

Medical Alert Systems

Your Personal Link to 24 Hour Peace of Mind

Medline makes it possible for you or your loved one to remain independent, enjoying a familiar and comfortable lifestyle in the safety and security of home.

Medline is there when your family, friends, or healthcare provider cannot. With the simple push of a button, 24-hours a day, 7 days a week a friendly, caring professional will talk to you, determine what kind of assistance is needed and remain with you until help arrives.

Medical Alert Systems for Seniors or Those Living Alone

Medline makes it possible for you or your loved one to remain independent, enjoying a familiar and comfortable lifestyle in the safety and security of home.

What a wonderful feeling to have this security and peace of mind!

How Medline Works

It's very simple...whenever you need assistance simply press the button on your small, waterproof pendant or watch. A trained professional will speak to you by name over the two-way monitor in your home, and will remain with you until help arrives. IT'S REALLY THAT SIMPLE!

If you are not able to respond to the operator, Medline will call for emergency assistance immediately. After the emergency medical services have been contacted, a friend or relative on your personal contact list will be notified. Rest assured that your caring professional will remain on the line until help arrives.
