### **Bremer Bay Canyon Orca Experience important notes:**

If you are prone to seasickness, it may be helpful to take anti-seasickness medication before your trip, following confirmation from your doctor.

Staying outside in the fresh air and keeping your eyes on the horizon, towards land and avoiding heavy meals before the tour can help alleviate seasickness.

Dress in layers as it can be colder at sea than on land. We recommend you bring sun protection, (sunglasses, hat, sunscreen) a camera, binoculars for better viewing and a reusable water bottle and keep cup.

Please note the appearance of wildlife is not guaranteed and cruise is dependent on favourable weather conditions.
