

iNTREPID ORTHOPEDICS

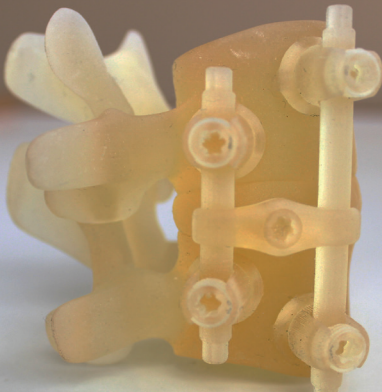

PRODUCT DEVELOPMENT EXPERTS

iNTREPID ORTHOPEDICS specializes in providing innovative medical device outsourcing solutions from concept through commercialization. When you choose us, you're partnering with a company that has successfully designed and developed over 30 internal fixation systems. Our customers range from surgeons to large orthopedic companies.

WE CAN DO ONE OR MORE OF THE FOLLOWING FOR YOU:

- Concepting
- CAD and FEA
- Prototyping
- Testing
- Regulatory 510(k) Submission
- Quality System Management
- Manufacturing
- Product Launch

RAPID PROTOTYPING QUICKLY BRINGS YOUR IDEAS TO LIFE

Our team utilizes the latest 3D software to transform your ideas from sketches into virtual models.

With finite element analysis (FEA), we identify any potential weaknesses and then create the best design solution. Next, we bring your device to life on a 3D printer.

IN-HOUSE TESTING SO YOU DON'T WAIT FOR RESULTS

Our capabilities allow us to complete your biomechanical testing and then provide you with the summarized results.

If regulatory approval is required, we will develop and submit your 510(k) application to the FDA.

MANUFACTURING PARTNERSHIPS FOR SMOOTH PRODUCT LAUNCHES

We work closely with manufacturers from the beginning of the design process to facilitate a smooth product launch.

This ensures that your product can be manufactured efficiently and effectively while maintaining the highest level of quality control.

INTREPID ORTHOPEDICS

PRODUCT DEVELOPMENT EXPERTS

Our Medical Device System Experience:

SPINE SYSTEMS

ANTERIOR

- Cervical Cages
- Cervical Corpectomy Cages
- Cervical Disc Replacements
- Cervical Systems
- Deformity Systems
- Thoracic Plating Systems
- ALIF & Lateral Cages
- Lumbar Corpectomy Cages
- Lumbar Disc Replacements
- Minimally Invasive Systems

SPINE SYSTEMS

POSTERIOR

- Occipital Plates
- Cervical Systems
- Deformity Systems
- Lumbar Systems
- PLIF & TLIF Cages
- Dynamic Posterior Systems

UPPER AND LOWER EXTREMITY SYSTEMS

- Cannulated Screws
- Compression Screws
- Buttress Plates
- Humeral Plates
- Distal Radial Plates
- Universal Hand Plating Systems
- Condylar Plates
- Reconstruction Plates
- Femoral Plates
- Proximal Tibial Plates
- Distal Tibial Plates
- Fibular Plates
- Universal Foot Plating Systems
- MTP Plates
- Calcaneal Plates
