

# T-Hex™

## Threaded Hexalobe

Enhance your system with iNTREPID's  
T-Hex™ Threaded Hexalobe Technology

## Threaded Hexalobe Locking Technology

### T-Hex™ Threaded Hexalobe Eliminate Pre-planning

Threaded hexalobe design allows the surgeon to place screw-to-screw or screw-to-rod crosslinks at any level, eliminating the need to remove and replace set screws.

Contact iNTREPID ORTHOPEDICS for more details on licensing this upgrade for your system.
