

# CHÂTEAU PIERREFONDS

## *A Historic Residence Dedicated to Care*

*An introduction to the care,  
values, and thoughtful approach  
that define our residence.*

# *About Our Residence*

Standing gracefully since **1902**, Château Pierrefonds carries more than a century of stories within its walls. Overlooking the water's edge and nestled in a peaceful, historic setting, the residence offers a rare blend of timeless charm and modern care. From the moment one enters, there is a sense of calm, continuity, and warmth — a place where life slows down and presence takes centre stage.

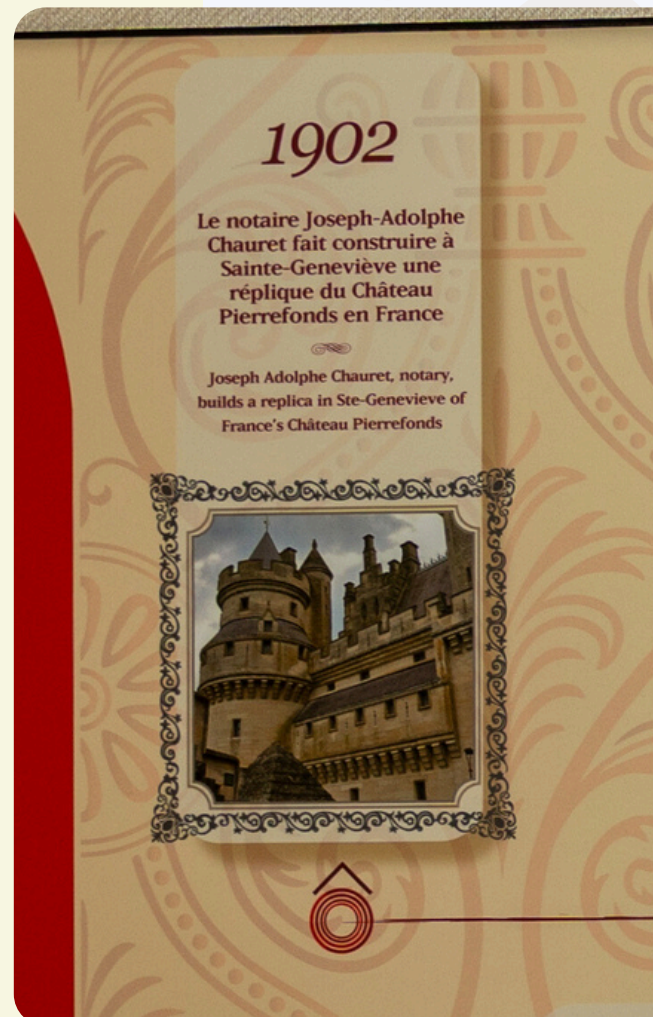

Château Pierrefonds is not simply a residence; it is a home **shaped by generations**, thoughtfully adapted to meet the needs of today's seniors. Here, history is not frozen in time — it lives alongside care, comfort, and human connection. The character of the building, combined with attentive support, creates an environment that feels familiar, reassuring, and deeply respectful.

# *A Place Where History Lives On*

**Since the early 20th century, Château Pierrefonds has evolved while preserving its soul. Its long history offers residents a sense of grounding and familiarity.**

Familiar architecture, gentle rhythms, and a setting rich in character help residents feel oriented and secure. History becomes a source of comfort. Not something distant, but something felt.

At Château Pierrefonds, the past is not left behind; it becomes part of the care experience, anchoring residents in a space that feels meaningful and lived-in.

# *Waterside Charm*

The proximity to the water brings a unique serenity to daily life at Château Pierrefonds. Natural light, open views, and the gentle presence of nature create a soothing atmosphere that encourages reflection and calm.

Moments by the water, whether through a window or during supervised outdoor time, offer peace and emotional grounding.

This environment supports well-being in subtle but powerful ways. The sound of water, the rhythm of the seasons, and the beauty of the surroundings contribute to a sense of balance and comfort.

It is a place where residents can pause, breathe, and feel connected — to nature, to themselves, and to the present moment.

*Set by the water, Château Pierrefonds offers a soothing environment where light, nature, and quiet views encourage calm, comfort, and connection.*

# *The Importance of Specialized Care*

- ✓ Every resident has unique needs. At Château Pierrefonds, seniors living with cognitive disorders receive specialized care rooted in understanding and respect.
- ✓ Our team is trained to observe, listen, and adapt with care. This understanding allows us to respond with calm, consistency, and compassion.

*By combining clinical knowledge with human presence, we create an environment where residents feel safe, respected, and supported throughout every stage of their journey.*

# ***Best Practices, Human Approach***

**Our care model is guided by best practices in specialized senior care, continuously informed by research and professional standards. But expertise alone is never enough. What defines Château Pierrefonds is the way knowledge is paired with humanity.**

We believe care must be both structured and gentle. Our team works proactively, anticipating needs rather than reacting to difficulties.

Through respectful communication, steady routines, and meaningful engagement, we support residents in maintaining dignity and comfort at every stage of their journey.

No two residents are alike — and neither are our care plans. At Château Pierrefonds, we develop individualized care and service plans tailored to each person's cognitive condition, physical abilities, emotional needs, and personal history.

These plans evolve with the resident, ensuring **continuity** and **adaptability**. Whether support is needed for daily activities, mobility, emotional reassurance, or cognitive stimulation, our approach remains flexible and personalized. Families can feel confident knowing their loved one is seen as a whole person, not a diagnosis.

## *Individualized Care & Service Plans*

# Security

At Château Pierrefonds, safety and peace of mind are essential. With 24/7 supervision, trained staff, secured areas, and discreet safety systems, we provide a reassuring environment that protects residents while preserving dignity and autonomy.

Families can feel confident knowing their loved one is **supported at all times**.

## Our safety measures include:

- Supervised medication management
- Assistance with personal care (bathing, dressing, incontinence support)
- Emergency intercom system accessible to residents
- Fire alarm system monitored 24/7
- Controlled water temperature in all bathtubs
- Discreet surveillance in common areas

# Visit Château Pierrefonds

Choosing a home for a loved one takes time and trust. At Château Pierrefonds, we welcome families with warmth and respect, and encourage you to visit, explore our environment, and better understand our approach to specialized senior care.
