HONORING A LIFE WORTH REMEMBERING

VOL. 3

## *The Davis Whitehall Co.*

Whether you are a funeral professional looking to offer your family the best in urns today or a family that has recently lost a loved one, we are here to help honor a life worth remembering.

### *Our Humble Beginnings*

The idea for Davis Whitehall was born in 1991. We got our start when founder Terry School, an accomplished woodworker, noticed that the wood urns available to cremation families were lacking in both quality and creativity. Terry decided that grieving families deserved the best and so he started The Davis Whitehall Co. in Colorado Springs, Colorado. In our first year, the company sold 12 urns. However, despite this meager start, Terry had found his calling in the funeral profession; working closely with funeral directors and families in creating one of a kind, lasting memorials for loved ones.

### *Products We Love Made by People Who Care*

We're proud of our hardwood urns and of the people who make them. These urns feature hand-drawn artwork by a local artist. Here at Davis Whitehall, we believe that when losing a loved one, it's necessary to not only mourn the death, but to capture the memories and celebrate the life that was lived.

We have full control of the manufacturing process, from raw materials to finished urns. All the product phases such as design, product development and urn production are handled exclusively by our Davis Whitehall team.

### **Return Policy**

All product will be accepted for return within 21 days of purchase, provided the product is returned to us in its original packaging, and in new, resellable condition. All returns must have an RMA#. (Return Merchandise Authorization)  
Please contact us for an RMA# **before** shipping any returns.  
Customized and/or Personalized product may not be returned.

### *There's No One Who Can Personalize and Customize an Urn the Way We Can*

We were the first urn company to introduce sculpted laser carved wood urns and later launched the innovative line of Heartfelt Keepsakes®. Our newest addition, detailed engraving on metal urns, is another exciting way to provide memorialization for families who have lost a loved one.

Along with all the products you will see in this catalog, The Davis Whitehall Co. offers the ability to customize and personalize urns to meet a family's individual needs. At Davis Whitehall, we view urn customization and personalization as a ministry, because nothing requires more compassion and understanding than the death of a loved one – nothing.

### *Our Unwavering Dedication to Those Who Have Lost a Loved One*

Twenty-eight years ago, the percentage of families choosing cremation was 18%. Today, more than half of families who experience a death choose cremation. Since 1991, a number of urn companies – big and small – have come and gone. But Davis Whitehall endures, in part due to our focus on the needs of families who have lost a loved one.

Davis Whitehall remains a small, family-owned company with a firm dedication to quality and service. Terry and his wife Deonne remain involved in all aspects of day to day operations. As Terry likes to say, "A Davis Whitehall urn is the last gift a family will ever buy for their loved one. When you are preserving a final memory, it must be perfect."

## **1030 Halia**

Bubinga with Maple top and one Memory Stone  
11.125 x 8.125 x 6.5" — 225 cu. in.

The pebble\* placed on the top of this urn is a symbol of the individual who has passed. This pebble creates ripples which represent the effect the loved one's life still has on family and friends long after they are gone.

*\*Pebble on top of urn cannot be personalized.*

## **1030-MS Memory Stone**

Each Halia urn comes with one complimentary loose Memory Stone with the first name engraved in the font shown. These stones are meant to be a tactile way for loved ones to keep, display or even skip into the waters of a pond or seashore. If more Memory Stones are desired, they are available at an additional cost. This urn creates a wonderful final gift for a loved one.

***The Halia, (pronounced "Huh-LEE-ah"),  
is Hawaiian for "Remembrance  
of a Loved One."***

# CUSTOMIZATION HELPFUL HINTS

*Every funeral arrangement is unique and this important event involves a number of choices and decisions. It's useful to consider all options and take the necessary time to determine what is best for families and their specific situation.*

When submitting a photo for customization, take a moment to consider if the quality and composition is acceptable for submission. Images that are low resolution, i.e., 72 dpi or less, will appear pixelated or "fuzzy" and not sharp. For best results, images should be 300 dpi or higher. See examples on the right.

Upon submission, please be very specific about the family's preferences for the photo or image. Often there are multiple people or distracting items that the family would prefer be taken out. Detailed instructions and direction will ensure our professional imaging department will meet expectations and provide a fast turn around on proofs.

Please note that all images that are subject to copyright can only be used with the written permission of the copyright holder.

**NOTE: CUSTOM PHOTO URNS REQUIRE A MINIMUM OF TWO FULL BUSINESS DAYS FOR PRODUCTION AFTER APPROVAL IS RECEIVED, AND WILL SHIP ON THE THIRD BUSINESS DAY.**

NOTES

## ***We're Good Neighbors and Stewards of the Earth***

From our very first day, it's been our mission to make decisions everyone could be proud of – our staff, our customers and the community at large. We do our part to keep our environment green by using only hardwoods – a renewable resource – from companies that observe sustainable forestry management practices.
