

DIAMOND DOTZ®

Diamond Dotz® isn't just a craft—it's a moment of creative magic. With each tiny, shimmering dot, kids and adults alike unlock a world of color, focus, and satisfaction. Whether they're dotting a bracelet, decorating a sticker, or completing a full design, the process is calming, rewarding, and seriously fun. These kits invite makers to slow down, get creative, and enjoy the tactile joy of turning little gems into eye-catching masterpieces.

Every design bursts with personality—from whimsical unicorns and undersea friends to bold geometric patterns—and each kit comes with everything needed to dive in, including a precision tool and patented super-strong adhesive that keeps every dot in place. Plus, shapes are matched to colors for easy, accurate placement, so anyone can create something dazzling that lasts.
