November 2026 Newsletter

In this issue:

1) This month's meeting
2) Ken Ham Speaking Locally
3) Young Creationist Presentation
4) Public Speaking Tournament of Young Christians
5) SpudCell - World's First Synthetic Cell-like System?

This month, November 21 at 9:00 AM:

Reclaiming Science

Eric Hovind

Has science really settled the age of the Earth, or is there far more to discover than most people ever hear? In this fast moving session, Eric Hovind takes you inside the fascinating

research of creation scientists working in biology, astronomy, geology, and engineering. Explore surprising evidence, unanswered questions, and scientific discoveries that challenge assumptions about millions and billions of years and reveal just how much there is still to investigate in God's incredible world.

God created a universe worth discovering. Maybe He created you to discover something in it.

This talk will be suitable for audiences of all ages, young & old!

Eric Hovind grew up immersed in the world of apologetics, completing his college education in 1999. President and Founder of Creation Today, Eric has spoken in eight foreign countries and all fifty states, produced 132 episodes of The Creation Today Show broadcasting on three continents, and to synergize the Creation Movement, began the Creation Network including:

www.CreationToday.org

www.SearchCreation.org/

www.VisitCreation.org/

www.CreationEvents.org/

Eric lives in Pensacola, Florida.

Our meeting starts at **9:00 AM Saturday, November 21** at Greater Portland Bible Church, 2374 SW Vermont St.

For those who cannot attend in person, the meeting will also be livestreamed from a link on our website at https://designsciencenw.org/livestream

~~~~~~

Ken Ham Speaking Locally this Month

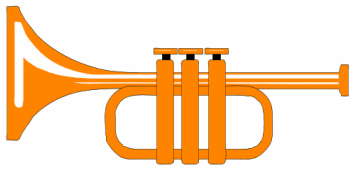

The founder and President of **Answers in Genesis** will be speaking at morning services of Word of Grace Bible Church in Battle Ground WA on **Sunday November 15**. See
~~~~~~

details at **Answers in Genesis Event** and please plan on the **11:30am** service as the 9:00am one is for Russian speakers and is usually very full.

And that Tuesday evening **November 17** Ken Ham along with Heidi St. John will be speaking at **People's Church** of **Salem**. The event is free but registration is required at **Answers in Genesis Salem Event**

~~~~~~

Presentation from a Young Creationist!

We have our second volunteer this month of a **young person speaking** to DSA for 5 to 10 minutes. This is to help young people gain confidence in public speaking. **Joel** will share with us **"Lessons We Learn from Mount St. Helens About Grand Canyon**." For his efforts he will be rewarded with a $25 gift certificate to the DSA Book Table. If you are a young person up through 18 years of age, have a passion for some creation-related topic and would like to volunteer next month, **email us** or contact us through the website.

~~~~~~

Public Speaking Tournament of Young Christians

Joel who will be sharing with us for up to 10 minutes is actively involved in the **National Christian Forensics and Communication Association** that trains Christian young people in **public speaking**. **NCFCA** is holding a **tournament** Jan. 27 - 29 in Vancouver, WA. The event is open to the public though **registration is required**. See **https://ncfca.org/tournaments/vancouver-wa-qualifier/** to register.

~~~~~~

SpudCell - World's First Synthetic Cell-like System

The 1953 Miller-Urey experiment demonstrated how organic amino acids could spontaneously form from inorganic matter. Amino acids are the building blocks of proteins and proteins are crucial in forming cells.
~~~~~~

The experiment was by no means "spontaneously" conducted and really proved nothing.

But in the news as of July is **SpudCell!** The world's first bottom-up synthetic cell-like system. Just how lifelike is SpudCell? Was it really built from scratch, and can it help us understand the origin of life?

Find the answers in the July article by **Dr. Georgia Purdom** of Answers in Genesis at **https://answersingenesis.org/origin-of-life/synthetic-life/have-scientists-built-a-cell-from-scratch/**

~~~~~~

Coming up at our December 19 Meeting

Steve Hayley will speak on **The Ice Age in the Fort Rock Basin of Oregon**

Check out DSA's website **https://DesignScienceNW.org** for additional events.
