

PMI® Risk Management Professional (PMI-RMP)

Length: 4 Days

The PMI-RMP credential acknowledges the individual's unique expertise on the project team while demonstrating the recognition and value the role provides to the project management profession.

This course is designed for project managers as well as project participants and line managers who work directly with risk management and who wish to prepare for the PMI® Risk Management Professional (PMI-RMP) exam.

Learning Objectives

- Explain the value and benefits of the PMI-RMP credential
 - Perform a self-assessment of your knowledge and skills
 - Prepare a study plan that will allow you to pass the exam
-
