

## The Ultimate Slime & Squish Maker Setup

A simple way to stay in stock when squish demand won't slow down

The Slime Station Toy Tower is a compact, high-impact, in-stock merchandising solution built around Doctor Squish—the #1 slime influencer with over 4.1M TikTok followers and 3.5M YouTube subscribers. Designed to turn viral slime content into real-world sales, this 180° Toy Tower features a curated mix of Doctor Squish products and top-performing Toysmith slimes. With both peggable and shelf space, it's easy to merchandise a full, cohesive assortment in just a few feet, maximizing retail dollars per square foot while keeping setup and reordering simple.

With ongoing shortages across competitive slime and squish products, this display gives retailers a reliable, in-stock solution to meet demand. At the center is the Doctor Squish Squish Maker, which works with any slime in the display—creating a natural, easy upsell whenever customers engage with the product. Paired with additional Toysmith slimes designed to work seamlessly together, the Slime Station drives higher AOV while making in-store merchandising effortless.
