- always ready to help
- creative
- debate
- public and media communication

INTERESTS

My interests are very diverse. I am very involved in politics. My main interests are infrastructure policy and foreign policy. My interest in foreign policy also overlaps with my interest in foreign cultures and travel. Furthermore, a great passion of mine is art and classical music, I also played the piano for many years and to this day you can meet me, whenever possible, at museums, exhibitions or the opera. An important balance to everyday life for me is cooking and spending time with my dog, so I can recharge my batteries to deal with everyday life.

EDUCATION

Since 09/2021	BA Cultural Science with major History University Lucerne
