DSA representatives reported that they moved the breakroom for better utilization of space. They added 4 offices for a total of 5 rooms as requested. They stressed they were considering future needs with the changes they made to the interior of the building. DSA explained how the exterior is mid-century modern/small town charm to keep with the existing architecture. DSA gave an overall presentation of the outside and inside of the building.

D. Maccarone stated that from the Administrative standpoint, the Village has a signed agreement with DSA, and the next pursuit will be the RFQs for potential contractors, and the Village is still awaiting AIA documentation.
