that I write to you as your Interim Principal for the 2026–2027 school year. I am deeply grateful to Father Tuan for entrusting me with this opportunity to serve our wonderful school community.

Working hand in hand with the amazing PSJ staff is something I truly look forward to as we continue building a faith-filled environment where every student feels supported, inspired, and valued. Together, we will carry forward our Strategic Plan, rooted in providing a dynamic STEM program that ignites curiosity, encourages discovery, and fosters a lifelong love of learning.

With 32 years of experience in education, I have had the privilege of serving and supporting diverse student populations, including in the role of a Catholic school principal. This journey has been guided by a strong faith in God, a deep love of education, and a sincere desire to see PSJ flourish.

Looking back, it feels clear that the Holy Spirit guided me to apply as a substitute teacher here last September. Over the past seven months, that same guidance has strengthened my passion for this community and, most importantly, for each of you.

Building meaningful connections with you is very important to me, and I am eager to listen, learn, and better understand your hopes and needs for your children and our school community. Your partnership is essential to our shared success, and I am grateful for the trust you place in me.

The year ahead holds so much promise—filled with growth, faith, innovation, and joy. Thank you for welcoming me into this role; it is truly a blessing to be part of the PSJ family.

With faith and gratitude,

Ms. C

Celeste Conflitti

Interim Principal

Pope St. John XXIII STEM Academy

Guided by Faith, Driven by Discovery

“Let all that you do be done in love.” – 1 Corinthians 16:14
