A Note About Image Quality

The printed image will be a direct reflection of the quality of the photo you provide.

So what works best?

- 300 600 dpi
- At least six inches on the shortest side
- No edits, no cropping

See examples below:

good quality image (in focus)

poor quality image (out of focus)

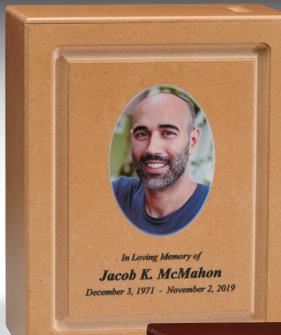

Please contact us directly if you have any questions.

Note: Custom Photo urns require a minimum of two full business days for production after approval is received, and will ship on the third business day.

A Word About These Metal Urns

In addition to wood urns, we've integrated the colored textured printing technology into a select group of our metal urns. The process results in a detailed image with a striking likeness that accentuates the unique features of your loved one. This creates a priceless remembrance and healing connection to the life that was lived.

Introducing Tribute Coins™

by Davis Whitehall®

featuring Colored Texture Printing.

Each stainless steel coin offers a raised,

UV cured printed surface on the

front that captures the cherished

image of a loved one, and with

detailed engraving on the back.

In addition to memorializing a

loved one, the Tribute Coins™

can be used to commemorate

life celebrations and other

milestones, such as births,

weddings, anniversaries, as

well as athletic and academic

achievements. Each coin is placed

*

in a protective collector's case and set

in a velvet presentation box.
