

Horse & Pony Pellet

Product Description

Woods Horse & Pony Pellet is a stock feed supplement suitable for adult horses and ponies. It is designed to provide energy, protein, minerals and vitamins to complement nutrients obtained from pastures, hays and chaff that are being consumed.

This pellet is composed of milled grains, protein meals (soybean meal, canola meal, cottonseed meal), food by-products (pulse gradings, millrun, biscuit meal, etc.), macrominerals, trace minerals and fat soluble and B complex vitamins.

Feeding Guidelines

Always feed **Woods Horse & Pony Pellet** always in conjunction with medium to good quality pasture, hay or chaff. Horses should not be fed more than 1% of their body weight of the pellets. **Woods Horse & Pony Pellet** is suitable for horses in light to medium work.

Woods Horse & Pony Pellet should be introduced gradually over a 2 week period to prevent digestive upset. Do not feed more than 2kg of pellets in a single feed. Adjust daily amount of pellets according to body condition and intensity of work. Consider feeding pellets twice daily if a higher feeding rate is required – consult your animal nutritionist first.

Typical Result* – As Fed Basis

ANALYTICAL DATA	RESULT
Crude Protein	14%
Moisture	11%
Fibre	12.78%
Fat	4.07%
Calcium	1.30%
Phosphorus	0.65%
