Trifecta Race Format

-  **Rolling Start** – Races begin in 2 lines behind the starting official, who controls the pack until it's uniform, then exits to start the race.
-  **3 Races Back-to-Back** – Skaters stay on the floor between races; only short breaks for tabulation. Coaches may use the designated **Coaches Box** after each race.
-  **Starting Positions** –
 - Race 1: Blind draw
 - Race 2: Seeded from Race 1 finish
 - Race 3: Seeded from lowest → highest total points from Races 1 & 2
-  **Scoring** – 1 point = 1st, 2 points = 2nd, 3 = 3rd, etc. Lowest total points after 3 races wins.

- 🕒 **Race Endings** – In Races 1 & 2, competition ends once the winner crosses the line. All placements are recorded by tabulators & Race-Monitor timing system.
- 📶 **Race Monitor Timing System** – Kentucky Speed Thoroughbred Classic uses Race Monitor Timing per USARS rules: *“placement is determined by the front point of the front wheel of the leading skate with at least one wheel in contact with the skating floor crossing the finish line.”* Race Monitor uses an ankle timing chip as a secondary placement tool. A free app (Android & iOS) provides live race data, while **Race Monitor Plus (\$4.99)** adds detailed lap-by-lap tracking and race-by-race analysis.
