R A D I A N C E
BY MATTHEWS®

We uncompromisingly honor your loved one. We take your loved one's personal carbon and grow a beautiful Radiant Diamond™. Together we will embark on a 6-9 month journey turning your loved one's personal carbon into a tangible symbol of love and connection. Carbon can be sourced from your loved one's hair, clothing, stationery, flowers, or cremated remains.

Diamond Journey Process

6 - 9 MONTH JOURNEY

STEP 1: CULTIVATE

Just as enriched soil nurtures seedlings, we carefully extract and purify carbon from your loved one's cherished items, creating a garden of carbon to grow your diamond.

STEP 2: SEED

Much like planting an ideal seed for a blossoming flower, we carefully embed personal carbon onto a diamond seed.

STEP 3: GROWTH

Like a flower thriving in cultivated soil and sunlight, the seed from your loved one's carbon grows into a Radiant Diamond™.

STEP 4: SHAPE

The shaping phase, like pruning a flower, carefully guides its form to reveal beauty and promote brilliance.

STEP 5: SETTING

Just as a florist arranges flowers to magnify their beauty, we set your diamond into an elegant tribute of enduring love.

STEP 6: YOUR OWN UNIQUE RADIANCE DIAMOND

Now fully formed, like a flower in full bloom, you can take your loved one with you to make new memories.

Explore the Possibilities

Through the Radiant Diamond™ process, you will have a real, unique diamond sourced from your loved one that will sparkle at every angle, a gentle reminder of the beautiful life that continues to live on forever. If you wish to have your Radiant Diamond™ set, our expert jewelry designers will work with you to design the perfect jewelry setting for you to take on all of life's adventures.

Celebrated for its distinctive character and natural beauty, Ambrosia Maple features unique grain patterns accented by subtle mineral streaks created as the tree grows. Small pinholes and other natural markings are inherent characteristics of the wood, adding to its authentic charm and individuality. No two pieces are exactly alike, making each urn a truly one-of-a-kind tribute. The wood's warm tones, ranging from creamy blondes to rich golden browns, create a striking yet timeless appearance that complements both traditional and contemporary designs.

urn can hold portion of cremated remains

BIOTREE®: HOW IT WORKS

Add cremated remains to the base of the Biotree® Urn.

Plant seeds redeemed from the provided seed certificate, or purchase tree sapling.

Just add water. No need to add soil, and the Biotree® will treat the cremated remains.

Watch a loved one become a tree. Biotree® Urn may be kept inside until it begins to crack, then it is time to plant the urn.

The Biotree® Urn and cremated remains are returned to nature as the tree grows.

Using the included tag, the location of the tree can be geotagged and families can create an online memorial to share with friends and family.

Scattering tubes feature a removable lid, and perforated "push-in" tab to easily dispense the cremated remains. Made of recycled cardstock, scattering tubes contain no metal or plastic and can be recycled after use, or will biodegrade naturally if buried.
