Battery

### **Instructor Information:**

Jason led the design and implementation of impactful and sustainable training programs. He delivered various formats of training on MSA's fire service products to ensure our team and channel partners are well-prepared to drive and secure MSA business.

Jason joined MSA in 2003 as a Customer Service Representative. Since then, he has been an integral part of the Product Concern Report team, now known as the Issues Resolution Group, provided technical support for the GX2 launch and served as a Customer Service Team Lead. Jason played a pivotal role in developing the Customer Service Remote Program. For the past decade, he has been a Repair Training Instructor for SCBA and portable gas detection, covering the western United States. In 2025 Jason accepted the role of MSA Fire Service sales trainer to provide field sales with MSA fire products knowledge.
