Health and Safety – General Policy-Rainham

At New Beginnings Day Nursery, **we provide and** maintain safe and healthy working conditions, equipment and systems of work for all our employees and a safe early learning environment in which children learn and are cared for. To develop and promote a strong health and safety culture within the nursery for the benefit of all staff, children, parents and any visitors, we provide information, training and supervision. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the particular arrangements which we will make to implement our health and safety procedures are set out within this policy and we make sufficient resources available to provide a safe environment.

Legal framework

We follow all relevant legislation and associated guidance relating to health and safety within the nursery including:

- The requirements of the Early Years Foundation Stage (EYFS) Statutory Framework
- The regulations of the Health and Safety at Work etc. Act (1974) and any other relevant legislation such as Control of Substances Hazardous to Health Regulation (COSHH)
- Any guidance provided by UK Health Security Agency, the local health protection unit, the local authority environmental health department, fire authority or the Health and Safety Executive.

Aims and objectives

The aim of this policy statement is to ensure that all reasonably practical steps are taken to ensure the health, safety and welfare of all persons using the premises.

To achieve this, we will actively work towards the following objectives:

- Establish and maintain a safe and healthy environment throughout the nursery including outdoor spaces
- Establish and maintain safe working practices amongst staff and children
- Make arrangements for ensuring safety and the minimising of risks to health in connection with the use, handling, storage and transport of hazardous articles and substances
- Ensure the provision of sufficient information, instruction and supervision to enable all people working in or using the nursery to avoid hazards and contribute positively to their own health and safety and to ensure that staff have access to regular health and safety training
- Maintain a healthy and safe nursery with safe entry and exit routes

- Formulate effective procedures for use in case of fire and other emergencies and for evacuating the nursery premises. Practice this procedure on a regular basis to enable the safe and speedy evacuation of the nursery
- Maintain a safe working environment for pregnant workers or for workers who have recently given birth, including undertaking appropriate risk assessments
- Maintain a safe environment for those with special educational needs and disabilities and ensure all areas of the nursery are accessible (wherever practicable)
- Provide a safe environment for students or trainees to learn in
- Encourage all staff, visitors and parents to report any unsafe working practices or areas to ensure immediate response by the management.

We believe the risks in the nursery environment are low. To maintain the maximum protection for children, staff and parents, the nursery:

- Ensures all entrances and exits from the building, including fire exits are clearly identifiable, free from obstruction and easily opened from the inside
- Regularly check the premises room by room for structural defects, worn fixtures and fittings or electrical equipment and take the necessary remedial action
- Ensures that all staff, visitors, parents and children are aware of the fire procedures and regular fire drills are carried out
- Has the appropriate fire detection and control equipment which is checked regularly to make sure it is in working order
- Ensures that all members of staff are aware of the procedure to follow in case of accidents for staff, visitors and children
- Ensures that all members of staff take all reasonable action to control the spread of infectious diseases and wear protective gloves and clothing where appropriate
- Ensures there are suitable hygienic changing facilities (see Infection control policy)
- Prohibits smoking or vaping on the nursery premises
- Prohibits any contractor from working on the premises without prior discussion with the officer in charge
- Encourages children to manage risks safely and prohibits running inside the premises unless in designated areas
- Risk assesses all electrical sockets and take appropriate measures to reduce risks where necessary and ensure no trailing wires are left around the nursery
- Ensures all cleaning materials are placed out of the reach of children and kept in their original containers
- Ensures staff wear protective clothing when cooking or serving food
- Prohibits certain foods that may relate to children's allergies, e.g. nuts are not allowed in the nursery
- Follows the EU Food Information for Food Consumers Regulations (EU FIC) by identifying the 14 allergens listed by EU Law that we use as ingredients in any of the dishes we provide to children and ensure that all parents are informed

- Follows the Allergies and allergic reactions policy for children who have allergies or have a reaction at the nursery
- Ensures risk assessments are undertaken on the storage and preparation of food produce within the nursery
- Familiarises all staff and visitors with the position of the first aid boxes and ensure all know who the appointed first aiders are
- Provides appropriately stocked first aid boxes and check their contents regularly
- Ensures children are supervised at all times
- Takes all reasonable steps to prevent unauthorised persons entering the premises and have an agreed procedure for checking the identity of visitors
- Ensures no student or volunteer is left unsupervised at any time
- Ensures staff paediatric first aid (PFA) certificates or a list of staff who hold a current PFA certificate are on display (and/or made available to parents).

Responsibilities
The designated Health and Safety Officer in the nursery is Laura Westmoreland.

The employer has overall and final responsibility for this policy being carried out at:

New Beginnings Nursery, 111 Wennington Road Rainham RM13 9TH

The nursery deputy nursery manager will be responsible in their absence.

All employees have the responsibility to cooperate with senior staff and the manager to achieve a healthy and safe nursery and to take reasonable care of themselves and others. Neglect of health and safety regulations and duties will be regarded as a disciplinary matter (see separate Disciplinary procedure).

Whenever a member of staff notices a health or safety issue or problem which they are not able to rectify, they must immediately report it to the appropriate person named above. Parents and visitors are requested to report any concerns they may have to a senior member of staff in the area

Daily contact, monthly staff meetings and health and safety meetings provide consultation between management and employees. These include health and safety matters.

Health and safety training
Person responsible for monitoring staff training is Laura Westmoreland.

Health and safety is covered in all induction training for new staff.

Training table (example):

Area	Training required	Who
Paediatric First Aid	Course	All staff
Dealing with blood	In house training/course	All staff and students
Safeguarding children and child protection	In house training/course	All staff and students
Care of babies	In house training/course	At least half of the staff working with under twos
Risk assessments	In house training/course	All staff
Fire safety procedures	In house training	All staff and students
Use of fire extinguisher	In house training/course	All staff where possible
Food hygiene	In house training/course	Anyone involved in preparing and handling food
Allergy awareness	In house training/course	All staff and students
Manual handling	In house training/course	All staff and students
Stress awareness and management	In house training/course	All staff
Changing of nappies	In house training	All staff
Fire marshal duties	External course	Fire marshal
Medication requiring technical or medical knowledge, e.g. Epi Pen	External course	As required
SENCo	External course	SENCo
Supervision and appraisal	External course	Manager, deputy and room supervisors

At least one member of staff on the premises and available at times when children are present MUST hold a full paediatric first aid (PFA) certificate in the nursery and must accompany

children on outings. The certificate must be for a full 12 hour course consistent with the criteria set out in Annex A of the EYFS.

This must be renewed every three years.
In addition to this, all newly qualified entrants to the early years workforce who have completed a level 2 and/or level 3 qualification on or after 30 June 2016, must also have either a full PFA or an emergency PFA certificate within three months of starting work and ongoing in order to be included in the required staff: child ratios at level 2 or level 3. To continue to be included in the ratio requirement the certificate must be renewed every three years.

At nursery, we take in to account the number of children, staff, layout of premises to ensure that a paediatric first aider is able to respond to emergencies quickly.

All trained first aiders are listed in the Accidents and first aid policy. Our trained first aiders are -->

New Beginnings Day Nurseries

Health and safety arrangements

- All staff are responsible for general health and safety in the nursery
- Risk assessments will be conducted on all areas of the nursery, including rooms, activities, outdoor areas, resources, cleaning equipment, legionella and lone working
- Risk assessments are reviewed at regular intervals and when arrangements change
- All outings away from the nursery (however short) will include a prior risk assessment – more details are included in our Visits and outings policy
- All equipment, rooms and outdoor areas are checked thoroughly by staff before children access them or the area. These checks are recorded and initialled by the staff responsible. Unsafe areas are made safe where possible or the area is not used to promote the safety of children. In these cases the manager will be notified immediately
- We provide appropriate facilities for all children, staff, parents and visitors to receive a warm welcome and provide for their basic care needs, e.g. easy to access toilet area and fresh drinking water
- We adhere to the Control of Substances Hazardous to Health Regulation (COSHH) to ensure all children, staff, parents and visitors are safe in relation to any chemicals we may use on the premises
- We identify and assess any water sources at risk of legionella[1], and manage these risks including avoiding stagnant water
- All staff and students receive appropriate training in all areas of health and safety which includes risk assessments, manual handling, fire safety and emergency evacuation procedures. We may also use benefit risk assessments for particular activities and resources for children
- We have a clear Accidents and first aid policy to follow in the case of any person in the nursery suffering injury from an accident or incident
- We have a clear fire safety policy and procedure, which supports the prevention of fire and the safe evacuation of all persons in the nursery. This is shared with all staff, students, parents and visitors to the nursery
- We review accident and incident records to identify any patterns or hazardous areas
- All health and safety matters are reviewed informally on an ongoing basis and formally every six months or when something changes. Staff and parents receive these updates, as with all policy changes, as and when they happen.
- We welcome feedback from staff and parents. They are able to contribute to any policy through informal discussions, the suggestion scheme and/or during regular meetings held at nursery.

Animal Health and Safety Policy

At New Beginnings Day Nursery, we recognise the value animals and pets can bring to the emotional needs of children and adults. Caring for animals and pets also gives children the opportunity to learn how to be gentle and responsible for others and supports their learning and development.

We recognise that preparation is key and have researched our choice(s) of animals, including gender, breed, numbers living together and suitability for our environment, taking relevant advice from Blue Cross.

Our safety procedures are:

- Permission slips are obtained from parents to seek written permission for their child to be involved in caring for the animal at nursery
- A full documented risk assessment is completed, including considerations for children with any allergies
- All pets are homed in an appropriate and secure area of the setting, with areas that are quiet and space away from the children, when needed
- Only staff have responsibility for cleaning out the animals (where applicable). Protective equipment is used, such as gloves and aprons
- We ensure all pets have had all of their relevant vaccinations, are registered with the vet and are child-friendly
- Pets are not allowed near food, dishes, worktops or food preparation areas. Children will wash their hands with soap and water after handling animals and will be encouraged not to place their hands in their mouths while pets are being handled. Staff explain the importance of this to the children
- Children are encouraged to leave their comforters and dummies away from the animals to limit cross-contamination.

Pets from home

- If a child brings a pet from home to visit the nursery as a planned activity, parents of all children who will be in contact or in the same area as the pet are informed. We obtain written permission from parents to ensure no child has an allergy or phobia. We complete a full, documented risk assessment prior to the pet visiting and analyse any risks before this type of activity is authorised
- Pets are not allowed near food, dishes, worktops or food preparation areas. Children will wash their hands with soap and water after handling animals and will be encouraged not to place their hands in their mouths during the activity. The staff will explain the importance of this to the children

- Children will be encouraged to leave their comforters and dummies away from the animals to limit cross-contamination.

Visits to farms

- A site visit is made by a senior member of staff before an outing to a farm can be arranged. We check that the farm is well-managed, that the grounds and public areas are as clean as possible and that suitable first aid arrangements are in place. Animals should be prohibited from any outdoor picnic areas
- We check that the farm has suitable handwashing facilities, appropriately signposted, with running water, soap and disposable towels or hot air hand dryers. Any portable water taps should be appropriately designed in a suitable area
- We ensure that there is an adequate number of adults to supervise the children, taking into account the needs of the children
- We explain to the children that they will not be allowed to eat or drink anything, including crisps and sweets, or place their hands in their mouths, while touring the farm because of the risk of infection and explain why
- We ensure suitable precautions are in place where appropriate, e.g. in restricted areas such as near slurry pits or where animals are isolated.

During the visit

- If children are in contact with or feeding animals, we will warn them not to place their faces against the animals or put their hands in their own mouths afterwards, and explain why
- We will encourage children to leave comforters (e.g. soft toys and blankets) and dummies either at nursery, in the transport used or in a bag carried by a member of staff to limit cross-contamination
- After contact with animals and particularly before eating and drinking, we will ensure all children, staff and volunteers wash and dry their hands thoroughly. If young children are in the group, hand washing will be supervised. We will always explain why the children need to do this
- Meals, breaks or snacks will be taken well away from the areas where animals are kept and children will be warned not to eat anything which has fallen on the ground. Any crops produced on the farm will be thoroughly washed in potable water before consumption
- We will ensure children do not consume unpasteurised produce, e.g. milk or cheese
- Manure or slurry presents a particular risk of infection and children will be warned against touching it. If they do touch it, we will ensure that they thoroughly wash and dry their hands immediately
- We will ensure all children, staff and volunteers wash their hands thoroughly before departure
- We will ensure footwear and clothing is as free as possible from faecal materials.

Safety Checks

At New Beginnings Day Nursery, we take reasonable steps to ensure the safety of children, staff and others on the premises including carrying out safety checks on a regular basis in accordance with the timescales set out in the nursery checklists table at the end of this policy.

These include daily safety checks of the premises, indoors and outdoors, and all equipment and resources before the children access any of the areas. The checks are recorded and show any issues and solutions. Internally we have an escalation policy

(This policy should be read in conjunction with the Health and safety - general policy, Fire safety policy, Overall approach to risk assessments policy, Visits and outings policy and the Equipment and resources policy).

All staff are trained in health and safety to raise awareness. Staff know how to recognise potential hazards, including near misses in the nursery environment and monitor safety at all times.

Risk assessments (refer to the Overall approach to risk assessments policy)
Risk assessments document the hazard, who could be harmed, existing controls, the seriousness of the risk or potential injury, any further action needed to control the risk, who is responsible for what action, when and how often will the action be undertaken, and how will this be monitored and checked and by whom.

The nursery carries out written risk assessments at least annually. These are regularly reviewed and cover potential risks to children, staff and visitors at the nursery. When circumstances change in the nursery, e.g. a significant piece of equipment is introduced or new activity or experience planned, we review our current risk assessment or conduct a new risk assessment dependent on the nature of this change.

All staff are trained in the risk assessment process to ensure understanding and compliance of how they manage risks.

All outings away from the nursery are individually risk assessed. For more details refer to the Visits and outings policy.

Electrical equipment

Who checks	How often	Location/Tel. no.

Nursery Manager/N Wilkinson	Every Year	01708748447

- All electrical cables are kept out of the reach of children wherever possible and shielded by furniture where they need to be at floor level
- We take a risk-based approach, considering the type of equipment and what it is being used for, to make a decision whether to have certain electrical items Portable appliance testing (PAT) tested (as per HSE guidance)
- Electrical sockets are all risk assessed and any appropriate safety measures are in place to ensure the safety of the children.

Mains information

Locations of:

- Water stop tap: Under the sink/ sometime use the tap out in the street outside to the left of the house by telephone poll.
- Gas point: Under the stairs
- Fuse box: Under the stairs
- Main electricity box: Under the stairs

Dangerous substances

All dangerous substances including chemicals are kept in locked areas out of children's reach. All substances are kept in their original containers with their original labels attached. Safety data sheets (Control of Substances Hazardous to Health (COSHH)) and risk assessments are kept for all substances and the appropriate personal protection taken and used, e.g. gloves, apron and goggles.

Hot drinks and food

Hot drinks must only be consumed in the staff room. No bottled or canned drinks, sweets or crisps are to be kept or consumed in the nursery rooms or outside.

Transport and outings

The nursery has a comprehensive documented policy relating to outings, which incorporates all aspects of health and safety procedures including the arrangements for transporting and the supervision of children when away from the nursery.

Room temperatures

- Staff should be aware of room temperatures in the nursery, ensure that they are suitable at all times and recorded on the appropriate sheet. There is a thermometer in each room to ensure this is monitored
- Staff must always be aware of the dangers of babies and young children being too warm or too cold

- Temperatures should not fall below 18°C in the baby rooms and 16°C in all other areas
- Where fans are being used to cool rooms, great care must be taken with regard to their positioning.

Water supplies

- A fresh water drinking supply is available and accessible to all children, staff and visitors
- All hot water taps accessible to children are thermostatically controlled to ensure that the temperature of the water does not exceed 40°C.

Gas appliances

- All gas appliances are checked annually by a registered Gas Safety Register engineer
- Carbon monoxide detectors are fitted.

The checklists used in nurseries include:

Checklists	Who checks	How often
Room	All Staff	Daily
Bathroom	All Staff	Daily
Hallway	All Staff	Daily
Toilet	All Staff	Daily
Staff room	All Staff	Daily
Infection control	Kitchen Staff	Daily
Morning	Key Holders	Daily
Evening	Key Holders	Daily
