

KEMPER Dusty

Ultra light, flexible and powerful.

These are only some properties of this small power house. Two strong turbines provide an excellent suction efficiency and high static pressing. The minimum weight makes it very flexible and universal for so many uses.

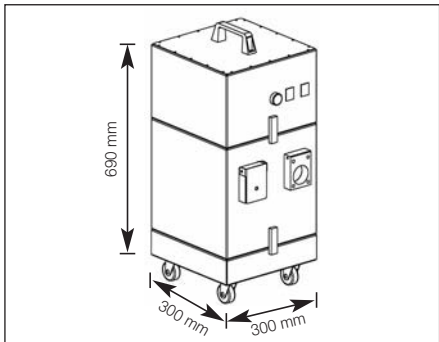

A KemTex® ePTFE membrane filter cartridge provides the filtration of superfine dust below 0,1 µm. Thereby this unit is suitable for the separation of alveole exchangeable dusts. The advantage of surface filtration is, that the filter cartridge can be cleaned. In case of the Dusty, this happens manually the minute when an essential cleaning will be indicated by the instrument itself. The collected dust can easily extracted from the lower part of the unit.

Different nozzles, welding torches with integrated extraction or mini exhaust arms of the extensive accessory program can be connected to the two lugs of this extraction and filter unit. The suction performance can be stepless and electronically controlled.

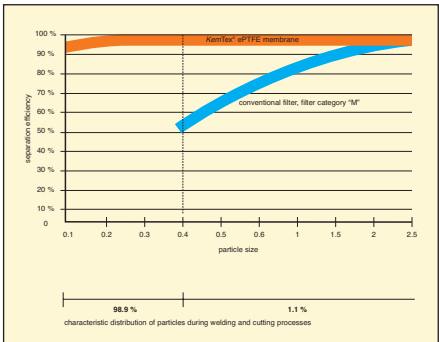

Part No.	Description	€
63 100	KEMPER Dusty 1,6 kW · 1 x 230 V / 50 Hz	980,00

Technical data

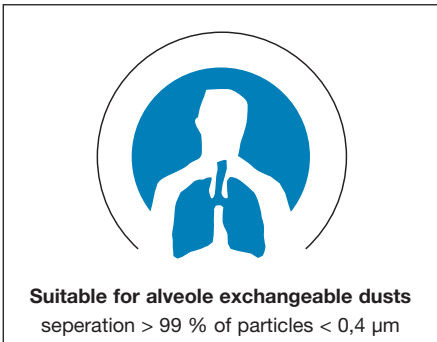

suction performance:	1 x 230 V / 50 Hz
motor power:	340 m³/h
voltage:	1,6 kW
noise level:	74 dB (A)
filter efficiency:	> 99,9 %
weight:	21 kg
dimensions:	300 x 300 x 690 mm

Dimensions

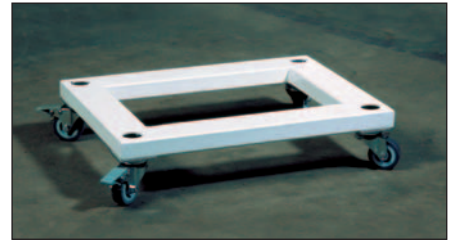

harmful substances,
which arise during the welding process

Accessories

Trolley

Part No.	Description	€
91 750 200	trolley for Mini-Weldmaster incl. 4 guide rollers, breakable	86,50

Suction hose

Part No.	Description	€
93 070 004	suction hose diam. 45 mm, length: 2,5 m	48,00
93 070 005	suction hose diam. 45 mm, length: 5,0 m	95,00
93 070 006	suction hose diam. 45 mm, length: 10,0 m	184,00
10 600 71	adaptor for welding torches with integrated extraction	6,20

Slit nozzle 300 mm

Part No.	Description	€
23 200 08	slit nozzle, 300 mm, with magnetic foot	115,00

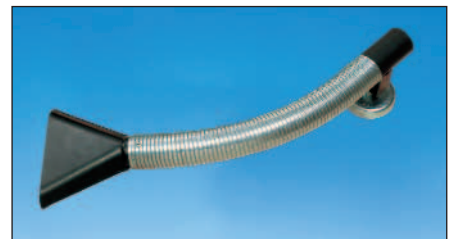

Slit nozzle 600 mm

Part No.	Description	€
23 200 09	slit nozzle, 600 mm, with magnetic foot	124,00

Funnel nozzle

Part No.	Description	€
23 200 10	funnel nozzle flexible, with magnetic foot	122,00

Welding shield

Part No.	Description	€
280 010 030	welding shield with integrated extraction	98,00

Adaptor for welding torches

For connection with a hose, Ø 45 mm.

Part No.	Description	€
10 600 71	adaptor for welding torches with integrated extraction 42 - 44 mm	7,00
10 601 04	adaptor for welding torches with integrated extraction 39 - 42 mm	7,00
10 600 84	adaptor for welding torches with integrated extraction 30 - 38 mm	7,00
