### General Information

All hard wired electrical products must be installed by a qualified electrician.

### Measurements

All measurements within this manual are in millimeters and are designed to be used as a guide only. Measurements may vary slightly to those within this manual and may be modified for design or enhancement purposes. Mercator reserves the right to cancel or change all products without any prior notice. EXT indicates the extension from the wall or ceiling to the outer edge of the product.

### Images

Minor design changes or alterations may result in slight variations between the product shown in this catalogue and the final product.

# Welcome to the 2025 Spring Fan Catalogue

Mercator is proud to release the 2025 Spring Fan Catalogue, filled with new and exciting products that showcase the latest designs and technology around the world.

We understand the profound impact that air quality and temperature have on well-being and productivity, and we are driven by a passion to create environments that are both comfortable and stylish.

At Mercator, we are committed to providing customers with high quality, innovative products across the decorative and trade markets. Our team continues to create, inspire and innovate through focusing on developing an extensive range of products that serve the needs of consumers and electricians alike, with new trends and inspired styles as well as the latest electrician-friendly innovations. Our determination to exceed the needs of our customers ensures that we set the benchmark in design, innovation and quality.

Mercator constantly strives to deliver superior service to our customers by offering products of the highest quality alongside merchandising solutions and exceptional customer service support.

Our friendly and knowledgeable customer service team is committed to providing customers with technical advice and support across our ever expanding product offering.

The team at Mercator hope this catalogue will be a source of inspiration, and we thank you for your trust and support as our loyal customer. We are excited to provide you with the support you need to grow your business and achieve success.

# Fans

Circulate air and maintain comfortable temperatures with multiple speed settings, reversible rotation, and optional lighting. Reduce reliance on air conditioning with these cost-effective cooling solutions.

## AC CEILING FANS

## DC CEILING FANS

## WALL FANS

## PORTABLE FANS

## APP FEATURES

- Fan & Light On/Off Controls
- Fan Speed adjustments
- Mode selection
- Summer/Winter Modes
- Light Temperature Adjustment
- Light Dimming
- Scheduling & Countdown Timers
- Automations & Scenes

### Multi-Speed Control

Offering 3 to 6 speed settings, allowing users to adjust airflow intensity for comfort in different weather conditions.

### Reversible Motor Function

Changes the blade rotation direction—clockwise in winter to circulate warm air, and counterclockwise in summer to create a cooling breeze.

### Integrated Lighting Options

Built-in light fixtures combine air circulation and illumination in a single unit—ideal for saving space.

### Energy Efficiency

Modern ceiling fans are designed to use less electricity than air conditioners, providing cost-effective cooling and helping reduce energy bills.

### Quiet Blade Operation

Designed for low-noise performance, with well-balanced, aerodynamic blades that circulate air smoothly without disturbing background peace.

# CHOOSING THE RIGHT FAN FOR YOUR SPACE

## FIT YOUR FAN TO THE RIGHT ROOM SIZE

### SMALL ROOM

3.1m x 3.1m or Smaller

1.1m Fan or smaller

### LARGE ROOM

3.7m x 3.7m  
to 5.5m x 5.5m

1.2m to 1.4m Fan

### GREAT ROOM

6.1m x 6.1m or Larger

1.5m Fan or larger

# CHOOSING THE RIGHT FAN FOR YOUR SPACE

## Location comes first

The most important factor in choosing a ceiling fan for your space is identifying where the fan will be installed.

### Dry, indoor location

Choose from any of our fan range.

### High-humidity indoor or under-covered outdoor location

Choose from any ABS fan ranges. Fans with plywood blades are not recommended.

### Outdoor location with potential contact with water

Choose a fan with high ingress protection (IP) rating.

## Fan size

The room size where the fan will be installed can serve as a general guide to your fan size.

Fan size refers to the fan diameter.

We recommend placing your fan in the centre of the room for best performance and away from the direct path of ventilation openings.

For oversized space or long corridor, consider installing multiple fans.

## Style

The style you choose is an individual decision, however timber blades and DC fans are quieter and better suited for bedrooms, while metal and ABS fans generally move more air and are better suited to high-traffic areas.

## Airflow

We measure ceiling fan airflow in cubic metres per hour— the higher the number, the more air the fan moves.

In Australia, there is currently no prescribed airflow test procedure for ceiling fans. Therefore, airflow performance can be derived by manufacturers using varying test methods of their own choosing, including informal and unverified in-house test set up.

Mercator adopts the trusted US. Department of Energy (DOE) airflow test procedure for our ceiling fans range and conduct all our airflow test in fully accredited test laboratory.

## Old test procedure

The ceiling fan is suspended by a downrod 40 5/8 inch from test ceiling and 6" above a cylinder. The cylinder is 8" larger in diameter than the fan.

## Features

We offer the widest range of ceiling fans with a variety of features. Pick a fan with the most features that matter to you.

### Fan control

Choose from wall control, pull chain control or remote control. For AC ceiling fans, a retrofit remote controller offers additional fan features, including network connectability. Smart features such as voice control and scheduling are available.

### Light kit

Ceiling fans can be supplied with or without a light fitting. The light fitting may accept retrofit globes or come with an integrated light source. The light can vary in style, ease of control, degree of light control and power it consumes. Fans fitted with lights are generally more suitable in smaller spaces as the main source of overhead light whereas larger spaces usually have alternative primary light sources.

## Ceiling height

Recommended downrod length is based on ceiling height. Mandatory minimum distance from floor to fan blades is 2.1 metres.

## Improved test procedure

The ceiling fan is mounted directly to the ceiling using the supplied downrod. Hugger fans are flush-mounted. There is no cylinder below the fan. A sensor arm detects airflow from various test points along the length of the blade.

The updated DOE airflow test procedure, as adopted by industry leaders, are very specific to ensure consistency across published airflow numbers. The performance data produced by accredited test method allows consumers to better associate the airflow numbers they see on packaging to what they will actually "feel" when using their ceiling fans at home.

Mercator has observed 10% - 45% reduction in cubic metre per hour ( $m^3/h$ ) using the improved DOE testing, compared to the same products tested under the previous procedure. Initially, the lower airflow numbers can be confusing. It is important to understand that the lower numbers don't mean less airflow is being generated. **The fans, and their airflow, have not changed. The way that airflow is being measured has changed.**

At Mercator, we strive to provide you with trusted ceiling fan performance. We recommend consumers enquire about airflow test or experience a fan performance in person whenever possible for satisfactory purchase outcome.

## AC MOTORS

### Widespread Use & Availability

AC ceiling fans are the most common type, widely available in various styles and price ranges, making them easy to source and replace.

### Cost-Effective

AC fans are generally more affordable upfront than DC fans, making them a budget-friendly choice for most households.

### Reliable Performance

Known for durability and consistent airflow, AC fans are well-suited for everyday cooling needs in both residential and commercial spaces.

### High Energy Efficiency

DC motors use up to 70% less energy than traditional AC motors, making them ideal for reducing electricity bills.

### More Speed Options

DC fans often offer 5 to 6 speed settings—or more—providing finer control over airflow compared to standard fans.

### Lightweight & Quiet Operation

DC motors are smaller and lighter, allowing for sleeker fan designs and easier installation, with minimal noise making them perfect for bedrooms, offices, and other quiet spaces.

**MERCATOR** ikuÜ

# **SMART Ceiling Fans**

Smart ceiling fans combine modern technology with everyday comfort. With just a tap or a voice command, you can adjust the speed, set timers, or manage the lights, making home comfort effortless.

## APP FEATURES

- Fan & Light On/Off Controls
- Fan Speed adjustments
- Mode selection
- Summer/Winter Modes
- Light Temperature Adjustment
- Light Dimming
- Scheduling & Countdown Timers
- Automations & Scenes

### Energy Efficiency & Quiet Performance

Designed with energy-saving motors and silent operation, smart ceiling fans are ideal for both eco-conscious and comfort-focused users.

### Lighting & Dimming Options

Integrated LED and/or globe light options with dimming features allow you to control both cooling and lighting from a single control device.

### Smart Climate Integration

Many smart fans adjust their speed based on room temperature or connect with smart thermostats for efficient climate control.

### Custom Scheduling & Automation

Set timers or daily schedules so the fan turns on & off automatically, saving energy and maintain comfort without manual effort.

### App & Voice Control

Control your fan remotely using a smartphone app or voice assistants like Alexa and Google Assistant. This adds convenience and allows hands-free operation.

#### PRODUCT DETAILS

- Reversible airflow for summer/winter use
- Corrosion and UV-resistant ABS material
- 6-speed remote controller (incl.)
- 4-step dimmable 20W CCT LED light option
  - Warm/Neutral/Cool/Daylight (max. 1200lm)
- Extension rod available (sold separately)
- Adjustable slope tilt ( $\leq 14^\circ$ )
- Easy installation with quick-connect wiring
- For indoor and enclosed outdoor areas
- Tropically rated

Mercator Limited  
Warranty

Ceiling Fan /  
Bathroom Heater

1

## 1 LIMITED REPAIR / REPLACEMENT WARRANTY

MERCATOR offers a repair or replacement warranty on MERCATOR products in cases where the product fails due to defective materials or workmanship. Please refer to the LIMITED WARRANTY PERIOD TABLE which sets out the relevant warranty and warranty period which MERCATOR grants to the purchaser of the MERCATOR product. The warranty period begins from the date of purchase. Also, please refer to WHAT IS NOT COVERED BY THE LIMITED REPAIR / REPLACEMENT WARRANTY.

You must have proof of purchase (such as the original dated purchase receipt) from an authorised MERCATOR retailer to make a warranty claim. In addition, a certificate of compliance for the installation as required by law from the installing electrician is required for products requiring installation by licensed electricians. Please refer to the Instruction leaflet for the MERCATOR product purchased, which will state if the product is required to be installed by a licensed electrician. Warranty claims without this documentation will NOT be accepted.

### Repairs / Replacements

MERCATOR Products presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods.

### Balance of Warranty

To the maximum extent permitted by law, any replaced or repaired products by MERCATOR are covered only by the balance of the warranty period remaining from the date of purchase of the original MERCATOR product.

## 2 IN-HOME REPAIR / REPLACEMENT WARRANTY

In addition to the limited warranty terms set out under section (1) above, the in-home warranty applies to all lighting products which are hard wired to the electricity supply at residential premises and are required to be installed by a licensed electrician.

**Where a consumer asserts that a product installed in-home is faulty, and a MERCATOR service agent has attended at the property, A SERVICE CALL FEE WILL BE CHARGED TO THE CONSUMER IF:**

**The product is deemed to be a non-MERCATOR product;**

1. There is nothing wrong with the MERCATOR product or to the extent that the failure is not a failure of the product to perform in accordance with its published features and specifications as reasonably determined by MERCATOR;
2. The original installation of the MERCATOR product was not carried out by a licensed electrician;
3. The installation is not performed in accordance with the relevant MERCATOR product installation instructions;
4. The defects have been caused by incorrect application or abuse or misuse by the consumer of the MERCATOR product.

In cases of in-home repair/replacements in areas outside the coverage of MERCATOR service agents, MERCATOR will reimburse customers a standard fee of \$82.50 (inc. GST) for using their own electrician. Any service request must be arranged with the MERCATOR warranty department and obtained an Approval Reference Number (ARN) before calling your own electrician. Reimbursements will not be made for call-out fees or other costs without prior approval in writing of the MERCATOR warranty department. In the circumstances where an emergency has arisen out of normal business hours and the MERCATOR warranty department cannot be contacted to dispatch a service agent to the premises, MERCATOR will reimburse customers their reasonable costs (as determined by MERCATOR) for using their own electrician.

## 3 WARRANTY TRANSFER

If the ownership changes on the dwelling where the MERCATOR product is installed, the balance of the warranty period passes to the new owner provided the proof of purchase (such as the original dated purchase receipt) from an authorised MERCATOR retailer is retained by the new owner. In addition, a certificate of compliance for the installation as required by law from the installing electrician is required for products requiring installation by licensed electricians.

## 4 AUSTRALIAN CONSUMER LAW

The benefits given to you in this warranty document are in

# Terms & Conditions

## Mercator Limited Warranty

## Ceiling Fan / Bathroom Heater

2

addition to your other rights and remedies under a law in relation to the products to which this warranty document relates.

### "YOUR CONSUMER RIGHTS"

"Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure."

Subject to "Your Consumer Rights" outlined above, but otherwise to the maximum extent permitted by law, MERCATOR will not be liable for any consequential or indirect loss or damage suffered or incurred by you in relation to a MERCATOR product, including but not limited to loss of use, loss or damage for business interruption, or profits.

## 5 WHAT IS NOT COVERED BY THE LIMITED REPAIR / REPLACEMENT WARRANTY OR THE IN-HOME REPAIR/ REPLACEMENT WARRANTY

Subject to "Your Consumer Rights", but otherwise to the maximum extent permitted by law, the MERCATOR warranties provided in this document will not cover the following:

1. MERCATOR products that are not purchased from an authorised retailer and installed in Australia.
2. Where installation was not carried out by a licensed electrician as required.
3. MERCATOR products not installed in accordance with the product's installation instructions or specifications.
4. MERCATOR products not used in accordance with the instructions for use or specifications.
5. Defect, damage or failure to a MERCATOR product resulting from misuse, accident, neglect, abuse, tampering, modifications or unauthorised repairs of any kind by any person.
6. Damages not caused by a fault in the MERCATOR product materials or workmanship. Defect, damage or failure to a MERCATOR

product resulting from any acts of God, including damages from lightning, power grid fluctuations, or power surges.

7. Minor variations of speed may be evident between different fans, including the same model.
8. Replacement of light sources (globes, fluorescent tubes, etc) unless specified.
9. Replacement of batteries supplied with certain products.
10. Power supply "noise", intermittent "humming" or other influences from mains power delivery infrastructure. Signals sent through the power grid by the electricity provider for the control of off peak hot water, street lights and other devices may cause an intermittent humming noise in your MERCATOR product. Filters for blocking/reducing such signals are available in Australia at the customer's expense. These noises do not indicate the MERCATOR product is faulty.
11. Damage caused by alternative power systems (for example: solar inverters, etc.).
12. Water damage of any kind caused by inappropriate placement of fittings not IP rated for that location.
13. The cost of renting, obtaining and using special access equipment (i.e. scaffolding, scissor lifts, etc.) for accessing products installed at a height of greater than 3.0 meters.
14. Travelling costs incurred by MERCATOR personnel or service agents traveling greater than 25 Km from a MERCATOR authorised service agent. The purchaser must meet these traveling costs.
15. Where the product does not perform to the expectation of a user but it does perform to its published features and specifications.
16. Non-structural corrosion damage of non-316 stainless steel components such as surface rust or minor rust.
17. Liability for consequential loss or claims for damage to furniture, carpets, walls, ceilings, foundations or any other event either directly or indirectly resulting from a faulty product or accessory to the maximum extent permitted by law.

## Terms & Conditions

Mercator Limited  
Warranty

Ceiling Fan /  
Bathroom Heater

### 6 COMMERCIAL USE

Mercator products which specifically designed for commercial use are designated as Commercial Use Products on the product packaging.

All Mercator ceiling fan/bathroom heater/exhaust fan products are designed for domestic use unless otherwise specified in the warranty documentation supplied with the product.

Where products designed for domestic use are used in a commercial environment/commercial premises one third of the domestic warranty as supplied with the product applies.

IN CASE OF MISSING ACCESSORIES OR PARTS, PLEASE CONTACT MERCATOR CUSTOMER SERVICE BEFORE INSTALLATION OF THE PRODUCT. IF YOUR PRODUCT IS DEFECTIVE OR EXCESSIVELY NOISY, PLEASE CONTACT MERCATOR CUSTOMER SERVICE BEFORE THE ELECTRICIAN LEAVES THE RESIDENCE WHERE THE INSTALLATION IS TAKING PLACE.

**THIS WARRANTY IS VALID IN AUSTRALIA ONLY**

### HOW TO MAKE A WARRANTY CLAIM

- A. Limited repair/replacement warranty: Please return the faulty MERCATOR product together with a copy of the proof of purchase, and if required, a certificate of compliance for the installation of the product by the licensed electrician who installed the product, to the authorised MERCATOR retailer where the product was purchased. To the maximum extent permitted by law, the customer must bear the costs and expenses of claiming under this warranty, including but not limited to the cost incurred in freight, postage, handling, travel, dismantling or reinstalling the product.
- B. In-home repair/replacement warranty: Where an in-home warranty applies, please phone the MERCATOR customer care hotline 1300 55 22 55 (select option 2.) Australia for all in-home warranty enquiries and do not phone or return the product to the retailer. Do not uninstall or return a hard-wired product to the retailer unless advised to do so by a MERCATOR customer service representative.

Visit our website at [mercator.com.au](http://mercator.com.au) for warranty claims and more information

## MERCATOR – LIMITED WARRANTY – LIGHTING PRODUCTS TERMS AND CONDITIONS

MERCATOR PTY LTD ABN: 23 005 946 958  
36 Lakeview Drive, Scoresby, VIC, 3179  
Telephone: 1300 552 255  
Email: [warranty@mercator.com.au](mailto:warranty@mercator.com.au)

### 1. LIMITED REPAIR / REPLACEMENT WARRANTY

MERCATOR offers a repair or replacement warranty on MERCATOR products in cases where the product fails due to defective materials or workmanship. Please refer to the **LIMITED WARRANTY PERIOD TABLE** which sets out the relevant warranty and warranty period which MERCATOR grants to the purchaser of the MERCATOR product. The warranty period begins from the date of purchase. Also, please refer to **WHAT IS NOT COVERED BY THE LIMITED REPAIR / REPLACEMENT WARRANTY**.

You must have proof of purchase (such as the original dated purchase receipt) from an **authorised MERCATOR retailer** to make a warranty claim. In addition, a certificate of compliance for the installation as required by law from the installing electrician is required for products requiring installation by licensed electricians. Please refer to the Instruction leaflet for the MERCATOR product purchased, which will state if the product is required to be installed by a licensed electrician. Warranty claims without this documentation will NOT be accepted.

### REPAIRS / REPLACEMENTS

MERCATOR Products presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods.

### BALANCE OF WARRANTY

To the maximum extent permitted by law, any replaced or repaired products by MERCATOR are covered only by the balance of the warranty period remaining from the date of purchase of the original MERCATOR product.

### 2. IN-HOME REPAIR / REPLACEMENT WARRANTY

In addition to the limited warranty terms set out under section (1) above, the in-home warranty applies to all lighting products which are hard wired to the electricity supply at residential premises and are required to be installed by a licensed electrician.

**Where a consumer asserts that a product installed in-home is faulty, and a MERCATOR service agent has attended at the property, A SERVICE CALL FEE WILL BE CHARGED TO THE CONSUMER IF:**

The product is deemed to be a non-MERCATOR product;

1. There is nothing wrong with the MERCATOR product or to the extent that the failure is not a failure of the product to perform in accordance with its published features and specifications as reasonably determined by MERCATOR;
2. The original installation of the MERCATOR product was not carried out by a licensed electrician;
3. The installation is not performed in accordance with the relevant MERCATOR product installation instructions;
4. The defects have been caused by incorrect application or abuse or misuse by the consumer of the MERCATOR product.

## MERCATOR – LIMITED WARRANTY – LIGHTING PRODUCTS TERMS AND CONDITIONS

In cases of in-home repair/replacements in areas outside the coverage of MERCATOR service agents, MERCATOR will reimburse customers a standard fee of \$95.00 (inc. GST) for using their own electrician. Any service request must be arranged with the MERCATOR warranty department and obtained an Approval Reference Number (ARN) before calling your own electrician. Reimbursements will not be made for call-out fees or other costs without prior approval in writing of the MERCATOR warranty department.

In the circumstances where an emergency has arisen out of normal business hours and the MERCATOR warranty department cannot be contacted to dispatch a service agent to the premises, MERCATOR will reimburse customers their reasonable costs (as determined by MERCATOR) for using their own electrician.

### 3. WARRANTY TRANSFER

If the ownership changes on the dwelling where the MERCATOR product is installed, the balance of the warranty period passes to the new owner provided the proof of purchase (such as the original dated purchase receipt) from an authorised MERCATOR retailer is retained by the new owner. In addition, a certificate of compliance for the installation as required by law from the installing electrician is required for products requiring installation by licensed electricians.

### 4. AUSTRALIAN CONSUMER LAW

The benefits given to you in this warranty document are in addition to your other rights and remedies under a law in relation to the products to which this warranty document relates.

#### “YOUR CONSUMER RIGHTS”

“Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund

for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.”

Subject to “Your Consumer Rights” outlined above, but otherwise to the maximum extent permitted by law, MERCATOR will not be liable for any consequential or indirect loss or damage suffered or incurred by you in relation to a MERCATOR product, including but not limited to loss of use, loss or damage for business interruption, or profits.

### 5. WHAT IS NOT COVERED BY THE LIMITED REPAIR / REPLACEMENT WARRANTY OR THE IN-HOME REPAIR/REPLACEMENT WARRANTY

Subject to “Your Consumer Rights”, but otherwise to the maximum extent permitted by law, the MERCATOR warranties provided in this document will not cover the following:

1. MERCATOR products that are not purchased from an authorised retailer and installed in Australia.
2. Where installation was not carried out by a licensed electrician as required.
3. MERCATOR products not installed in accordance with the product’s installation instructions or specifications.
4. MERCATOR products not used in accordance with the instructions for use or specifications.
5. Defect, damage or failure to a MERCATOR product resulting from misuse, accident, neglect, abuse, tampering, modifications or unauthorised repairs of any kind by any person.
6. Damages not caused by a fault in the MERCATOR product materials or workmanship.

## MERCATOR – LIMITED WARRANTY – LIGHTING PRODUCTS TERMS AND CONDITIONS

7. Defect, damage or failure to a MERCATOR product resulting from any acts of God, including damages from lightning, power grid fluctuations, or power surges.
8. Replacement of light sources (globes, fluorescent tubes, etc) unless specified.
9. Replacement of batteries supplied with certain products.
10. Power supply "noise", intermittent "humming" or other influences from mains power delivery infrastructure. Signals sent through the power grid by the electricity provider for the control of off peak hot water, street lights and other devices may cause an intermittent humming noise in your MERCATOR product. Filters for blocking/reducing such signals are available in Australia at the customer's expense. These noises do not indicate the MERCATOR product is faulty.
11. Damage caused by alternative power systems (for example: solar inverters, etc.).
12. Water damage of any kind caused by inappropriate placement of fittings not IP rated for that location.
13. The cost of renting, obtaining and using special access equipment (i.e. scaffoldings, scissor lifts, etc.) for accessing products installed at a height of greater than 3.0 meters.
14. Travelling costs incurred by MERCATOR personnel or service agents traveling greater than 25 Km from a MERCATOR authorised service agent. The purchaser must meet these traveling costs.

15. Non-structural corrosion damage of non-316 stainless steel components such as surface rust or minor rust.

### 6. COMMERCIAL USE

Mercator products which specifically designed for commercial use are designated as Commercial Use Products on the product packaging.

All other Mercator products are designed for domestic use.

Where products designed for domestic use are used in a commercial environment/commercial premises one third of the domestic warranty.

### THIS WARRANTY IS VALID IN AUSTRALIA ONLY

### HOW TO MAKE A WARRANTY CLAIM

#### A. Limited repair/replacement warranty:

Please return the faulty MERCATOR product together with a copy of the proof of purchase, and if required, a certificate of compliance for the installation of the product by the licensed electrician who installed the product, to the authorised MERCATOR retailer where the product was purchased. To the maximum extent permitted by law, the customer must bear the costs and expenses of claiming under this warranty, including but not limited to the cost incurred in freight, postage, handling, travel, dismantling or reinstalling the product.

#### B. In-home repair/replacement warranty:

Where an in-home warranty applies, please phone the MERCATOR customer care hotline 1300 55 22 55 (select option 2.) Australia for all in-home warranty enquiries and do not phone or return the product to the retailer.
