

LeafSolution new wave GUTTER GUARD

New Wave is the best punched-aluminum gutter protection on the market—featuring patented teardrop openings designed to block large debris, handle heavy water flow, and deliver lasting **performance at the most cost-effective price point**. Its durable aluminum body keeps gutters clear while maintaining a clean, low-profile appearance homeowners love.

FASCIA MOUNT

- Available in Bronze ●
- Available in 5" and 6" widths

UNDER SHINGLE

- Available in Bronze ●
- Available in 5" and 6" universal fit

Engineered for fast, reliable installation, New Wave includes a pre-cut overlap for seamless alignment and installs easily fascia-mount or under-shingle. Available in bronze, it's the ideal upgrade from basic aluminum screens, giving contractors a stronger, longer-lasting solution without increasing job costs.

Material:

- Rigid .019-gauge aluminum
- Rust- and corrosion-resistant finish

Opening Design:

- Patented tear-drop perforation
- Blocks large debris while allowing up to 40 gallons of water per minute

Profile & Dimensions:

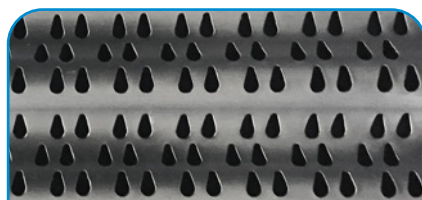

- Available in 5" and 6" configurations
- Low-profile design for a clean roofline match

Installation Options:

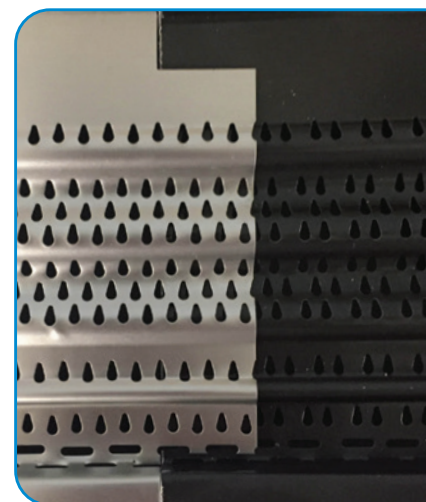

- Fascia-mount
- Under-shingle application
- Pre-cut overlap for faster, cleaner alignment

Compatibility:

- Compatible with all Leaf Solution miters
- Compatible with all Leaf Solution endcaps
- Works with standard K-style gutters
