HENRY F. MICHELL 4TH
President & CEO

"The secret of change is to focus all of your energy, not on fighting the old, but on building the new." – Socrates

Dear Customer,

In the fall there were thoughts that the slowing national economy and talks of recession would bring a flat or down year. Instead, the spring of 2023 is continuing a three-year trend of tremendous growth and deeper appreciation of our industry!

The weather this spring was more cooperative than last year, and our products and dedication to superior customer service have yielded many new customers. The desire to beautify businesses, communities and homes with our products is not wavering.

Our top breeders around the world develop new and improved genetics each and every year to overcome and thrive in our ever-changing environment. We are very grateful for their partnership.

In 2022 we announced our new relationship with Bioline Agrosience, a company that prides itself on providing the highest quality products globally to support growers in a natural approach to pest control – I am pleased to report that our launch of their product has been very well received.

As a result, The Michell's Company plans to double down on this natural pest technology as more and more growers are understanding the importance of protecting our environment while benefiting from cost savings of this cutting-edge solution in pest control.

Bioline's new production facility in California, producing invertebrate biological control organisms, is one of the most advanced in the world.

From all of us at Michell's, we thank you for entrusting us with your business and are proud to be America's and your, wholesale Distributor of choice, now and into the future.

Sincerely,

Henry F. Michell 4th
President & CEO

Sweetspice Appleblossom®

LaBella Medio Fun® Raspberry

LaBella Grande Fun® Sunrise

Grace Scarlet

LaBella Grande Fun® Violet Flame

LaBella Grande Fun® Caramel

Grace Peach

Tea Purple Vein Green Edge

BEGONIA Sweetspice Appleblossom®

NEW IN 2024 Colors – The New Sweetspice Appleblossom® is a very floriferous Begonia that will delight you with perfumed flowers. It has a semi-trailing habit and is an easy branching plant perfect for hanging baskets to enjoy the long flowering period while you enjoy the sweet aroma and his color combination of light and dark pink. *Available from Uganda*

DAHLIA LaBella Grande Fun®

NEW IN 2024 Colors – LaBella® collection now with 2 fun extra colors in the Grande series. This is an easy branching, uniform series, ideal for 6-7" pots in an early spring to late summer crop. Great garden and patio performance. Lots of beautiful flowers in a variety of unique, fun colors. **Fun Sunrise**, with orange edges that highlight the yellow flower and **Fun Caramel**, a delicious orange bicolor. *Available from Mexico*

DAHLIA LaBella Medio Fun®

NEW IN 2024 Colors – Not only the LaBella® Grande series have new colors, but also the Medio series have 2 new fun colors. A wonderfully uniform series with easy branching and excellent outdoor performance. LaBella® Medio is easy to mix and match with a great variety of eye-catching colors. Ideal for 4-6" pot production. Both new colors are a nice bicolor blend of dark and light pink but opposite! **Fun Raspberry** has a beautiful flower with a dark pink center that is getting lighter on each petal and **Fun Violet Flame** starts with a dark pink edge and smoothly gets lighter until a nice light pink. *Available from Mexico*

PELARGONIUM Grace

NEW IN 2024 Series – The Pelargonium Grace interspec series is a very floriferous series that comes with 12 shiny colors. Is easy to keep, resistant to extreme heat conditions and with an excellent outdoor performance this make it perfect for outside decorations like gardens and landscaping and also for hanging baskets due the easy branching. *Available from Mexico: Dark Red, Hot Pink Splash, Patio Coral, Patio Pink Eye, Patio Scarlet Kiss, Peach, Pink Splash, Ruby Red, Scarlet, Violet, White, White Splash*

PETUNIA Tea

NEW IN 2024 Color – Developed for the ultimate garden performance and outstanding weather tolerance. Growers can take advantage of a full season of sales opportunities with early flowering. The vigorous mounding habit is easily controlled and provides maximum value to the consumer. **Purple Vein Green Edge** is the new color in the big Tea group with a trailing habit perfect for hanging baskets or to fill a garden, an addition to the big range of colors in Petunia Tea perfect to mix and match. *Available from Mexico*

Anderline Sachet

Anderline Sachet

AMBLYLINE

Amblyline contains the predatory mite *Neoseiulus cucumeris* formerly known as and still often referred to as *Amblyseius cucumeris*. This species has long been known to control the larvae of thrips, making it one of the most recognized beneficial insects. In addition to its use against thrips, it is widely used to fight tarsonemids. With the ability to feed on pollen, it can be established more easily in pollen rich crops. The use of breeding sachets will facilitate its establishment for optimal preventative use.

ANDERLINE

Anderline contains the predatory mite, *Amblyseius andersoni*. This species feeds on a wide spectrum of plant feeding mites and small insects, as well as pollen. This wide spectrum of activity makes establishing *A. andersoni* easier than other species, as the mites will establish themselves faster on crops that are abundant in pollen, as an alternative source of food. It is an ideal species for using in a preventative strategy against mites. They will take longer to establish themselves on pollen-free crops, but sachets can be used to release mites preventatively or where there is no pollen.

CALIFORNILINE+

Californiline contains the generalist predatory mite, *Amblyseius californicus*. This mite species feeds on a wide spectrum of phytophagous mites and small insects, as well as pollen. It is also more resistant to high temperatures, low humidity and certain commonly used insecticides than some other species of mite so can survive longer in crops under less favourable conditions. These characteristics make it an excellent ally for preventative pest control under difficult conditions.

CHRYSOLENE+

Chrysoline contains the the generalist aphid predator *Chrysoperla carnea*, known as lacewings. The larvae are excellent predators of aphids and other soft-bodied pest species. Adults look for aphid colonies and then lay their eggs nearby. The hatching larvae will remain close to feed on the aphids. This solution is recommended for use on outbreaks, given their high predation capacity: one larva can consume up to 200 aphids.

EXHIBITLINE HB

Exhibitline Sf contains the entomopathogenic nematode *Steinernema feltiae*. This can be sprayed on the ground or compost to control fungus gnat larvae, shore fly larvae and thrips pupae. When sprayed on leaves, Exhibitline Sf is used to control thrips larvae and some leafminers.

HYPOLINE

The beneficial contained in Hypoline, *Hypoaspis miles* (also known as *Stratiolaelaps scimitus*) is a predatory mite living in soil. These mites are effective against fungus gnats, shore flies and thrips pupae which have fallen to the ground. The mite is very quick to establish. It is also resistant to high temperatures, low humidity and certain commonly used insecticides so can survive in crops under less favourable conditions.

Begonia Dreams Glory Bicolor

Begonia Dreams Glory Bicolor

ORLINE I

Orius insidiosus is a standard corrective treatment for Thrips in glasshouse crops. The main target is Western Flower Thrips (*Frankliniella occidentalis*) but it is a very active generalist predators that can consume other pests such as other thrips species, mites, moth eggs and small caterpillars.

Begonia Dreams Glory Bicolor

PHYTOLINE+

Phytoline contains the predatory mite, *Phytoseiulus persimilis*. This species is an active hunter and has become a widely used solution in many crops. It develops twice as fast as spider mites if humidity conditions exceed 60% (unfavourable to phytophagous mites, favourable to *Phytoseiulus*), thus allowing rapid control of infestations. An adult *Phytoseiulus* can consume as many as ten phytophagous mites and the reproductive cycle is only seven days under optimal conditions. It is less effective on *T. cinnabarinus*.

Begonia Dreams Glory Bicolor

Begonia Dreams Glory Bicolor

STARSKII® =

STARSKii contains the predatory mite *Amblyseius swirskii*. It is used against whiteflies and thrips but will also be useful against other small pests. It is ideal for protecting greenhouse crops in hot conditions, but can also be used outdoors, as long as mean daily temperatures exceed 20°C. Mites will establish themselves faster on crops that are abundant in pollen, as an alternative source of food. They will take longer to establish themselves on pollen-free crops, but sachets can be used to release mites preventatively or where there is no pollen. STARSKii is only active on the young stages of whiteflies and thrips and should not be used in poor light or at low temperatures.

Begonia Dreams Glory Bicolor

TRICHOLINE TB=

Tricholine TB (with a formulation for maize called Tricholine Corn) contains a strain of *Trichogramma* specifically selected from the *Trichogramma brassicae* species. Although *Trichogramma brassicae* was initially used to control the European corn borer (*Ostrinia nubilalis*), it is also used on other crops where this pest may occur (see below). It is also known to be effective against cabbage moth (*Mamestra brassicae*) on some cruciferous plants. Tricholine Corn can be used on grain corn, silage corn, sweet corn or seed corn with appropriate doses and release strategies.

Begonia Dreams Glory Bicolor

Alternanthera Fancifillers® Choco Chili

ALTERNANTHERA Fancifillers® hybrida
Choco Chili - The perfect combination companion! Choco Chili combines well with practically everything for eye-catching summer mixes. This heat tolerant variety has foliage with deep eggplant purple on the top of the leaves and bright ruby on the bottom, giving it an exciting pop of color. Vigorous, naturally compact and upright, Choco Chili has outstanding branching and a spreading habit that allows the plant to cascade over container edges. Fantastic garden plants in the south!

BUDDLEJA Summerbird®

Series - This truly dwarf and compact type of butterfly bush produces huge, stunning blooms ranging from 4-5.5" long! Attracting butterflies and bees, Summerbird® blooms from early summer until the beginning of fall. The flowers are sweet and fragrant with an orange throat. *Colors: Blue, Magenta, Violet, and White.*

CALIBRACHOA Dracula wescadra

Calibrachoa Dracula boast large, dramatic rosy-red blooms with a dark, nearly black center. Mounding plant habits are perfect for any pot size and can be grown easily for either spring or autumn sales season.

Blue

Magenta

Violet

White

CALIBRACHOA Illusion wescailu

Calibrachoa Illusion is in a class by itself. A bright, multi-color flower pattern that has never been seen before makes this plant a true breakthrough. Plants are well branched and make outstanding hanging baskets for spring and summer markets.

CALIBRACHOA Million Bells® Classic solanaceae

The modern calibrachoa market began with Million Bells. Now Suntory Flowers is shaking things up cobranding a new variety with a globally popular beverage, Orangina! The carbonated drink with natural citrus juices dates back to the 1930s in the French Riviera.

Calibrachoa Dracula

Calibrachoa Illusion

Calibrachoa Million Bells® Classic Orangina

PETUNIA *Perfectunia*® solanaceae

The Perfectunia series is the perfect petunia for growers and retailers. It has been bred for fast and early production with perfect uniformity across all colors. Tight mounds of color look fantastic on the retail shelf and plants will perform perfectly for consumers in containers, window boxes and gardens alike. *34 colors in the series*

PETUNIA *Flower Shower* solanaceae

Series - The culmination of several years of breeding work, Westhoff is proud to introduce the Flower Shower series of Petunias. Specifically bred for weather tolerance, these semi-mounding to trailing plants have enough vigor to fill out any size hanging basket, but have the robust habit and flower-power to make an excellent landscape plant as well. Intense, saturated colors will be flowered with attention from any passersby. The gorgeous medium sized flowers are rain tolerant and are a true mounding/trailing hanging basket series. *Colors: Flame, Golden Harvest, Mayan Sunset, Patrick Star, White and Ziggy Star.*

PETUNIA *Surfinia*® solanaceae

Heavenly Amethyst Burst® - Surfinia Heavenly varieties offer the best for growers and consumers. They are earlier to flower and have a more controlled, semi-trailing growth habit, while still delivering the outstanding Surfinia garden performance and weather tolerance. Icy light purple flowers with deep contrasting dark amethyst throats.

XEROCHRYSUM *Granvia* bracteantha

A supersized strawflower! Granvia is much more impressive than a standard bracteantha. Full, vigorous plants and flowers are twice the size! Stunning in landscape beds and large patio pots. Resistant to mildew. Grow in gallon pots or larger.

ANGELONIA **Alonia™**

NEW IN 2024 Colors – Three new introductions to the Alonia Big series. These grower friendly varieties grow 14-16" tall in qt pots and also adapt to the landscape. Great as a stand-alone or works as a 'Thriller' in combos. *New Colors: Big Cherry, Big Grape, & Big Pink Improved*

CALIBRACHOA **Colibri™**

NEW IN 2024 Colors – Colibri's are the perfect calibrachoa for high-density production. Bright **Tangerine** orange is one of the most in-demand colors and the new **Spark Purple** pattern works as a mono-culture or will add contrast to mixes. Small pots or tidy baskets. *New Colors: Spark Purple & Tangerine*

CALIBRACHOA **Lia™**

NEW IN 2024 Color – Huge blooms distinguish themselves with the new Spark pattern. This new addition to the Lia family will stop you in your tracks. Two-tone pink with a yellow Spark center will be the new top choice for baskets. *New Color: Spark Pink*

BIDENS **Blazing Star™**

Distinct red and yellow bicolor pattern gets noticed! This outstanding selection will add a pop of color to all programs. Vibrant color can hold its own as a monoculture or in combos.

CUPHEA **Cubano™ Presidente**

Variety – Looking for the perfect pollinator? This upright, spreading cuphea with bright orange blooms will be a favorite with the hummingbirds and last throughout the season. Manageable habit of 18- 20"

DAHLIA Darlin™

NEW IN 2024 Colors – Huge blooms and evenly matched habit make this series very grower friendly. **Perfect Red** with large double blooms and **Abstract Pink** is a unique novelty to this growing class of dahlias for gallon production. *New Colors: Abstract Pink & Perfect Red*

LOBULARIA Stream™

NEW IN 2024 Colors – Always a consumer favorite, these three new, strong colors will keep their habit in check! Blending with combos or in the landscape make these a must for all growers programs. *New Colors: Compact Purple, Rose, & White*

OSTEOSPERMUM Osticade™

NEW IN 2024 Colors – Two new additions to the heat tolerant Osticade series. **Aurora** has deep purple centers that blend to a dusky orange, giving it an iridescent look. **Twilight Moon** has blooms that open yellow then change to an antique pink. The upright/mounding habit has multiple uses for baskets and patio pots. *New Colors: Aurora & Twilight Moon*

PETUNIA Amazonas™

NEW IN 2024 Color – Exciting new class of petunia! This is upright, mounding petunia is one of a kind with its lime green, ruffled edges and deep violet throat. *New Color: Plum Cockatoo*

VERBENA Vanessa™

NEW IN 2024 Color – Top-rated Vanessa verbena has added **Magenta** to the growing series. Not quite red and not quite purple but a rich dark, wine magenta that looks fantastic on its own or blends with all colors. *New Color: Magenta*

BEGONIA I'Conia Bachelorette

Red - A unique single flowering addition to the I'CONIA collection. Bachelorette Red is a hot selection, with standout flower power and an overall stellar look for containers and beds. Exceptional performance and spicy red flowers make this hybrid begonia a must for baskets and containers. Consider for finishing as monocrop in baskets or 6-inch, or as a component in mixes; suitable for large containers.

BEGONIA Move2

Orange - The earliest to flower of all Elatior types, the Move2 series boasts large, double flowers and exceptional structure with strong branching and a well-rounded habit. Move2 varieties have demonstrated the strongest heat tolerance in our outdoor trials, making them a versatile selection for both interior and outdoor sales.

CALIBRACHOA Aloha Nani

Fire Red - This beautiful new fiery-red variety adds even more interest to the Aloha Nani series. Daylength neutral and naturally compact, this series is perfect for premium pots and packs for early season sales. No pinch or PGRs required.

CALIBRACHOA Tik Tok

Orange - Named for the hands of a clock going around the center ring, TikTok varieties have a very playful pattern on more vigorous plants, perfect for baskets and combinations. TikTok Orange features large flowers with novel yellow spokes and its semi-trailing habit is also well-suited for garden beds.

DAHLIA Hypnotica

Pink - This new brilliant pink variety in the Hypnotica series brings growers a full range of colors on fully double flower forms. These medium to high vigor plants are ideal for larger container sizes and display fantastic garden performance throughout the summer.

NEW GUINEA IMPATIENS **SunStanding®**

The SunStanding Jazzy varieties add dramatic flair to your programs with a bright, tropical look. With intense neon-colored flowers on top of brilliant lemon-lime variegated foliage, these are showstoppers on the retail bench and in large combination containers. The decorative foliage works equally well as an ornamental addition to combos, but with the added bonus of vibrant flowers throughout the summer.

NEW GUINEA IMPATIENS **MegaGuinea**

When you thought New Guinea impatiens couldn't get any bigger or more beautiful, here is the MegaGuinea series! The varieties in this special series for large containers are so big, growers will only need one cutting per gallon for an early finish. MegaGuinea impatiens have the same finish time as the Magnum series and include stunning colors in Orange, Pink, Purple, and White Blush.

OSTEOSPERMUM **Margarita** hybrid

The Margarita Series is a compact, upright series with glossy, dark green leaves and daisy-like large, showy flowers with exceptional vigor in a variety of colors from early summer into autumn. Excellent heat tolerance and branching. Series includes 5 colors.

PETUNIA **Smartunia**

The Smartunia Windmill collection of Intrinsa™ petunias features three new two-toned colors – Burgundy, Hot Pink, and Purple – with a distinctive windmill pattern that pays homage to our Dutch heritage. Smartunia Windmills are moderately vigorous with a well-branched and semi-upright habit, and blend perfectly together to create a colorful mixed container or hanging basket.

SENECIO **Mandala® Plus**

The new Mandala series of Senecio is a grower-friendly series with naturally tidy habits with mid-vigor and loads of flower power. Bright, bold colors for early spring sales, these early season performers are perfect for 6- and 8-inch containers with minimal to no use of PGR. Matched vigor and response time – a true series. 12 colors in the Mandala and Mandala Plus series.

Acalypha Cat's Tail

ACALYPHA Cat's Tail *pendula*

A striking ever bloomer with fiery-red, fur-like flowers. Cat's Tail is a fast growing, heat loving plant that is easy to grow; it's also very low maintenance. Great for hanging baskets, combinations, containers, cascading down a wall, ideal for indoors, patios and decks.

APTENIA Variegated

Attractive variegated foliage with dark pink, daisy like flowers. Mat forming, trailing habit. Easy to grow, low maintenance. Excellent small ground cover, hanging baskets, combinations, containers, low borders, between walkways, rock gardens, cascading down a wall, ideal for indoors, patios and decks.

GAZANIA Sunme

NEW IN 2024 Colors - Strong flower color impacts, bright orange and yellow flowers set on green-silver foliage, blooms repeatedly. Drought, heat and wind tolerant, attracts bees and butterflies, easy to grow. Uniform mounding, compact habit. Perfect for mass planting, water wise garden planting, bedding, edging, front of a border, rock gardens, seaside gardens, big containers for patio and decks. *New colors: Orange & Yellow*

Gazania Sunme Orange

Gazania Sunme Yellow

DELOSPERMA WOW®

NEW IN 2024 Color - Excellent color impact, masses of Orange and Yellow, big flowers. Flowers continuously for a very long period, attracts bees and butterflies. Exceptionally drought and heat tolerant, winter hardy, easy care. Great for containers and mixes for patio and balcony, mass planting, low borders.

New colors: Fire Wonder

Delosperma WOW® Fire Wonder

ERODIUM Bishop's Form

A great value plant producing many Pink flowers with dark pink veins, early in the season with long flowering period. Uniform, compact habit, easy to grow and low maintenance. Use as a small ground cover, in rock gardens, gravel beds, crevices, front borders, mixes well with other low growing alpines, big containers for the patio and decks.

Aptenia Variegated

OENOTHERA SISKIYOU

NOTABLE Color - An old favorite, long flowering season with masses of light pink flowers. Drought tolerant, low maintenance and easy to grow. Mounding- spreading and trailing. Ideal for standalone hanging baskets, trails over the side of containers, beds, small groundcover, rock gardens, window and patio boxes, rock gardens, dry slopes and fillers. *Color: Pink*

SAGINA SUBULATA

NOTABLE Color - Lush lime foliage with many white tiny flowers. Cushion- mat forming, dense habit. Low maintenance and easy to grow. Perfect for small containers for the patio and decks, low small ground covers, rock gardens, excellent along walkways and between stepping stones. *Color: Lime Moss*

SALVIA Love and Wishes

One of the best Salvias with showy spikes of large, bold pinkish-purple flowers on dark stems. Blooms early and repeatedly, long blooming season till first frost. Upright and bushy habit. Heat and humidity tolerant, low maintenance, easy and fast growing. Favorite plant for butterflies and hummingbirds. A standalone and great centerpiece for mixed planters in big containers. Adds a splash of color to summer borders, beds, garden and patio planting. PP27057 EU47626

THUNBERGIA

NOTABLE Color - Large, showy blooms variably streaked with dark red against an orange background. Early flowering, long blooming season. Trailing and climbing habit. Easy and fast to grow. Combines well with other Thunbergia colors for high value product. Ideal for mix hanging baskets and pyramids for patio and decks. Showy cover for arches and pergolas, window boxes. *Color: Orange Diverse*

COLOCASIA Royal Hawaiian®

Waikiki - An outstanding addition to the series with deep-green glossy foliage, white markings and vivid pink veins. Develops the coloration earlier than White Lava, at 4-5 leaves. Zone 7b.

DIANTHUS American Pie®

Berry à la Mode - Large single blooms with timeless elegance on blue-green foliage. Beautifully fragrant, pure white flowers with unique magenta centers are carried on sturdy stems that do not flop. Repeat blooming, from spring, repeating summer and fall. Zone 5.

GAILLARDIA Realflor®

Sunset Orange Ruffles - Features two rows of flat petals, in warm sun-kissed tones. Blooms are colorfast and age well over an exceptionally long period. Drought-tolerant once established, these sun-loving, floriferous beauties are ideal for containers, beds, and borders. Zone 5.

LEUCANTHEMUM Realflor®

Real Tiny Bubbles - Featuring masses of small, fully rounded blooms, reminiscent of tiny bubbles. Tidy compact habit 16" x 14" and freely re-blooming all summer. Zone 5.

MISCANTHUS Gentle Breeze

Compact superfine foliage maiden grass boasting only 2' x 2-3' in full flower. Attractive silvery-blue arching blades in a tidy clumping habit provides a long season of interest. Zone 4.

Dianthus American Pie® Berry à la Mode

Gaillardia Realflor® Sunset Orange Ruffles

Leucanthemum Realflor®
Real Tiny Bubbles

Miscanthus Gentle Breeze

SALVIA Bodacious®

Hummingbird Falls - This introduction is the first trailing variety of its kind, producing cascades of pulsating blue flowers emerging from glistening black calyces and stems. As the name would suggest, Hummingbird Falls is a natural magnet for hummingbirds and will be well suited for today's consumers looking for eco-positive products to make a beneficial impact on their garden environment. Zone 7.

Jammin' Jazz - Large saturated hot pink flowers are held on deep chocolate-black calyx and stems. Strong green foliage color, not yellowing with the season. Improved branching giving tight rounded habit. Excellent for cool growing and early season sales. Great for hummingbird gardens. Zone 8.

Salvia Bodacious® Hummingbird Falls

SALVIA Vibe®

Ignition Sunrise - The first bicolor in the VIBE® series with masses of medium-sized, soft apricot and peach bicolor flowers, freely reflowering throughout the season. Decorative sage for low water gardening, pollinator friendly gardening and hummingbird gardens. Zone 7.

VIOLA Magnifiscent®

Delft Blue - Phenomenal fragrance wafts from the gorgeous frilled blooms. They are striking with crisp white tones and bold blue edges. Ideal for patio pots and containers, garden borders and mass landscape plantings. Zone 5.

WEIGELA Prism™

Magic Carpet - Go on a magic ride with the bold vibrant foliage of Magic Carpet. Colors range from chartreuse in spring transitioning to gold and bright orange in summer and fall. Compact well-rounded habit 24" x18". Ideal for front of the border, container gardens, and mass plantings. Zone 4.

Bidens Campfire®
 Marshmallow™

BIDENS Campfire® Marshmallow™

NEW IN 2024 Variety - Adding to our roster of heat tolerant plants for warmer climates, this new pure white bidens adds a cool touch to full sun landscapes and containers from spring to fall. A showy tuft of gold in the center of each blossom draws in pollinating bees and the petals shed cleanly once spent, leaving the plant with a tidy appearance. *PPAF PBRAF*

Caladium Heart to Heart®
 'Rain or Shine'

CALADIUM Heart to Heart® 'Rain or Shine'

NEW IN 2024 Variety - Unique coloring and fantastic vigor set Heart to Heart® 'Rain or Shine' caladium apart. Large, heart-shaped leaves emerge in dramatic shades of deep bronze pink-red with soft pink speckles and black veining. In certain lights, you might detect a hint of purple, too. They retain their color well in full sun but also thrive in part sun. *PPAF*

Calibrachoa Superbells®
 Double Redstone™

CALIBRACHOA

Superbells® Double Redstone™

NEW IN 2024 Variety - Striking vermilion or crimson red petals with bright gold picotee edges form the fully double blossoms of the unique new Superbells® Double Redstone™. These eye-catching blooms have high impulse appeal and pair perfectly with other strong colors like royal purple, blue and gold for summer and fall combinations. Use this plant as a well-branched, mounded filler with slightly trailing stems in upright containers, hanging baskets, window boxes and monocultures. *PPAF PBRAF*

Calibrachoa Superbells®
 Double Smitten Pink™

CALIBRACHOA

Superbells® Double Smitten Pink™

NEW IN 2024 Variety - Blooming in consumers' favorite shades of pink, this double, bitone calibrachoa produces rosebud-like blossoms with soft pink petals and a bright rose pink ring around a small cluster of center petals. The two-tone pattern makes it a cinch to match up with both pastels and vibrant colors in hanging baskets, window boxes and upright container recipes.

Calibrachoa Superbells®
 Double Vintage Coral™

CALIBRACHOA

Superbells® Double Vintage Coral™

NEW IN 2024 Variety - Everything vintage is trending with consumers, and this antique amber-orange veined, fully double-flowered calibrachoa is everything they are looking for. Its color shift when grown outside makes it even more compelling, with purple tones appearing in its veins and petals. *PPAF PBRAF*

PETUNIA

Supertunia® Hoopla™ Vivid Orchid™

NEW IN 2024 Variety - We are thrilled to introduce the very best picotee patterned petunia we've grown—Supertunia® Hoopla™ Vivid Orchid™. Vivid orchid purple flowers with a bright white edge are produced abundantly on well-branched plants from spring into fall without deadheading. While many petunias of this type tend to develop a bruised-look as the flowers age, this new cultivar looks fresh until the petals drop cleanly. Vigorous growth quickly fills in to provide continuous color. *PPAF PBRAF*

Petunia Supertunia®
Hoopla™ Vivid Orchid™

PETUNIA Supertunia® Saffron Finch™

NEW IN 2024 Variety - As yellow continues to trend with consumers, we are excited to introduce Supertunia® Saffron Finch™, a new sunny yellow Supertunia with a full, well-branched, rounded habit. Its flowers are a more intense yellow than Supertunia Limoncello, but they may transition to creamy yellow in southern climates. Try pairing Supertunia Saffron Finch with bold purples, reds and magentas for an especially eye-catching look. *PPAF PBRAF*

Petunia Supertunia®
Saffron Finch™

SENECIO Angel Wings

NEW IN 2024 Variety - Large, silky-textured, silvery white leaves form a substantial clump and make an outstanding focal point in containers and landscapes. Like many felted silver plants, good drainage and abundant sunshine are important to achieve healthy, vigorous growth. This plant looks right at home in crevice gardens, shallow troughs and planted along the edge of a rock wall. When some plants start to languish in the summer heat, Angel Wings is just getting started. 'Senaw' USPP28830

Torenia Catalina®

TORENIA Catalina®

NEW IN 2024 Color - You'll find that Catalina® Pink Improved Torenia is better in many ways. First, we've improved its early season performance to make it easier to mix with other medium vigor plants like Superbells® calibrachoa in spring recipes. Next, we've amped up its vigor and flower power, so you'll see more blooms on plants that are quicker to fill out their containers. Lastly, this improved selection bears larger, more uniform pink flowers. *New Color: Pink Improved PPAF PBRAF*

Verbena Superbena®
Pink Cashmere™

VERBENA Superbena® Pink Cashmere™

NEW IN 2024 Variety - Meet the new star of the series! This pastel pink Superbena captured our attention in trials with its delicate flower color, extremely vigorous growth, and huge umbels that rival Superbena Whiteout™ and Violet Ice in size. It was able to keep up well in combinations with the new Supertunia Tiara™ Pink petunia which, like Superbena® Pink Cashmere™, is one of the most vigorous cultivars in its series. *PPAF PBRAF*

Rose

White

ANGELONIA Angelissa™

Series - Three complementary colors, perfect for mixed container plantings. Series uniformity makes for great retail appeal, ideal for stand-alone quart production. *Colors: Purple, Rose, and White.*

CALIBRACHOA Calipetite®

NOTABLE Series - A groundbreaking, naturally compact series with the perfect habit for smaller pots and bowls. Tolerant of pH up to 7.2, super early flowering, and bright colors. Retail sell through has been phenomenal! *Colors: Blue, Mid-Blue, Pink, Red, White, and Yellow.*

IMPATIENS SunPatiens® Compact

Compact SunPatiens® are bred for strong retail appeal and a smaller habit. They offer the best habit for multi-pack, high-density production. In the landscape, Compact varieties grow 16-30" tall and 14-20" wide.

IMPATIENS SunPatiens® Vigorous

Continuous flowering from spring through fall. Same great performance as Compact SunPatiens®, but with 20-25% more vigor. Full sun through shade versatility.

LANTANA SunDance™

Robust with large, bold flowers. These sun-loving varieties are showstoppers in stand-alone plantings and mixed containers. Earlier flowering uniformity across series. *Colors: Red, White, and Yellow.*

CALIBRACHOA MiniFamous® Uno

MiniFamous® fulfills all your calibrachoa needs in one collection. Large flowers with excellent branching make this first choice for the grower and the gardener! Uno is an early, compact series ideal for quarts or gallons, but also performs well in baskets and combinations.

DAHLIA Dalaya®

Dalaya is a medium vigor, upright Dahlia with green foliage. The big blooms on this well-branched series make an exceptional habit and top choice for the garden. The Dalaya is best in gallon+ containers and performs in containers or landscapes. This sun loving stand out color will catch everyone's eye!

NEW GUINEA IMPATIENS ColorPower™

Orange 23 - Upgraded for a brighter orange color, bigger flowers, more floriferous and higher vigor. NGI ColorPower is perfect for medium-to-large pots and baskets, these big, bright blooms will light up the shade.

PETUNIAS - A SKY IN EVERY SIZE!

PETUNIA Headliner™ Sky semi-trailing

Selecta One offers the widest selection of spotted petunias on the market. Headliner Sky Petunia patterns have superior stability and reliability. They are available in a range of sizes – including medium vigor Headliner varieties.

VERBENA Beats™

A super compact series of Verbena that is best for color bowls and small baskets. These expertly curated mixes make for great holiday items and easy wins for the grower with no PGRs and no pinch! Tolerant of heat, cycling and water stress for color that never misses a beat! Beats can be found in: Little Liberty (*Memorial Weekend/4th of July*), Heartbeat (*Mothers Day/Summer*), and Can't Be Beat (*Mothers Day/Summer*). *Colors: Blue, Purple, Purple+White, Red, Red+White, and White.*

VERBENA Lascar™

Verbena Lascar is a low-vigor variety with a mounded-trailing habit and is a uniform series that is early to flower. This series is excellent in mixed containers. *Colors: Black Velvet, Burgundy, Dark Red, Dark Violet, Mango, Pink, Red Rose, Salmon, Vampire, and White.*

Granvia Crimson Sun

Surdaisy White Improved

BRACHYSCOME 'Surdaisy White Improved'
NEW IN 2024 Colors - Suntory's Surdaisy brachyscomes produce hundreds of tiny daisies that withstand cold, rain and sun. White is improved for growth habit and display of blooms. Three additional colors are Mauve, Pink and Yellow. Enjoy these delights from down under!

BRACTEANTHA 'Granvia Crimson Sun'
NEW IN 2024 Color - Suntory's super strawflower series now has a glorious red, Granvia Crimson Sun. Vigorous plants are twice the size of typical bedding plant bracteantha. Large red blooms open and close with the sun, revealing sunny yellow centers. Suitable for spring, summer and fall programs.

BRACTEANTHA 'Granvia White'
NEW IN 2024 Color - Granvia White is an essential new color in Suntory's super strawflower series! Large blooms are a crisp white, revealing golden yellow centers. Vigorous plants fill large containers and make a stunning statement in the landscape. Outstanding summer garden performance.

CATHARANTHUS 'Soiree Flamenco Salsa Red'
NEW IN 2024 Color - A breakthrough color joins the dance in Suntory's Soiree Flamenco series! These novel vinca flowers have ruffled petals. While the other four colors are shades of pink and salmon, Salsa red is a deep maroon with a lighter terracotta edge. Perfect for summer programs.

CATHARANTHUS 'Soiree Kawaii Paprika Red'
NEW IN 2024 Color - Soiree Kawaii vinca varieties are tiny, but terrific! Cute, mini flowers create mounds of color. New Soiree Kawaii Paprika Red is a warm red/orange shade with a white eye, compared to Red Shades, which is cooler with a red eye. Choose from eight colors for outstanding summer performance.

MANDEVILLA

'Sun Parasol Giant Peach Sunrise'

NEW IN 2024 Color - Sun Parasol Giant varieties are the true, classic vining mandevilla with large flowers. Giant Peach Sunrise produces gorgeous, multi-tonal blooms that start out dark peach and lighten with age. Throats are golden yellow with a red-orange ring. Perfect for premium trellised containers.

PERICALLIS 'Senetti Blue Bicolor Improved'

NEW IN 2024 Color - This top seller gets an upgrade with modern breeding. Plants are more compact, tidy and floriferous, producing a nice canopy of vivid blue and white daisy blooms. The original blue bicolor variety has been a bit of a problem child and we welcome the replacement!

PERICALLIS 'Senetti Red Halo'

NEW IN 2024 Color - We're seeing more red in Senetti with breakthrough colors! Red options to date include Ruby Red and White Red Heart (white daisies with red centers). The new Senetti Red halo has larger red daisy flowers with red centers surrounded by a bright white ring. Excellent for early spring impulse sales.

PERICALLIS 'Senetti Lavender Dawn'

NEW IN 2024 Color - If you love Senetti Magic Salmon, you will really love Lavender Dawn! Plant is more compact and loaded with blooms. The color-changing magic continues with blooms starting out lavender blue with bright centers that expand as flowers age. Think Easter in the North!

PETUNIA

'Surfinia Mounding Patio Party Pink'

NEW IN 2024 Color - Pucker up for a sweet new petunia! Surfinia Mounding Patio Party Pink is an upright compact variety with flower power. Bright pink blooms have a star pattern that resembles a kiss! An irresistible addition to your spring assortment.

Calibrachoa
Calitastic
Bright Purple

CALIBRACHOA Calitastic® hybrid

The new standard of Calibrachoa with large blooms, incredibly uniform in habit and flower timing; a new bar is set for grower expectation. Very early to flower, all varieties flower at 11 hours critical day length and stay open and in flower under low light conditions making these a great line for retailing from early spring and continuing throughout the season. Good branching and a controlled growth. *Colors: Bright Purple, Bright Red, Merry Cherry, Tricolor Pink, Violaceous, and White Imp.*

CALIBRACHOA Caramel

Calibrachoa Caramel combines the color-shifting characteristics of the Chameleon series with the bold, fun star patterns from the Candy Shop series to make something totally different! Flowers have a bold, white star pattern with blooms that change from yellow, to orange, to pink. Vigorous plants are perfect for hanging baskets and combos.

Calibrachoa Caramel

Calibrachoa Dracula

Calibrachoa Illusion

CALIBRACHOA Dracula

Calibrachoa Dracula boasts large, dramatic rosy-red blooms with a dark, nearly black center. Mounding plant habits are perfect for any pot size and can be grown easily for either spring or autumn sales seasons.

CALIBRACHOA Illusion

Calibrachoa Illusion is in a class by itself. A bright, multi-colored flower pattern that has never been seen before makes this plant a true breakthrough. Plants are well branched and make outstanding hanging baskets for spring and summer markets.

DIANTHUS Best Friends Forever

The perfect grab-and-go gift item, Dianthus Best Friends Forever series is a heavily branched, compact re-blooming potted dianthus series. Boasting six colors to choose from, you're sure to find the right one for your BFF. *Colors: Pink Passion, Purple Passion, Red Passion, Rose Passion, Scarlet Passion, and Violet Passion.*

LOBELIA Rift

The Lobelia Rift series boasts two varieties, Rift Purple and Rift Blue, that sport strongly variegated colors that can easily be combined into the Passion Combo Great Rift Mix. Heavily branched plants are ideal for combo pots and hanging baskets for spring and early summer. *Colors: Blue, Purple, and Great Mix (Blue & Purple).*

Lobelia Great Rift Mix

OSTEOSPERMUM Gelato

Bred with desirable habit and bright colors in mind, the biggest advantage that Gelato offers growers is a much higher vernalization temperature, making them easier and more economical to produce in more areas of the US. *Colors: Almond Imp., Caramel, Lime, and Strawberry.*

PETUNIA Crazytunia® hybrid

While some of our sheer and shimmery classic shades are still best sellers, there is an overwhelming demand to provide an even broader range of unique colors and patterns to create custom combinations. The Crazytunia® series ranges from stonewash to starburst. There are neon brights, velvety blacks, pulsating duo-tones and bold confetti splashes. 79 colors in the series.

PETUNIA Flower Shower

The culmination of several years of breeding work, Westhoff is proud to introduce the Flower Shower series of Petunias. Specifically bred for weather tolerance, these semi-mounding to trailing plants have enough vigor to fill out any size hanging basket, but have the robust habit and flower-power to make an excellent landscape plant as well. Intense, saturated colors will be flowered with attention from any passersby. The gorgeous medium sized flowers are rain tolerant and are a true mounding/trailing hanging basket series. *Colors: Flame, Golden Harvest, Mayan Sunset, Patrick Star, White, and Ziggy Star.*

PETUNIA Perfectunia®

The Perfectunia series is the perfect petunia for growers and retailers. It has been bred for fast and early production with perfect uniformity across all colors. Tight mounds of color look fantastic on the retail shelf and plants will perform perfectly for consumers in containers, window boxes and gardens alike. *20 colors in the series.*

SCAEVOLA ToppoT

Bred specifically for high-density pot production, the ToppoT line of scaevola offers growers a compact and well-branched series that fills out later for the gardener. The tight-mounded plants have excellent retail appeal, come in a wide spectrum of colors, and are pollinator friendly. ToppoT varieties also mix well for tricolor containers at retail and are heat and drought tolerant.

Harmony Plus Scarlet

Landscape Bandana Clementine

Dragon Wing Pink

Aloha Kona Blue Sky

Callie Apricot

Mohave Purple Red

Bidens Yellow Sunshine

Beacon Bright Red

BEGONIA Dragon Wing Pink

Dragon Wing Pink is a versatile performer showing off clusters of pink bell-like flowers with rose accents against glossy green angel-wing leaves. The Dragon Wing series is more vigorous and better branched with a fuller habit than other angel wings.

BEGONIA Harmony Plus Scarlet

Compact and exceptionally uniform, the Harmony series of dark leaf begonias will provide your garden with masses of color, that will stand up to both the rain and heat. Harmony Scarlet will give you clusters of scarlet red flowers on dark leaf plants.

BIDENS Yellow Sunshine

Bidens are a great plant to add to any floral environment. Their high versatility makes them a wise choice as a filler or border plant. Yellow Sunshine is the perfect filler in potted arrangements or in the garden as ground cover.

BRACTEANTHA Mohave Purple Red

Widest Color Range in Bracteantha. Big, Brilliant Flowers. Perfect for Mixed Containers & Landscape. Superior Branching. Excellent Retail Shelf Life.

CALIBRACHOA Aloha Kona Blue Sky

Top Selling Dummer Orange calibrachoa line. Semi-upright, medium habit is ideal for quarts up to hanging basket production. Second most vigorous member of the Aloha family.

CALIBRACHOA Callie Apricot

Calibrachoa Callie's are great plants to add to any floral environment. Their high versatility makes them a wise choice as a filler or border plant. Enjoy many different beautiful bell shaped flowers in a variety of colors. Create a beautiful combination or accent window boxes and hanging baskets with colorful trailing Callies.

IMPATIENS Beacon Bright Red

Fill your gardens once again with bright, long-lasting color. Beacon Impatiens offer high resistance to Impatiens Downy Mildew. Easy to grow. Has the same plant structure, flowering time, flower size, and culture as traditional garden impatiens.

LANTANA

Landscape Bandana Clementine

If you are looking for a plant that can perform in tough conditions, the Bandana Lantana Series from Syngenta Flowers should be your first stop. Heat tolerant, drought tolerant, deer resistant, little to no need for deadheading, versatile, fragrant, attractive to butterflies and hummingbirds, what is there not to love?

Passion Pink Panther

COMBINATION Passion Pink Panther

The pre-made combo reimagined. Passion Combos are a collection of multi-species combination that combine the ease of a ready-to-go combination program, with the exceptional flower colors and patterns that have forged Westhoff's global reputation as well as incorporating the category shattering FanciFillers program. *From Westflowers.*

DIANTHUS Best Friends Forever

The perfect grab-and-go gift item, new Dianthus Best Friends Forever series is a heavily branched, compact re-blooming potted dianthus series. Boasting six colors to choose from, you're sure to find the right one for your BFF. *Colors: Pink Passion, Purple Passion, Red Passion, Rose Passion, Scarlet Passion, and Violet Passion. From Westflowers*

HELIANTHUS Helisol

Bred in sunny Florida, these cheerful, bright yellow flowers with a dark center, bloom quickly and profusely until late fall. A large flower mound will quickly form after a couple of weeks and works perfectly for hanging baskets. Helianthus Helisol is a heat loving plant and does well under heavy rains and wind; fertilize and water regularly. *From Westflowers.*

Helianthus
Helisol

LANTANA Fuego™

Available in Gold, Orange, Pink, Rose, Red and White. Each of the Fuego™ series excels in garden performance, with an aggressive habit perfect for six inch and up containers. Fuego™ fires out color all growing season! Mature height is 15" to 20". *From GreenFuse.*

OSTEOSPERMUM Gelato

Bred with desirable habit and bright colors in mind, Gelato's growing advantage is a much higher vernalization temperature, making them easier and more economical to produce in more areas of the US. *Colors: Almond Imp., Caramel, Lime, and Strawberry. From Westflowers.*

PETUNIA **BigDeal™** hybrid

Our most durable, landscape-grade petunias, BigDeal™ is bred to flower earlier, grow taller, spread wider, and are more vigorous than other plants in our collections. Combining these vivacious, bicolor blooms with massive plant habits, these plants are sure to be noticed in gardens everywhere. *From Westflowers.*

PETUNIA **Good and Plenty®** hybrid

Good and Plenty® varieties flower early, even when grown in the shortest of days. But what really makes Good and Plenty® a “must grow” choice for growers is their near perfect habit. Plants wrap containers in bouquets of flowers. Predictable finishing allows for perfect containers and combinations. Garden height is 8” to 10”.

New colors: Blue Denim, Blue Ice, and Pink Flash. From GreenFuse.

PETUNIA **Surfinia®** hybrid

Searching for a garden superstar? Look no further than Surfinia®, the world’s leading petunia based on outstanding garden performance. Flower petals and leaves are more durable to withstand weather extremes and disease. Plants fill out beds, baskets, and containers quickly. Surfinia® is named after the surf for its spreading habit, creating colorful drifts, like waves on the shore. Surfinia® petunias are an excellent choice for any garden, container, or hanging basket, just water, fertilize and place in full to partial sun. *From Suntory.*

PURSLANE **Hot Shot®**

Hot Shot® are very early and have eye catching, large flowers. Their strong self-branching eliminates multiple pinches to create full baskets. The Yellow-White is a must grow in your Purslane assortment with its eye catching color pattern of a true yellow and white pinwheel. It looks outstanding alone or in a mixed container. Mature height is 4” to 6”. *From GreenFuse.*

SCAEVOLA **ToppoT™**

Bred specifically for high-density pot production, the ToppoT line of scaevola offers growers a compact and well-branched series that fills out later for the gardener. The tight-mounded plants have excellent retail appeal and come in a great spectrum of colors and are pollinator friendly. ToppoT™ varieties also mix well for tri-color containers at retail and are heat and drought tolerant. *From Westflowers.*

Geranium
Big EEZE Scarlet

GERANIUM Big EEZE *Pelargonium interspecific*
Big EEZE is hands down, the most impressive geranium for retail sales. This interspecific has the heat tolerance of an ivy, but with the classic look of a zonal with supersized flower power. The series has excellent heat and drought tolerance, earliness to flower, and a full canopy of flowers. *10 colors in the series.*

Geranium
Santana
Pink Splash

Geranium
Santana
White
Splash

GERANIUM Santana *Pelargonium interspecific*
Santana is an interspecific geranium series that brings the heat! Much improved heat tolerance compared to traditional zonal types and exceptional performance at both retail and in the garden make Santana an easy choice in both pots and hanging baskets. Dark green foliage provides a striking contrast to the large, oversized blossoms. The Santana series also offers a full color range that is well-matched in flower timing and habit. Bench running this series will be a breeze! *7 colors in series.*

GERANIUM Sarita *Pelargonium interspecific*
Sarita varieties are the best choice for landscape plantings or for hanging baskets where minimal maintenance is expected. The interspecific hybrid brings ultimate heat tolerance to these varieties and the extremely dark foliage keeps the flower colors popping all summer long. They have excellent heat and drought tolerance and the dark foliage contrasts with the vibrant umbel color. A top pick for garden applications. *9 colors in the series.*

GERANIUM Great Balls of Fire *pelargonium ivy*
The Great Balls of Fire series is the most premium lineup of ivy geraniums available today. Large double flowers, rich glossy-green foliage, dense branching, and heat tolerance that cannot be beat. Comes in a wide array of colors. *11 colors in the series.*

Geranium Sarita
Salmon Pink

GERANIUM Elegance *pelargonium regal*
Masses of blooms are produced all summer on these magnificent geranium plants. The vibrant flowers are larger than other varieties giving you an amazing show throughout the summer. Perfect for patio containers and landscape beds. *14 colors in the series.*

Great Balls
of Fire Merlot

GERANIUM **Brocade** pelargonium zonal

With unique, strongly zoned foliage and a high flower count, the AAS Winner, Brocade Fire, provides a novelty look with its unique foliage color and the adaptability and performance of a zonal. Use as an exciting component to combination containers and baskets. *4 colors in the series.*

Geranium Elegance Rose Bicolor

GERANIUM **Maestro Idols** pelargonium zonal

Maestro Idols True Red is a beautiful rich-colored red against medium green foliage. The series is a mid-season zonal geranium with a semi-vigorous growth habit and green foliage. *13 colors in the series.*

GERANIUM **Patriot** pelargonium zonal

Patriot is an early season zonal geranium series with a vigorous growth habit and green foliage. Rosalinda is an absolute stunning variety for the garden center. Its massive, vivid pink blooms with fully double flowers will really wow consumers or impulse purchasing. This is a very vigorous plant that will easily fill out large containers and baskets. *16 colors in the series.*

GERANIUM **Savannah** pelargonium zonal

Savannah Lavender Splash features bright balls of lightly scented lavender flowers with a splash of rose at the ends of the stems. With a superior plant habit, dark foliage, and bright flowers, the Savannah series stands apart from the rest. *18 colors in the series.*

GERANIUM **Survivor** pelargonium zonal

Survivor Orange is a beautiful coral-orange and showcases large flowers and green foliage with medium vigor and well-suited for late production.

GERANIUM MARCADA™

Dark Red 23

Deep Coral

Magenta

Pink + Purple Eye

White

Geranium Decora Pink

GERANIUM Marcada® pelargonium interspecific

Dark Red 23 - Strong interspecific with an ivy look in a medium vigor semi-trailing habit. This upgrade comes with even more heat tolerance and less sensitivity to oedema. The superior flower retention throughout growing, shipping, and retail make this a powerhouse variety. The Mercada is best in gallons and performs in containers, baskets, and combos. *Colors: Dark Red 23, Deep Coral, Magenta, Pink + Purple Eye, and White.*

GERANIUM Decora pelargonium ivy

Pink - Featuring large, colorful blooms with unique variegated foliage. These heat-tolerant, trailing ivy type pelargoniums are perfect for cascading baskets and window boxes. Five colors in the series.

GERANIUM Glacier White pelargonium ivy

A great-performing, single-flowered ivy geranium that stands up to the heat with unmatched performance and cascades over baskets and window boxes.

GERANIUM Roya® pelargonium ivy

Purple - These double-flowered, trailing ivy type pelargonium are early flowering for quick turns. These have high oedema resistance for clean foliage. The brilliant blooms shine on healthy foliage with medium-vigor, and a well-branched habit. *22 colors in the series.*

Geranium Glacier White

Geranium Royal® Purple

GERANIUM **Moonlight**[®] pelargonium zonal

Dark-foliage, compact, uniform series is perfect for pot-tight production with no pinch necessary! The Moonlight series is early flowering with 3-4 flowers at first flush. Large blooms on an upright plant make this a must-have. The Moonlight is best in quarts or gallons and performs in containers and landscapes. 16 colors in the series.

GERANIUM **Sunrise**[®] pelargonium zonal

Green-leaf foliage with medium-vigor is a strong performer. This large-flowered series blooms early and has great color range across the series. The upright habit and uniformity make this a go-to variety. Sunrise is best in quarts or gallons and performs in containers and landscapes.

GERANIUM **Super Moon Red**

pelargonium zonal

A large-flowered zonal type pelargonium with dark red blooms and very dark stems which provide a gorgeous contrast. This strong, vigorous, heat-tolerant plant is sure to make you howl with delight!

Geranium Super Moon Red

Calliope® Medium White Splash

GERANIUM INTERSPECIFIC **Caldera™**

An eruption of color that beats the heat. Flower intensity and exceptional heat tolerance like Caliente® geraniums, but with a spreading habit. Caldera™ stands out all summer long with a striking combination of dark foliage paired with vibrant flowers. A spreading habit makes Caldera™ a perfect choice for bold landscape plantings, baskets, and heat-tolerant mixed containers.

GERANIUM INTERSPECIFIC

Calliope® Medium

NEW IN 2024 Color - Intense Color That Lasts™. The best-selling interspecific geranium series for medium sized pots and premium retail programs. Large double flowers and intense flowering all-season long creates an impact in the garden. Calliope® Medium's wide range of colors, including unique novelties, are a one-stop option for building the ideal geranium program. *New color: Medium White Splash*

GERANIUM INTERSPECIFIC

Calliope® Cascade

Spreading Intense Color. The award-winning Calliope® geranium series continues to innovate with the industry's first cascading interspecific geranium. Calliope® Cascade has large, intense colored semi-double flowers, blooms all summer, and a vigorous spreading habit. Perfect for growing in high-impact premium hanging baskets, large pots, or landscape plantings. A semi-trailing habit, 20-24" wide and 12-16" high; plant in full to part sun.

GERANIUM INTERSPECIFIC **Mantra™**

Making a statement with big blooms, vigor, and dark green foliage. The first and only geranium series that combines the best of interspecific breeding with dark green foliage, excellent branching, and a vigorous upright growth habit. Mantra's™ dark green leaves, brilliant flowers, and habit is similar to the Mojo™ series, but with about 40% more vigor. Large flowers and high vigor like Rocky Mountain™ zonal geraniums – ideal for 2.5 qt. and larger pots. *Colors: Bright Red, Magenta, and Pink.*

GERANIUM AMERICANA®

GERANIUM Americana® zonal

North America's No. 1 zonal geranium series. The go-to zonal geranium series for core volume-focused programs in medium-sized pots, mixed combos, and baskets. Americana's right balance of medium vigor and series uniformity makes it a great choice for 2.5 qt. geranium programs where growers need versatility and a wide range of color options.

Dark Red - This true red is perfect for medium-sized pots, mixed combos and baskets. Americana's offer the right balance of medium vigor and series uniformity. A great all-around geranium that works well for both grower & consumer.

Pink - The semi-double blooms of Americana Pink are a sought-after true pink in color.

Salmon - The bright salmon-pink blooms of American Salmon are big & beautiful sitting atop robust, well-branched plants. The series is versatile & uniform making it one of the most popular collections on the market.

White - A brilliant white that is part of the go-to Americana series. Excellent zonal geranium for both borders & containers.

GERANIUM Calliope® Cascade interspecific

Violet - The award-winning Calliope geranium series continues to innovate with the industry's first cascading interspecific geranium. Calliope Cascade has large, intense colored semi-double flowers, blooms all summer, and a vigorous spreading habit. Perfect for growing in high-impact premium hanging baskets, large pots, or landscape plantings. *From Syngenta.*

GERANIUM Calliope® Large interspecific

Dark Red - Blooms are semi-double and a dark, velvety red. Intense Color That Lasts™. An industry-first innovation and still the No. 1 geranium for color and performance. Vigorous habits and maximum flower power make Calliope Large the perfect choice for high-impact baskets and large pots. A wide range of color options, large habits, and all-season performance translates directly into consumer success. 15 colors in the series.

Geranium Calliope® Cascade Violet

Geranium Calliope® Large Dark Red

GERANIUM Calliope® Medium interspecific

The best-selling interspecific geranium series for medium-sized pots and premium retail programs. The Medium Calliope series offers all the benefits of the Large Calliope line in a more space efficient package. The wide range of colors, including unique novelties, are a one-stop option for building the ideal geranium program. Plants work great in combination planters, showing off in the landscape, or planted up in hanging baskets. *From Syngenta.*

Bright Rose - These vibrant bright pink-rose blooms will add a shock of color to your outdoor space.

Crimson Flame - A unique color featuring deep red flowers with hot pink edges; truly eye-catching.

Dark Red - Velvety-red blooms with a great branching habit.

Pink Flame - A novelty color with semi-double blooms in light pink with dark pink markings in the center.

Salmon - The perfect shade of salmon-pink.

White - A true pure white geranium.

GERANIUM Mantra™ interspecific

Making a statement with big blooms, vigor, and dark green foliage. The first and only geranium series that combines the best of interspecific breeding with dark green foliage, excellent branching, and a vigorous upright growth habit. *From Syngenta.*

GERANIUM Rocky Mountain zonal

Big on vigor and heat tolerance. Vigorous zonal geranium series ideal for 2.5 qt. and larger containers. Excellent heat tolerance and bred to thrive all summer in North American climates and landscape plantings. Large round flowers and a wide color assortment provide high-impact retail sales.

Dark Red - A vigorous zonal geranium that is ideal for 2.5 quart & larger containers. Rocky Mountain Dark Red gives you beautiful dark red semi-double blooms.

Geranium Rocky Mountain Dark Red

Geranium
Mrs. Pollock

Geranium
Vancouver
Centennial

Geranium
Wilhelm
Langguth

Geranium
Lemona

GERANIUM **Mrs. Pollock** Fancy Leaf / hybrid

Bright red flowers are nicely set off by the sumptuous foliage which are compact with ruffled, dark green leaves decorated with a narrow band of black bordering the edges. Combined with their lovely leaves, the effect is truly breathtaking. Fancy Leaf geraniums are perfect for borders and containers in full or part shade. Height and spread 18".

GERANIUM **Vancouver Centennial**

Fancy Leaf / hybrid

One of the top brocade type geraniums on the market decades after its introduction. Vancouver Centennial has orange-red single flowers which bloom in clusters and sit alongside beautiful gold and green leaves with a bronze splash. The combination of foliage color and heat tolerance makes this geranium an excellent choice for container or in ground applications.

GERANIUM **Wilhelm Langguth**

Fancy Leaf / hybrid

Successful on the market for decades, Wilhelm Langguth still belongs to our top selling Pelargoniums. Compact with ruffled, dark green leaves decorated with a narrow band of black bordering the edges. Brightly colored flowers are nicely set off by the beautiful foliage, from early summer to frost. Combined with their lovely leaves, the effect is truly breathtaking. Fancy Leaf geraniums are perfect for borders and containers in full or part shade. Height and spread 18".

GERANIUM **Lemona** hybrid

Popular since its introduction, Lemona has vigorous flowering and a strong citrus scent, it swirls up every planter or landscape bed. This beautiful pink pelargonium does well in containers, gardens and landscapes; height 10-12". *From WFL®.*

GERANIUM **Darko®** zonal

Distinctively different with intense, dark green foliage that really sets off the color of the bloom. Darko® geraniums pair up very well with the Elanos series in size, crop culture and timing. The well-structured, compact plants are a perfect fit for any 4 or 6-inch program and mix well in larger containers. *From pac®.*

Geranium Lemona

Deep Red - This red flowering zonal variety is the most popular green leaf geranium from our program.

Neon Purple - This eye catching purple flower color gets noticed in every planter.

Salmon - The bright orange flower on a dark foliage background will grab the attention of passersby.

Scarlet Red - Vibrant red flowers pop against the deep green foliage.

Velvet Red - Luxurious Velvet Red joins the Darko® family with rich dark red flowers. A vigorous variety, these zonal geraniums pack a punch on compact foliage which makes this variety popular for planters and combination pots. *From pac®.*

White Imp - Sparkling white flowers look pretty as a picture among the contrasting dark foliage.

GERANIUM Elanos® zonal

Compact, allowing them to work well in color bowls, mixed container plantings and hanging baskets. The Elanos series have a medium-vigorous growth habit that offers maximum versatility for growers. The structure of the plant remains neat and tidy at retail. Garden and landscape performance of Elanos is superb with large, full umbels with bright clean colors that really pop. The strong, bright foliage stands up well with the traditional zoning pattern across the leaf. Perfect for the landscape! *From pac®.*

Bright Red - No need to shine a spotlight on Elanos® Bright Red because it shines just fine on its own!

Deep Red - Large flowers with massive foliage volume is why this is the most sold item of the vigorous zonal varieties.

GERANIUM Flower Fairy® zonal

Violet - These gorgeous blooms among rich, resplendent green foliage will catch your eye. Blooms present themselves in early summer and flower until the fall. Perfect for gardens or patio containers. Plant in full sun; height 16", spread 12". *Colors: Berry, Pink, Red Splash, Rose, Velvet, Violet, and White Splash.*

Salvia Bodacious® Hummingbird Falls

Astilbe Delft Lace

ASTILBE Delft Lace

Enjoy a show in the garden with Delft Lace. Long, ombre apricot-pink flower plumes sit upright on sturdy, bright red stems. The flower spikes which grow up to 3' high, are held above mounds of lacy green to silver foliage. Delft Lace is long lasting; the plumes continue their show, ultimately turning a rich caramel color.

BAPTISIA Decadence®

Sparkling Sapphires - This addition to the Baptisia DECADENCE® series will stop you in your tracks with its intensely vibrant flower color. You'll enjoy its vivid violet blue blossoms in late spring, around the same time as peonies and COLOR SPIRES® Salvia.

Baptisia Decadence® Sparkling Sapphires

HOSTA Wide Brim

Tip your hat to the Wide Brim Hosta, a stellar choice for the shady part of your garden. Broad, variegated blue-green and cream leaves create a sturdy mound of attractive foliage. In the summer they are topped with slim spikes of lavender flowers.

LAVENDER Purple Crown

Deep purple-violet flowers perch above lovely gray-green foliage. Plant in patio containers, or as a border in a sunny location and enjoy the lovely fragrance from late spring through summer. Lavender Purple Crown attracts pollinators!

Hosta Wide Brim

LEUCANTHEMUM shasta daisy Amazing Daisies® Banana Cream

A superb selection with huge 4-5", lemon yellow flowers which brighten to creamy white. Well-budded plants have an extra long bloom time in summer. A vigorous grower with disease resistant, dark green foliage. Nice in pots or in the garden.

Lavender Purple Crown

Leucanthemum Amazing Daisies® Banana Cream

PEONY **Sarah Bernhardt**

Gorgeous, double rose-pink flowers with sweet ruffled petals, not only look stunning but smell incredibly fragrant and are huge at 8"! The emerald green foliage will add that extra touch of lushness your garden needs. Sarah Bernhardt is deer resistant, cold hardy and extremely long-lived.

Peony Sarah Bernhardt

PHLOX **Glamour Girl**

Glamour Girl maintains bright green, healthy looking foliage on strong stems all summer, putting on a flower show in mid through late summer.

Phlox Glamour Girl

RUDBECKIA **Little Gold Star**

A knee-high Black-Eyed Susan, with star-shaped golden yellow flowers. Flowers are produced over dark green foliage for a long time. Attracts: bees, birds, and butterflies.

Rudbeckia Little Gold Star

SALVIA **Perfect Profusion**

Soft icy blue flowers cover the perfectly rounded plant. The sheer density of flower stems will certainly catch your eye as you walk past!

Salvia Perfect Profusion

Sedum Bundle of Joy

SEDUM **Bundle of Joy**

If you love 'Pure Joy' for its fantastic can't-be-beat habit and short stature, you'll love 'Bundle of Joy'. This is a white flowering sport of 'Pure Joy' has the same exemplary performance, as well as an explosion of blooms that cover the dome-like habit.

Solanna™
Sunset Burst

Coreopsis Solanna™
Sunshine

COREOPSIS Solanna™

Sunset Burst and Sunshine - 1st year flowering. Solanna™ is early, with large semi-double blooms and unique coloring that changes depending on temperature. Prolonged flowering on a tidy mounded habit that is enjoyable all season long. Solanna™ is well branched and self cleaning. No vernalization or bulking needed; a must have for all growers. Hardy to Zones 4-9. Perfect for 5-6" pots and larger, landscapes, and gardens.

DIANTHUS Delilah™

Bicolor Purple - Floriferous with semi-double flowers that make an impact. Programmable plants that do not require a cooling period for flowering. Strong colors and highly fragrant will lend to consumer appeal. Zone 4-9.

ECHINACEA Panama™

Red - The first echinacea available as a URC. Bright scarlet blooms on upright habit that will bloom in weeks 22-24. Zone 5.

ERYSIMUM Sunstrong™

Large garden plant that will make a spectacular container plant or landscape staple. Cooling is not required to bring into bloom. Showy violet blooms can be enjoyed all season. Hardy to Zone 6.

GAILLARDIA Gusto™

This series of Gaillardia offers four eye-catching colors; Lemon (yellow), Paprika (red), Saffron (golden yellow with an eye), and Sweet Chili (red & yellow bicolor). The focus with the new series is ease of rooting and extended performance in the garden. Cold hardiness Zone 5.

GAURA Steffi™

NEW IN 2024 Colors - Two new improvements to the Steffi series. The Blush Pink is more upright and the Dark Rose has more of a spreading habit. Both feature stronger color and larger, more abundant blooms. A thriller for combos or exceptional pollinator for the landscape. Zone 4. *New colors: Dark Rose Improved & Blush Pink Improved*

LAVENDER Layla™ Blue

Early flowering with large blue spikes distinguish this variety from other angustifolia types on the market. Neat, light green foliage on a mounded habit without vernalization requirements is a grower's favorite. Zones 5-9.

RUDBECKIA American

NOTABLE Gold Rush™ - Now available as an URC from Danziger! American Gold Rush™ is being produced at the Danziger Guatemala farm for Intrinsic Perennials. This Rudbeckia is a nice upgrade over Goldsturm that offers a bright golden yellow flower with a longer period of flowering and improved garden habit. Cold hardiness Zone 5.

SALVIA Dark Matter™

Deep, dark blue blooms take on a feathery appearance on this rebloomer for all summer color. Strong branching that doesn't require any bulking or vernalization will make this a top perennial pick. Hardy to Zone 5.

SALVIA Pink Nebula™

NEW IN 2024 Variety - Fantastic partner to Salvia n. Dark Matter™, the new Pink Nebula™ has large vibrant pink blooms that almost gives it a feathery appearance. This will be your new favorite perennial as it reblooms throughout the Summer. Zone 4.

ACHILLEA Sun-N-Fun™ millefolium

Sun-N-Fun™ is a season long bloomer, and the most compact yarrow available. This Achillea is day length neutral and no vernalization is required. Zone 4 hardy.

BUDDLEJA Leah™

A compact habit makes Buddleja Leah™ an excellent choice for containers. It maintains it's tight growth for mounds of color in the garden during late Spring and Summer. It does not require vernalization, but does need long days for flower initiation.

Buddleja Leah™ Pink

Buddleja Leah™ Series

DELOSPERMA Delmara®

Absolutely massive yellow flowers accompany the extremely tight, well rounded habit of the all new Delmara. Daylength neutral, Delmara Yellow, like all other colors in the series, will bloom all growing season. Zone 3; width 18-24".

DIANTHUS Constant Beauty® Crush caryophyllus

A completely programmable Dianthus with fantastic landscape performance. Constant Beauty® Crush is day length neutral and no cooling is required. Added to the series is Watermelon which is fully commerical and Pomegranate is a new single flower type. Zone 5 hardy.

White

Yellow

DIANTHUS Constant Cadence®

Potpourri - Potpourri offers a multitude of color as the flowers open a deep orange and fuchsia before fading to more pastel shades. Many flowers blooms are an even half and half color split in this extremely stable selection. Potpourri also makes a beautiful potted plant crop! Zone 4 hardy.

Pomegranate

White

Watermelon

Dianthus Constant Cadence® Potpourri

DIANTHUS Constant Promise™

barbatus x chinensis

Constant Promise is a top garden performer and class leading series! It is the first to bloom and last to stop every year. This variety is day length neutral with no vernalization required.

LAVENDER Lavish® stoechas

A gorgeous fully double Spanish lavender. Lavish® is the earliest blooming series available with flowering holding 5-6 weeks! Purple Frost joins top selling Pink, Purple and White. Utility patent granted; unsurpassed shelf life.

LEUCANTHEMUM Whisker™ x superbum

White - A complete reinvention of the “crazy daisy” type of shasta. Whisker™ White is completely day length neutral and requires zero cooling hours to bloom. This is scheduling ease for all growers. It's massive five to six inch flowers will continue in the garden all growing season. Zone 4.

LUPINE Staircase®

This bicolor Staircase® promotes rose and yellow shades, clearly living up to its name. Like all Staircase®, Pink Grapefruit blooms via temperature and not cooling or daylength. It is ready to show off any time of year! Zone 4.

SILENE Carol Jean®

The Carol Jean® Series in both pink and white may be the most significant ground cover ever! Daylength neutral allows the season to open as the days warm. Nonstop spring and summer flowering has positioned this series as the subulate replacement.

Lavender Lavish® Purple Frost

Leucanthemum Whisker™ White

HEUCHERA 'Black Forest Cake'

NEW IN 2023-24 Variety - This new groundbreaking color in the 'SunSeekers' series features fully double rows of petals in shades of copper, orange and peach. Plants are extremely floriferous with vibrant flowers that don't fade. *From TerraNova.*

IBERIS 'Mermaid Lavender' x hyb

NEW IN 2023-24 Variety - Amazingly deep lavender petals flower consistently from spring into summer. This season-extending variety of Candytuft is excellent for sales during the months of high garden center traffic! *From ThinkPlants / Syngenta.*

LUPINUS 'Staircase'®

NEW IN 2023-24 Color - Pure, crisp white is the newest color in the Staircase® series! The first proven day-length neutral lupine, 'Staircase®' lupine are easy to program for production. Grown in a larger pot (2 gallon +), plants will grow to the pot size and produce even more flowers. *New color: White From GreenFuse Botanicals.*

SAXIFRAGA 'Alpino Early' x arendsii

NEW IN 2023-24 Series - Free-flowering varieties bloom in stunning colors! The Alpino varieties offer a more vigorous plant habit that is approximately 2-4 weeks earlier than other varieties. These will be the first pop of color to cure spring fever! *Vernalization recommended, 32 cell vernalized liners available. *From ThinkPlants / Syngenta.*

Iberis Mermaid Lavender

Heuchera Black Forest Cake

Geum Double Bloody Mary

Coprosma Eclipse

Centaurea Mercury

CENTAUREA Mercury

Intense color effect, Silver- white, rosettes of decorative wavy rounded lobes leaves. Cushion shape, mounding habit. Easy to grow, low maintenance, drought, deer and wind tolerant. Superb foliage combo, edging, rock gardens, group planting, big containers also for patios and decks. US Zone 7 – 9

COPROSMA Eclipse

NEW IN 2023-24 Variety - Shiny glossy maroon with bright pink margins colored foliage creates bold color impact. Upright, dense, well branching. Easy to grow, low maintenance, tolerates coastal conditions, deer resistant. Add a splash of color, excellent autumn color, ideal for low hedging, borders, mixed borders, beds, mix combinations, rock gardens, containers for balconies, decks and patios. US Zone 9 – 11 *PBR PPAF*

Hemigraphis Purple Waffle

COPROSMA Pacific Night

NEW IN 2023-24 Variety - Shiny glossy deep purple- red, narrow, rounded foliage creates bold color impact. Upright, dense, well branching. Easy to grow, low maintenance, tolerates coastal conditions, deer resistant. Add a splash of color, excellent autumn color, ideal for low hedging, borders, mixed borders, beds, mix combinations, rock gardens, containers for balconies, decks and patios. US Zone 9 – 11

HEMIGRAPHIS Purple Waffle

NEW IN 2023-24 Variety - Evergreen perennial, grown for their unique foliage! Rich metallic purple- green tinted leaves with waffle like texture. Grow easily and low maintenance plants. Adds a decorator and colorful touch inhouse, out in the garden and any outdoor spaces. Perfect hanging baskets, and great for small or big pots for sunny spots indoors or partly shaded patios and decks. Good color impact as a small group planting in the garden. Low growing and dense habit. US Zone: 8 – 11

Coprosma Pacific Night

Salvia Amistad

SALVIA Amistad

Super flower power. Free flowering, blooms early and repeatedly for a long flowering season. Deep purple tubular flowers from black calyces, sterile large flowers. Good uniform bushy habit. Easy to care, beneficial for butterflies, hummingbirds and bees. Idle centerpiece or standalone in big containers for patio and outdoor spaces also mix containers. Adds a splash of color to borders, garden group planting, cottage and meadow gardens and beds. US Zone 7 – 10 *PP23578 EU35867*

SAPONARIA Bressingham Pink

Masses of Bright pink flowers late spring. Low growing, cushion-mat forming, dense habit. Drought tolerant, deer resistant, easy to grow, low maintenance. Great value for small to mid-size spring containers, low small ground covers, rock gardens, along walkways and stepping stones. US Zone 4 – 9

SENECIO Orange Flame

Color and texture plant grown for its showy Silver, rosette succulent foliage. Heat and drought tolerant, easy to grow, low maintenance. Flowers in late spring– summer with Bright orange flowers. Use in large containers for the outdoor spaces, patios and decks, garden planting, rock gardens. Also used inhouse in lighted areas. US Zone 8 – 11

Senecio Orange Flame

SETCREASEA Green White Beauty

NEW IN 2023-24 Variety - Attractive variegated, striped green and white patterned foliage. Great color effect indoor and outdoor spaces, in hanging baskets and containers. Contrasting small ground covers, fillers, informal planting, beds, rock gardens. Low growing, dense, trailing habit. Heat and drought tolerant, easy to grow, low maintenance. US Zone: 8 – 11

Senecio Orange Flame

SETCREASEA Tricolor Power

NEW IN 2023-24 Variety - Attractive white and green striping with pink edges leaves, light purple on the underside. Bold and showy color effect indoors and out. In hanging baskets and containers. Upright, dense rosette growth forming habit. Great use in big containers for patio and decks, mix borders, water wise garden planting, cottage and meadow gardens and beds. Contrasting small ground covers, fillers, informal planting, beds, rock gardens. Heat and drought tolerant, easy to grow, low maintenance. US Zone: 8 – 11

Setcreasea Tricolor Power

Setcreasea Green White Beauty

SETCREASEA Zebrina Bourdeaux

NEW IN 2023-24 Variety - Bold and colorful showy zebra patterned foliage. Striped purplish, green and bourdeaux leaves on dark stems. Excellent foliage power effect inhouse and garden spaces, in hanging baskets and boxes, big containers. Contrasting small ground covers, fillers, informal planting, beds, rock gardens, gently crawl over stones and other hardscape elements. Low growing, dense, trailing habit. Heat and drought tolerant, easy to grow, low maintenance. US Zone: 8 – 11

Setcreasea Zebrina Bourdeaux

Aubrieta
Glacier™
Red

Aubrieta Glacier™ Violet

Aubrieta Glacier™ Red

AUBRIETA Glacier™

This series is complementing to the best-selling Axcent™ series. Glacier™ flowers on average 2-3 weeks later than Axcent™ and is slightly more compact, making it an ideal season extender for Aubrieta programs nationwide.

CAMPANULA F1 Clockwise™

The first F1 Campanula portenschlagiana offering fast, uniform production. First-year flowering with no vernalization period needed. Dark blue flowers along with matching White Blush on a dense, compact habit requiring less PGRs with highly uniform in habit and flowering time.

IBERIS Mermaid Lavender x hybrida

The first lavender flowering Iberis to extend the season and add color to this perennial class. This new item is first-year flowering and has a rich lavender color from spring to summer.

IBERIS Whistler™ candytuft

F1 seed creates uniformity in both habit and flowering for early spring and spring shipping windows. Whistler is a very compact perennial with beautiful small white flowers. It is suitable for partial shade, expect flowers in March and April.

ECHINACEA Prairie Blaze™

NEW IN 2023-24 Series – Striking novelty colors upgrade perennial programs and are a direct match to Prairie Splendor Compact in habit and timing. Efficient to produce in a wide range of containers and ideally suited for 2.5-quart programs. The first seed grown Echinacea with earliness and uniformity optimized for mass production and with a wide enough color range to offer a true alternative to vegetative varieties. Striking novelty colors upgrade perennial programs and are a direct match to Prairie Splendor Compact in habit and timing.

Campanula F1 Clockwise™ Compact White Blush

Iberis Mermaid Lavender

Iberis Whistler™

ERYSIMUM Erysistible™

NEW IN 2023-24 Series - The first Zone 5 hardy Erysimum available in novelty colors. Striking novelty colors are a welcome addition to early spring programs. Medium-vigor controlled habits work well across all key container sizes.

Erysimum Canaries™ Yellow Imp

LITHODORA Tidepool™ *diffusa*

Tidepool™ has a true blue stand-out color and tidy habit creating great producibility. The habit is fuller and refined with large quantities of intense blue, star-shaped, tiny flowers all over the plant. Blooms from late spring through mid-summer. Use in a pot, in rock gardens or as ground cover.

Lithodora Tidepool™ Sky Blue

SAXIFRAGA Alpino™ Early

NEW IN 2023-24 Colors - A gamechanger in Saxifraga breeding, Alpino Early is very free-flowering with large blooms in stunning colors. Offering a more vigorous plant habit and is approximately 2 to 4 weeks earlier compared to Touran™ Saxifraga series. *New colors: Carnival Improved, Deep Red, & Early Rose Improved*

PEROVSKIA Zephyr™

NEW IN 2023-24 Series - A densely branched and compact habit makes Zephyr the best choice for small to mid sized containers. Soft blue flowers are held above the fine foliage all summer long. A tough and drought tolerant variety that is also a magnet for pollinators.

PHLOX GoldiPhlox™

NEW IN 2023-24 Colors - A well-matched Phlox subulata that brings a needed upgrade to this perennial workhorse. GoldiPhlox™ brings series uniformity with core colors, including the first ever Cherry! Ideally suited for small to medium-sized containers and it a must-have for any perennial program, big or small. *New colors: Lavender Eye, Light Pink, & Pink Improved*

Spanish Lavender Javelin™ Compact Purple

Saxifraga Loftly™
Dark Rose Shades

Anemone Puff 'Pink'

Echinacea Prima 'Lime'

Bergenia Vintage 'Bouquet'

Geum Tempo 'Coral'

Anemone Puff 'Pink'

Echinacea Kismet 'Pink Lemonade'

Echinacea Prima 'Lime'

Geum Tempo 'Coral'

ANEMONE Puff® 'Pink'

Very unusual, compact, pompon flowers cover this short plant with stems long enough for cutting. New flowers open a rich rose color and progress to an antique silver pink. Bred for its exceptional habit, the brilliant flower display is a bonus for planting in flower beds and borders. Truly unique.

BERGENIA Vintage™ 'Bouquet'

VINTAGE™ Bergenia are making a name for themselves in the perennial market. Compact plants are covered with clusters of large, lavender-pink flowers. Very different from old varieties, the new VINTAGE™ 'Bouquet' is long lived in the garden and makes a great, carefree container plant also.

ECHINACEA Kismet™ 'Pink Lemonade'

Nothing else like this one! The famous KISMET® series has a new and exciting addition. 'Pink Lemonade' has all the best features of the multiple, award-winning KISMETS, rounded, compact habit, great vigor, long lasting, bi-color blooms in an unusual shade of pink with lemonade colored petal tips.

ECHINACEA Prima™ 'Lime'

The compact PRIMA™ series, now has a tropical lime companion. Compact plants grow in a perfect mound and have exotic daisy-like flowers. Distinctly lime colored petals tips, give way to a cream-colored center with an emerald eye that shifts to golden yellow as the flower matures.

GEUM Tempo™ 'Coral'

Another exciting addition to the popular TEMPO series! Bright coral-red flowers are held in great numbers over this compact garden plant. The excellent quality foliage stay clean all summer long. Reblooms in the summer!

HEUCHERA 'Changeling'

A most curious Heuchera! Changeling is so named because of the unique characteristic of changing colors every week or so. From top to bottom, new color emerge. New foliage starts off blushing peach and cherry and changes to champagne and taupe, finally ending up several shades of celadon green, pine, and moss. The strong H. americana bloodline enhances this plant with a sharp, silver veil that highlights the contrasting veins.

Heuchera 'Changeling'

HEUCHERA 'Peach Smoothie'

A companion to and an updated version of 'Berry Smoothie', new 'Peach Smoothie' features large, bold leaves in a new color! Primarily, the color of sun kissed peaches, 'Peach Smoothie' has undertones of cherry, coral, and orange. 'Peach Smoothie's full sun performance was excellent, and the foliage stayed rust free, even during Oregon's longest, wettest spring in decades.

PENSTEMON 'Parade of Parrots'

Oh, my goodness! Never has there been another Penstemon like this. Very upright, with strong stems to support and enormous floral display. There's nothing subtle about this penstemon. Strong, claret-colored flowers; the rich color is so saturated that even the seed heads are deeply blushed. Very healthy and a stand-out!

PENSTEMON Nova® 'Twilight'

A fabulous new look in Penstemon! Clouds of violet-blue, float at the top half of the neat, upright plant. So nice for a garden or container work. The medium small flowers are great pollinator attractors and continue for months. It's a very long time since an entirely new type of Penstemon has been introduced! This is it! Also available in a glowing white flower form Penstemon NOVA® 'Pearl'.

RUDBECKIA 'Summer Sienna'

This new Rudbeckia was a visitor must this summer. Mid-sized, tawny and sun-bronzed flowers are produced in impressive numbers, all summer long. The informal flowers are cheery and dramatic at the same time and in a well drained, sunny location will become a garden staple.

Rudbeckia 'Summer Sienna'

Rudbeckia 'Summer Sienna'

Rudbeckia 'Summer Sienna'

Anemone Frilly Knickers

ARTEMISIA SUN FERN™

Arcadia

Olympia

Calamagrostis 'Karl Foerster'

ANEMONE Frilly Knickers xhybrida

An award-winning selection from England! Lovely white semi-double flowers with adorable ruffled petals that surprise with a delicate wash of pale lilac on the back; the contrasting dark stems and tough, olive green leaves really help set off the blooms. Frilly Knickers is a tough plant bursting with flowers from mid-summer into early fall. Plant in full sun to part shade; height 24-30". PP33416

ARTEMISIA SunFern™ gmelinii

SunFern™ features fern-like textures that thrive in full sun making it perfect for a great accent plant in containers or groundcover in the landscape. Sun Fern™ is low maintenance, drought tolerant, and winter hardy. Plant in full sun to part shade. Height 14-18". Zones 4-9.

CALAMAGROSTIS Karl Foerster

acutiflora

2001 Perennial Plant of the Year. Versatile, attractive and care-free ornamental grass. Deep-green, lustrous foliage in early spring, lasts all the way to winter. Upright clump with feathery plumes. Moist, well-draining soil.

ECHINACEA Artisan™

Yellow Ombre - A plethora of very large, single blooms in an intense golden yellow flowers put on a show from early to late summer. This coneflower is a compact perennial that thrives in full sun, and is drought and heat tolerant. Great for beds, borders and gardens; attracts birds, butterflies and bees. Yellow Ombre is slightly taller than the rest of the Artisan series at 24-34", plant in full sun. Zones 5-9.

Echinacea Artisan Yellow Ombre

FESTUCA **Elijah Blue** *glauca*

Probably the most well-known ornamental fescue. Silvery-blue foliage forms a small, dense mound with flower spikes reaching a foot above the foliage. Prefers loose, well-draining soil.

MISCANTHUS **High Frequency**[™] *sinensis* (Japanese Silver Grass/Maiden Grass)

A tall, erect grass with arching blades in a variegated pattern of gold bands. The foliage is perfect to show off and use as a focal point; an impressive display of feather-like seed heads appears in the Fall for added interest. Plant in a sunny location with plenty of space to grow. Rust resistant, plant in full sun; height 5'. Zones 5-10. An infertile variety from NC State via Darwin Perennials. *PPAF*

PANICUM **Heavy Metal** *virgatum*

Glaucous blue leaves and a strong upright form create a formal appearance that's softened only by its delicate seed heads. Tolerates a wide range of soil.

PENNISETUM **Hamel** *alopecuroides*

One of the best fountain grasses for mass plantings. Seed heads appear in July and open greenish-white, turning a creamy tan with maturity. Prefers well-draining soil.

SCHIZACHYRIUM **Shining Star**[™] *scoparium* (Little Bluestem Grass)

NEW Variety - Catch a Shining Star! Variegation brings a game-changing ornamental look to this stalwart native. Bright basal foliage gleams with green and creamy white stripes. Cooler temperatures in spring and autumn, bring a kiss of pink to the tips; the blades continue to darken to burgundy with deep green stripes in fall. Flower stems stand tall with no lodging. Plant in full sun, grows 18-30" high. Zones 4-10. An Emerald Coast Growers introduction. *PP33433*

Festuca 'Elijah Blue'

Miscanthus High Frequency

Panicum 'Heavy Metal'

Schizachyrium Shining Star[™]

Pennisetum 'Hamel'

Agastache Little Adder

AGASTACHE Little Adder

Medium violet-purple flowers, dark green foliage, and a vigorous, upright-mounding growth habit distinguish this Darwin Perennials selection. Compared to A. 'Black Adder', 'Little Adder' sits lower in the perennial border and exhibits a more uniform branched habit. The bonus is the abundance of blooms—it's safe to say pollinators will be very happy with the addition of this little gem in the andscape! PP26514

Baptisia White False Indigo

BAPTISIA White False Indigo

A tall and lovely prairie native with long spikes of pure white flowers from May to Mid-June. Easy to grow and long-lived, the trifoliate, bluish-green foliage lends bold texture to the landscape. Flowers give way to ornamental black seed pods, excellent for dried flower arrangements.

Boltonia False Chamomile

BOLTONIA False Chamomile

Zillions of lacy white daisies top long stems of fine-textured silver blue foliage in late summer and early fall. An undemanding native perennial that is surprisingly tolerant of drought and flood—and beloved by pollinators!

Pycnanthemum Hairy Mountain Mint

EUPATORIUM Spotted Joe Pye Weed

This pollinator powerhouse grows 4-7' tall with extravagant, mauve-pink flowers blooming in late summer to early fall. This durable and delightful native perennial attracts swallowtail butterflies and lives happily in sunny, wet soils.

PYCNANTHEMUM Hairy Mountain Mint

Bees and butterflies abound on the flowers of this vigorous and versatile meadow native! Whitish-lavender flowers bloom in the summer atop silvery fragrant foliage. A great addition to a pollinator habitat garden.

Eupatorium Spotted Joe Pye Weed

GELSEMIUM **Carolina Jessamine**

Surprisingly hardy for a jessamine (to zone 6!), this outstanding semi-evergreen vine blooms in a profuse display of soft yellow trumpet flowers from spring to early summer. Showy, prominent flower clusters stand out against a trellis or fence and serve as a nectar waystation for hummingbirds, bees, and Swallowtail butterflies.

CLEMATIS **Old Man's Beard**

Blooming in late summer to early fall, this vigorous native vine is covered in showy, sweetly scented white flowers. A fine addition to fences, on trellises, or trained up trees, the blooms provide nectar to bees and hummingbirds, while the foliage provides cover for birds. Clematis virginiana is a sound alternative to the invasive sweet autumn clematis.

CAREX **Rosy Sedge**

A petite woodland sedge with fine-textured foliage and elegant star-like flower clusters that appear in spring. Topping out at roughly a foot tall, the neat bright green clumps of this lovely native groundcover are gorgeous used en masse—and just as lovely dotted about the landscape.

CAREX **Feather Falls™ Sedge**

This hybrid Carex takes form and function to the next level! The soft, cascading habit of Feather Falls™ is a dynamic addition to part shade gardens and containers. This exceptional evergreen sedge has finely textured, variegated dark green foliage edged in cream. Each clump will spread to over 3' wide with time—sure to make an impression in the landscape! PP26199

SORGHASTRUM **Golden Sunset®**

Selected for upright stature, clean foliage, and plentiful early-to-bloom golden-bronze flower plumes—this gem grows on a wide variety of sites and soils with winter hardiness to Z3! When in need of a native warm season grass with the verticality of Calamagrostis 'Karl Foerster', your search ends with Golden Sunset®. PP33776

Agastache 'Guava Lava'

Heucherella 'Capture the Flag'

Bergenia 'Peppermint Patty'

Bergenia 'Peppermint Patty'

Hemerocallis 'Blazing Glory'

Hemerocallis 'Blazing Glory'

Artemisia 'Silver Lining'

Artemisia 'Silver Lining'

AGASTACHE 'Guava Lava'

A brightly colored North American native hybrid and favorite of pollinators. 'Guava Lava' begins bloom in the heat of the summer and continues for many weeks. Coral orange flowers are held on equally colorful mauve pink calyxes. Even after the flower has finished, the calyxes remain attractive.

ARTEMISIA 'Silver Lining'

A hybrid of native North American species including Artemisia ludoviciana. 'Silver Lining' finds the best in its parentage as a spectacular, durable foliage perennial. Broadly dissected silver leaves are showy from spring to fall. The mounded, low wide habit maintains perfect form all season and resists opening up. Use this perennial as a filler in the landscape and spiller in mixed containers. Buff yellow flowers are held on tall scapes. Unlike A. ludoviciana, 'Silver Lining' will not take over your landscape as it does not spread by underground runners. *PPAF CPBRA*

BERGENIA 'Peppermint Patty'

A very unique look for Bergenia. White flowers have a pink throat with color radiating down each petal. The petals are then edged with a matching thin pink picotee margin. Individual flowers are above average in size at 1¼" wide. By the flowers, stems are bright rose pink before transitioning to green near the base. Wavy, serrated leaves are extra thick with prickly toothed edges. *PPAF CPBRA*

HEMEROCALLIS Rainbow Rhythm® 'Blazing Glory'

'Blazing Glory' has 6" golden yellow flowers with a bold burgundy red eye and matching picotee edge. Where traditional cultivars have picotee edges that bleed or fade, 'Blazing Glory' remains consistent with a wide margin that extends the length of the petal. Compared to 'King of the Ages' the flowers are ½" smaller, more golden yellow in color, and have a more pronounced eye and picotee edge; the plant is also about 6" shorter. Well-branched scapes and high bud count will ensure a blazing display of color.

HEUCHERELLA Fun and Games® 'Capture the Flag'

A Heucherella set to capture your attention! This large-leaved variety has deeply lobed chartreuse leaves with dramatic burgundy red centers. In late spring clouds of white flowers appear on light colored stems above the foliage. Compared with 'Eye Spy' the flowers are white instead of pink and the centers of the leaves are more red. Try this semi-evergreen perennial to brighten up the shade. 'Capture the Flag' will put up new leaves early in the season and hold foliage interest through the fall, with winter color showing in warmer zones without snow cover. *PPAF CPBRA*

HIBISCUS Summerific® 'All Eyes on Me'

One of our most compact Hardy Hibiscus to date! Despite its scaled down size, 'All Eyes on Me' keeps the trademark massive 8" blooms the plant has become known for. The blushing pink blooms appear from the top to the bottom of a well-rounded habit of dark green leaves. Heavily overlapping petals give the impression the flowers are semi-double, particularly as each bud unfurls. *PPAF CPBRAFF*

Hibiscus 'All Eyes on Me'

Hibiscus 'All Eyes on Me'

HOSTA Shadowland® 'Love Story'

This Hosta will be a part of your garden "love story." Long heart-shaped leaves have medium green margins with chartreuse jetting that bleeds into creamy white centers. The medio-variegation extends from leaf tip to the petiole, flaring at the base of the leaf. A gentle piecrust wave edges each leaf. Tall scapes hold large clusters of tubular white flowers in early summer, creating a Hosta that can be enjoyed for its foliage and flowers. *PPAF CPBRAFF*

Sedum 'Midnight Velvet'

Hosta 'Love Story'

NEPETA 'Chartreuse on the Loose'

'Chartreuse on the Loose' is a perennial with season long interest perfect for lining the front of the border. The foliage allows for a full three seasons of interest with bright chartreuse yellow leaves. Clusters of lavender blue flowers are produced just above the foliage and appear all summer long. Unlike most catmint, 'Chartreuse on the Loose' will continue to produce flowers without being cut back. *PPAF*

PHLOX Luminary® Collection

NEW IN 2024 Color - Tall Garden Phlox are a favorite in the garden, but often are plagued by powdery mildew in hot, humid conditions. These varieties are selected especially for their improved resistance over typical Phlox paniculata varieties. 'Prismatic Pink' has large, well-formed panicles of bubblegum pink flowers with dark pink eyes. This variety matches the height of the rest of the collection; perfect for the middle of the border.

New color: Prismatic Pink PPAF CPBRAFF

Nepeta 'Chartreuse on the Loose'

Nepeta 'Chartreuse on the Loose'

SEDUM Rock 'N Grow®

NEW IN 2024 Color - A tall Sedum in line with the rest of the ROCK 'N GROW® Collection, 'Midnight Velvet' adds a new foliage and flower color combination. Rich, dark purple leaves comprise the domed habit, adding garden interest from the moment they appear in spring. Beginning in late summer clusters of mauve buds cover the habit, before bursting open with rose red flowers. After bloom seedheads appear a dark red color. Leave seedheads standing for seasonal interest and as a food source for birds in winter. UV light is required to see true foliage color; leaves will be more green in too much shade. *New color: Midnight Velvet PPAF CPBRAFF*

Phlox 'Prismatic Pink'

Phlox 'Prismatic Pink'

as

Your Source for Cutting Edge New Plants

Each year our New Plant Development department works on projects involving more than 80 plant genera. From these projects we will make and evaluate more than 35,000 unique crosses. Many are eliminated and only the most promising make it to the landscape, container, and production trials. In addition to our own efforts, we also consider numerous cultivars submitted by outside sources. All in pursuit of finding the best, most unique and improved plants for our catalog.

BOUNTIFUL FARMS

Thirty years ago Bountiful Farms Nursery was born in the heart of the beautiful Willamette Valley in Woodburn, Oregon by the Nelson family. Today Bountiful Farms has grown to over 700 acres! Bountiful Farms has embraced new techniques to conserve resources and provide superior plant material.

One of the most exciting methods they use is the “pot-in-pot” cultivation, which significantly reduces the amount of water usage and has the added benefit of allowing year round shipping. New state of the art robotic technology has been introduced to produce a consistent quality product.

Bountiful Farms produces and ships unique and stunning plant material of the highest quality all over the United States and to many countries throughout the world.

Corylus Contorta #10

Fagus syl Roseo Marginata 4-5'

Hibiscus syr Rose Satin #6 STD

Hydrangea P Quickfire #10 STD

Hydrangea Pinky Wlnky

Picea pun Baby Blue

Syringa Palibin #10 STD

Acer palmatum Atrolineare

Bamboo (clumping)

Cedrus Atlantica Glauca

ACER Japanese Maples

A wide selection of both upright and dissectum Maple varieties grown in various habits (tree, standard, branched, and clump). The dissectum varieties are field grown for a time, then Bare rooted and planted into the finished container size then allowed to fully root in. This method allows for a more uniform habit and fuller plant. Some Upright varieties are available as balled and burlapped.

CONIFERS Grafted Types

Check out the great assortment of grafted conifers like Cedrus, Picea, and Pinus. They root prune the spruce as they are growing to help the plant develop a fibrous root system. This means into less transplant shock and a better transition into the landscape.

FAGUS Tricolor Beech

Young plants are heavily trimmed to encourage more side branching, and the finished plants are much fuller bodied than the industry standard.

FLOWERING Patio Plants & Flowering Trees

Tree Form Hibiscus, Hydrangea, Salix, and Dwarf Syringa are heavily sheared, have good caliper and full heads. Hibiscus available as both #6 & #10 Tree's, Hydrangea, Salix, & Syringa in #10 Trees; bush form is also available. Also available are a great selection of Cercis varieties.

LANDSCAPE FAVORITES Buxus + Juniperus + Thuja

Buxus Green Mountain & Green Velvet are available in many forms. You can also find a wide array of upright junipers and Thuja to suit all of your needs.

TOPIARY Sculptured Plants

Bountiful does a full line of topiary and sculptured art forms. In addition to the basic spiral and tiered forms, they offer animals, plants, people, letters, arches, umbrellas, screens, geometric shapes, and custom creations. If you can imagine it, they can turn it into living art!

Colony Nursery offers a broad mix of conifers, evergreen and deciduous shrubs, broadleaf evergreens, and bamboo. Specializing in grafted conifers and ornamentals, Colony Nursery is in the Willamette Valley, which provides the perfect fertile ground and a long growing season, making them the ideal supplier for independent garden centers, landscape designers and re-wholesalers.

Picea ab Cupressina 7-8'

Prunus l Marablon 6-7'

Cedrus atl Blue Cascade #20

Thuja p Green Giant 4-5'

ACER Japanese Maple

Colony offers a great selection of upright and dissectum maple varieties. You can count on nicely shaped field grown plants.

BUXUS Boxwood

Outstanding quality with a great selection of varieties, shapes and sizes to choose from, including Bush form, Columnar, Cone, Globe, Spiral and Standard.

CEDRUS Cedar

Cedrus atl Blue Cascade was discovered by Colony and is a unique alternative to Cedrus atl Glauca Pendula because the mounding habit gets fuller as it matures in the landscape.

PICEA Ornamental Spruce

Wonderful selection of varieties and sizes to choose from, including unusual dwarf forms to the tried and true older varieties.

PRUNUS Laurel

One of very few nurseries offering Prunus l Marablon, otherwise known as Skinny Skip. Heavy field grown plants.

Kogut Nursery, LLC is a family owned wholesale nursery grower located in Connecticut with 125 acres of container nursery stock and 355 acres of field grown nursery stock.

Since 1931, Kogut has strived to serve the wholesale nursery market and work to ensure the highest quality at the best prices. Located in Meriden, Connecticut, they also have growing operations in Wallingford and Enfield.

ACER Assorted

Marjama has a wonderful selection of both upright and dissectum varieties in a wide array of sizes from small to specimen. Acer griseum are top notch! All of the Japanese maples, both upright and dissectum, are nicely trimmed, full, and well branched.

CONIFERS Grafted Conifers + Thuja

The nursery grows a wide selection of grafted conifers including Cedrus, Chamaecyparis, Picea, and Pinus cultivars. They offer many varieties of upright junipers which are available as B/B or potted. All are full bodied, well sheared plants. Marjama also offers many of the popular Thuja varieties.

FLOWERING + ORNAMENTAL TREES Assorted

Marjama has a diverse selection of ornamental flowering trees which are perfect for the retail market. There are many cultivars of Cercis in both upright and weeping forms with amazing foliage colors. In Cornus, they have a great selection of both Florida and Kousa varieties, including some of the newer pink flowering and variegated foliage cultivars. Fagus and Stewartia round out the line. All are nicely trimmed, beautiful trees.

SHRUBS Container Types

Marjama offers a broad selection of container grown material! #1, #2, #3, & #5 Berberis, Buxus, Euonymus, Grasses, Hydrangea, Ilex, Picea, Prunus, and Rhamnus to name a few. Beautiful Picea gl Conica are available in many sizes and also in spiral form.

A division of Obersinner Farms, Inc. Specializing in Rhododendrons, they also produce Japanese Maples, Grafted Ornamentals, Buxus, Daphne, Deciduous Azaleas, Ilex, Kalmia, Pieris, Prunus, and more.

With more than 30 years of growing experience, Obersinner consistently supplies quality nursery stock, offering both field grown and Pot in Pot material.

THUJA Emerald Green Arborvitae

Field grown plants are dug by machine then potted with a bark mix. Uniform trimming ensures great quality every time. Available in a wide array of sizes.

Starting in 1968 as a small greenhouse growing florist azaleas, Woodburn Nursery & Azaleas continued to grow and evolve and began raising foliage plants and a few annuals. Expanding their nursery in 1979, they also moved into outdoor nursery stock and soon field grown rhododendrons followed. Pot-n-pot production began in 2000 and soon the 1 acre farm became 10 acres, and by 2007 the nursery had installed 185 acres of pot-n-pot production.

Today the nursery consists of 116 acres of covered production area, 56 of which is for azalea production, and the balance for nursery stock production. Nursery stock includes 65 acres of can yard and 225 acres for pot-n-pot production. There is also dedicated space for annual production including tray packs, 6-inch pots, hanging baskets, and patio planters.

Glitz

POINSETTIA **Bravo**

Supported with a strong root system and durable stems, Bravo displays upright-facing bracts that create an attractive form that is especially apparent when sleeved. Colors: Bright Red, Pink, and White.

POINSETTIA **Burning Ember**

Bright orange-red bracts on dark green foliage with a strong v-shape habit and good cyathia which are vibrant at retail. Suitable for 4", 5", 6", 8" pinched, 10" multi plant, mini tree, tree, and hanging baskets.

POINSETTIA **Candy Cane**

This red and white jingle bicolor variety is stunning with big cyathia and large, star shaped bracts. The strong stems and medium vigor make it suitable for mini up to 10" production. A complement to Red Glitter, it is half a week earlier and slightly less vigorous for early premium promotions. The earlier response time will help it fly off the production floor while the amazing color will help it sell at retail.

POINSETTIA **Confetti Garden**

J'Adore varieties exhibit absolute perfection in uniformity, allowing you to mix-and-match varieties for merry and energized holiday combinations. Combinations: Glam and Glitz.

POINSETTIA **Early Polly's Pink**

An alternative to the current hot pink variety, Polly's Pink, Early Polly's Pink is one week earlier and retains the same hot pink hue with similar high vigor. Early Polly's Pink is vigorous but is responsive to PGR treatments for height control. The large cyathia with bright, hot pink bracts against dark green foliage make this a fantastic pink variety.

POINSETTIA **Ferrara**

Strong vigor and fast response time make this stand out a top pick for the mass producer. This reliable variety offers excellent branching and a V-shaped habit making it ideal for sleeving and high-density production. It is a new stand-alone selection that boasts beautiful, deep red bracts perfect for the premium tabletop centerpiece.

POINSETTIA **Frozen**

One of the cleanest whites to join the assortment. Frozen is a mid-season variety with an 8 week response time that can easily time well for peak early December sales. Amazing V-shaped architecture that branches very readily with crisp white bracts makes this a great white variety for consumer satisfaction. Its medium-vigorous habit makes it ideal for medium and large containers.

POINSETTIA **Golden Glo**

Soft buttery gold bracts pop on top of dark green foliage and pair well with all types of holiday decor. Extend the season with Golden Glo! Medium earliness and compact vigor. Suitable for 2", 2.5" pinched, 4", 5", 6" pots. Response time 8 weeks.

Green Envy

Poinsettia
Ice Punch

Poinsettia
Imperial

POINSETTIA **Grande Italia**

Make a statement with this showstopping red variety, perfect for late season quality sales. This high-vigor poinsettia fills out larger containers nicely with large and dramatic, deep red bracts. Cyathia are slow to open, providing the longest lasting quality throughout the season.

POINSETTIA **Green Envy**

This new and improved Green Envy will definitely be keeping spirits bright. The large, bright chartreuse bracts have outstanding contrast against the dark green foliage and make a bold holiday statement mixed in with either fall favorites or classic holiday reds.

POINSETTIA **Ice Punch**

Extraordinary novelty breeding from Ecke provides a solid-performing specialty variety from early to late season. Bright rosy-red bracts have a streak of white down the center of each bract, in a unique marble-like pattern. Plants are uniform with medium vigor and excellent branching.

POINSETTIA **Imperial**

The perfect plant for the late November and early December sales window, this new standout showcases bright scarlet medium-sized bracts. Its tight V-shaped structure paired with strong branching makes it suitable for high-density production. A more vigorous grower, it fills out medium-to-large containers with ease and can handle a later transplant than comparable varieties for the same finish time.

POINSETTIA J'Adore

J'Adore is the newest series of interspecific euphorbia hybrids created for dynamic, modern-day holiday décor. J'Adore features layers of velvety bracts in pastel pink and rich touchable textures. Its versatility allows growers to lean on these performers from the early season all the way through New Year's Eve promotions, for an elegant and glamorous impression.

POINSETTIA Jubilee

A vigorous family with a classic bract and leaf shape, Jubilee fills larger containers well and is an outstanding performer in both hot and cold climates. The series is available in 3 colors: Jingle Bells (striking red and pink bicolored), Pink, and White.

POINSETTIA Luv U Pink

A standout in any setting, Luv U Pink is an explosive plant with strong branches. The most vigorous in its class, it is suitable for larger containers as well as the southern landscape. It has a later response time compared to other euphorbias.

POINSETTIA Polar Bear

Excellent, bright-white bracts over variegated transitional bracts for a unique look. A rare pure white poinsettia variety that took years for breeders to achieve.

POINSETTIA Premium

A legacy program for greenhouse growers around the world. This standout collection has the traditional reds and white, but also many unique standouts like Ice Crystal and Picasso. Premium varieties finish early with lower vigor for small to mid-sized containers and early season sales. Colors: Early Red, Ice Crystal, Lipstick Pink, Marble, Red, Picasso, Polar, and White.

POINSETTIA Prestige

This collection stands out at retail with reliable and long-lasting shelf life. Prestige is versatile in use and adaptable to any container size. Early Red finishes one-half to one-week earlier than Red. Maroon finishes half a week later and features a deeper wine-red color.

POINSETTIA Prestigious

One of our most exceptional varieties with mid-vigor and mid-season performance. The plant is extremely tough, handling dropping, sleeving, and shipping with ease. Consumers will love Prestigious with the dark red textured bracts above classic green foliage.

POINSETTIA Princettia

These eye-catching and intense hybrids are available in the beautiful colors of Dark Pink, Hot Pink, Pink, Pure White, Queen Pink, and Red. They are compact and early, making them a charming option for smaller applications – from miniature pots to mixed bowls.

POINSETTIA Red Glitter

Striking bicolor with horizontal red bracts splashed with pure white. Heat-tolerant and ideal for tree forms with superior post-production characteristics.

POINSETTIA Red Soul

Deep, velvet-red bracts are striking against intense, dark green foliage. A standout in all climates, especially the South, Red Soul exhibits excellent heat tolerance on a medium-vigor plant.

POINSETTIA Southern Belle

This heat-tolerant, all-weather performer is an easy choice for both southern and northern growers. A medium-vigor selection, it is suitable for small and medium-sized containers with bright-red color and a strong V-shaped structure.

POINSETTIA Tapestry

Tapestry makes an elegant statement with green foliage highlighted with a luxe gold margin. Excellent for combination plantings or as a standalone decorative accent among traditional red varieties.

POINSETTIA **Viking Cinnamon**

This collection is both heat tolerant and well-suited for cold finishing. Red, and the unique cinnamon, display a V-shaped architecture that is perfect for high-density production.

POINSETTIA **Viking Pro**

A great new addition for a mid-season red. This variety has an 8 week response time with medium vigor. It is versatile to fit containers ranging from 4-inch to 8-inch and even minis. The classic medium-sized bracts provide a full display on top of the plant. These attractive bracts stand out against the contrast of the yellow cyathia and dark leaves. The strong root system and great branching works well for multiple climate regions.

POINSETTIA **White Wonder**

Versatile for multiple container sizes. White Wonder showcases clean white color, medium to large bracts, and V-shaped branching.

POINSETTIA **Winter Rose® Early Red**

Winter Rose has made a strong comeback in the last year with social media, interior decorators, and garden writers. The ruffled bracts resemble roses for a unique holiday look. The narrow plant habit is great for straight-ups and combination plantings. And originally bred from cutflower production varieties, Winter Rose® Dark Red has phenomenal vase life and makes unique Christmas bouquets.

Family

Combining grower needs with consumer demands, family varieties mix and match with ease for small or large pot programs and as combinations. Predictability, heat delay resiliency, and flower longevity are all available in the true families for the perfect grower program and consumer appeal.

Innovation

Years of development have resulted in an extensive assortment for all customers and conditions. Our innovations allow growers to choose unique novelty varieties or family combinations that are perfectly suited to each production environment and product program.

Perfection

Small details build the foundation for a strong program, and we focus on perfecting those details in our variety collections, uniform Confetti Garden™ combinations, and retail solutions.

Vitality

The unique Vitamum® assortment shines with large flowers in bold and fresh colors. They offer disease resistance and are selected for extended color retention, resulting in straightforward production and a long shelf life to expand the selling window.

RECIPE FOR GROWERS

- Wide assortment for all finish weeks and pot sizes
- Trial-tested in multiple production environments
- Strong genetics require fewer chemical inputs
- Family breeding for uniform production
- Long shipping window
- Variety collections for easy production

RECIPE FOR RETAIL

- Extended shelf life and color retention
- Selected for larger flower sizes and unique flower forms
- Bright point-of-sale material to maximize sell-through
- Product availability from mid-summer through end of fall

The perfectly matched Ditto family features a full range of colors, well-suited for monoculture or combinations. Predictable and highly resilient, Ditto is an easy solution for both shaded and natural season production. Ditto is also featured in the early season Confetti Garden® collection. Ditto is early season, compact, with a small to medium flower and a mounding habit. *Colors: Dark Orange, Dark Pink, Pink, White, and Yellow.*

GARDEN CHRYSANTHEMUM Field Yellow

The Vitamum™ brand of garden mums feature a refined assortment, new mutation-bred families, and interesting new novelty varieties. Vitamum® Sport Field Yellow has large, medium-sized, intense yellow flowers.

GARDEN CHRYSANTHEMUM Homerun

Featuring large flowers and bred from a family mutation for a perfectly matched mid-season program, Homerun has a quick blackout response time of 6-weeks and excellent shelf-life. Homerun is also featured in the mid-season Confetti Garden® collection. Homerun is a mid-season variety with medium vigor, large flowers and a mounding habit. *Colors: Orange, Pink, Scarlet, White, and Yellow Imp.*

GARDEN CHRYSANTHEMUM Power Red

The Vitamum™ brand of garden mums feature a refined assortment, new mutation-bred families, and interesting new novelty varieties. Previously known as MR Deep Red, this variety has medium earliness, is decorative with a medium-vigorous, mounding habit.

POT CHRYSANTHEMUM **Breeze**

The Breeze series is refreshingly beautiful. This single-flowered series freshens up every interior or exterior space. Sparkling flower colors around a green center—what's not to love? Let Breeze surprise you! Dark Red has single, dark red flowers with a yellow/green center and medium vigor. *Top picks: Dark Red, Fox Orange, Jam, Yellow*

POT CHRYSANTHEMUM **Chrystal**

Quality has never been so accessible. The decorative Chrystal series blooms in every climate and is there for you to enjoy. Whatever shelf or growing condition, Chrystal will be filled with blooms. A new addition to the Chrystal series is White, a pure white chrysanthemum with large blooms, medium vigor and perfect flower quality. Top Pick: Bumblebee is a sturdy, voluminous plant with a warm yellow color that contrasts nicely with dark leaves. Chrystal is sturdy, voluminous plant with a great shelf life and nice branching quality; it needs low PGRs. *Top picks: Blanche, Bumblebee, Bronze Bicolor, Red, Romance.*

POT CHRYSANTHEMUM **Cosmo**

All varieties in this series have large, beautifully incurved flowers with endless petals. On top of that, they are easy to grow and require little growth regulators. Be inspired by these classical beauties! A new addition to Cosmo family is Bordeaux is a gorgeous deep red color, with medium vigor and extra large flowers; low PGR required to finish. Fresh Lime is also new, and has extra large flowers with white flowers and a tinge of green; yellow is improved. *Top picks: Dark Red, Fox Orange, Yellow.*

POT CHRYSANTHEMUM **Rainbow**

It is no surprise we named this series Rainbow. Like sunshine after rain, this series certainly brightens up your day. This single-flowered series is characterized by the stunningly beautiful bicolor effects wrapped around a fresh green center. NEW in the Rainbow series is Passion, which exhibits an intense pink and white bicolor on large flowers and sturdy habit. Other top picks are: Circus, a medium-sized bicolor with red and yellow flowers which has great color retention; Sunset, a large, single flower with red/yellow bicolor blooms and perfect for the fall, and Carousel, another great option, has large flowers in a pink and white bicolor. Rainbow is an easy-branching, voluminous growth type chrysanthemum with lots of flowers and a great shelf life. *Top Picks: Carousel, Circus, Sunset.*

POT CHRYSANTHEMUM **Splash**

Through years of breeding, we are able to offer you some splashing varieties. This specialty line has very exciting options to offer, all with extravagant flower types.

POT CHRYSANTHEMUM **Swiftly**

Swiftly is your top pick! This series is characterized by its mini-sized flowers and fast finishing. All Swiftly varieties have great branching qualities and are full of flowers. Swiftly will definitely make you smile!

Gediflora is a global player in the breeding and propagation of ball shaped chrysanthemums. The wide range with unique varieties and families is known under the name Mum Flowers.

Gediflora's mission, thanks to its R&D department, is to provide growers with a very consistent, high quality, innovative, 100% 'easy to grow' plant assortment. The mission of Gediflora is to make growers successful. We strive to be and remain the specialist in ball-shaped chrysanthemums. We do this by offering a total package: golden genetics + quality + service. Gediflora wants to be a reliable partner and enthusiastically goes 'the extra mile' for satisfied customers all over the world.

The brand MUM Flowers creates added value in terms of lifestyle. The brand boosts the general image of chrysanthemums and improves the perception of the consumer, the industry and the grower. It presents the chrysanthemum as a must-have plant that offers a colorful, carefree experience.

For 3 generations we have had a profound love for chrysanthemums. The passion and enthusiasm for what we do has earned us a place amongst the world's top. We strive to be and continue to be the specialist in ball-shaped chrysanthemums. We like to set the bar high and are not easily satisfied.

At Gediflora we have a passion for what we do, we work from a gut feeling and we are bursting with energy. We are a team of enthusiastic people and this enthusiasm is reflected internally in the company and in contact with our customers, partners.

CHRYSANTHEMUM **Aduro**

The vibrant, bicolor flowers are arranged in a perfect ball. Aduro is recommended for black cloth production with Jasoda or Staviski families and fits well with Conaco's. These will flower early to mid-October under natural day; natural season in the north: early October; natural season south: Mid October. *Colors: Orange, Pink, Purple, Red.*

CHRYSANTHEMUM **Amiko**

Excellent choice for late September sales. Amiko offers one of the largest and longest lasting blooms among Belgian Mums® and are great for mixed color planters. This variety will flower late September in the north and early October in the south. *Colors: Bronze, Violet, White, Yellow.*

CHRYSANTHEMUM **Arluno**

Arluno has a perfect round growth habit, suitable for all pot sizes and is an excellent choice for mixed color combinations. This is one of the most disease resistant variety. Arluno Amiko will flower in late September in the north and south.

CHRYSANTHEMUM **Fonti**

Fonti is the earliest Belgian Mum family to flower and has very large, attractive blooms that will start cracking color in late August. Fonti is for outside full sun production only; this type will flower in early September in the north and in mid September in the south. *Colors: Coral, Dark Pink, Orange, Pink, Red, White, Yellow.*

CHRYSANTHEMUM Jasoda

Designed to perform best inside and under blackout; Jasoda is less vigorous than the Staviski Family and more suitable to finish in small and mid-size containers without PGRs. This is a great season extender in the south, and a stellar performer on the West Coast. Jasoda offers 6 colors with long lasting flowers. Natural season in the north is early October and mid October in the south. *Colors: Orange, Pink, Purple, Red, White, Yellow.*

CHRYSANTHEMUM Padre

A top selling family that is easy to grow. Padre is vigorous and perfect for growing in large containers; great for mixed color planters. Padre is one of the most disease resistant varieties. Natural season is mid September in the north and late September in the south. *Colors: Cerise, Lilac, Orange, White, Yellow.*

CHRYSANTHEMUM Possidi

New decorative spider type flowers with great flexibility and a perfectly rounded shape. Great for hanging baskets, large pots and bushel baskets. Possidi is mid vigor and suitable for all pot sizes; excellent shelf life, and gradually opening flower buds. Flowers mid-September in the north and late September in the south. *Colors: White, and Yellow.*

Possidi White

CHRYSANTHEMUM **Soul Sisters**

Highly suitable for small pot sizes in black cloth production; no PGR's needed. Soul Sister is a great natural season extender for mid to late October sales in the south. Perfect for color combos and hanging baskets – easy to grow and easy to love!

CHRYSANTHEMUM **Staviski**

Our bestselling family, Staviski, is widely used for 8" production inside under black cloth. This is a great choice for mixed color baskets and upright containers and offers a very uniform growth habit with countless flowers. Staviski will size up in large containers for early October sales. Natural season is early October in the north and mid October in the south. *Colors: Orange, Pink, Red, White, and Yellow.*

CHRYSANTHEMUM **Vigorelli**

Vigorelli has very attractive mid-size deco flowers which are suitable for both inside and outside production. Vigorous enough to size up in large containers for late October sales. This variety is very disease resistant with long shelf life. Natural season in the north and south is mid October. *Colors: Orange, Red, and Violet.*

Syngenta Flowers has a long history of the best-selling varieties, industry-leading crop performance, and best-in-class, customized technical support. The Yoder® Mums have always been associated with easy growing, excellent retail appeal, and exceptional value for the consumer.

All mums are expertly bred for versatility and outstanding performance throughout North America. Specially crafted and detailed grower resources, like their Grower Success Guides, At-A-Glance tables, and Fresh-All-Fall variety guide, to ensure you're supported to make your Garden and Pot Mum programs better than ever before.

Chrysanthemum Cleopatra Purple

Chrysanthemum Elizabeth Dark Pink

Chrysanthemum Gloria Yellow

Chrysanthemum Jane Yellow

GARDEN CHRYSANTHEMUM **Cleopatra™ Purple**

Decorative, rich dark pink/purple with natural timing between Cheryl™ Regal Purple and Emelda™ Purple. Cleopatra™ has a tidy round mound with larger decorative flowers than Emelda™ Purple. This is a nice compact plant in black cloth, but slower to flower than Cheryl™ or Gigi™.

GARDEN CHRYSANTHEMUM **Elizabeth™ Dark Pink**

Elizabeth™ Dark Pink is a medium sized purple/dark pink color that is decorative. These have a natural season timing between Wanda™ Purple and Emelda™ Purple. Elizabeth™ is not recommended for black cloth because of the slow flowering response. This has more plant size than Cheryl™ Regal Purple.

GARDEN CHRYSANTHEMUM **Gloria™ Yellow**

A medium sized yellowish-gold decorative flower with natural timing between Wilma™ Yellow and Yvette™ Yellow. The beautiful round, mound growth habit has uniform flowering. Gloria™ complements the Wanda™ family in the fall.

GARDEN CHRYSANTHEMUM **Jane™ Yellow**

Decorative Jane™ Yellow, a small/medium, yellow-gold color replaces Stephany™ Yellow although it is a smaller flower size. Late yellow between Nikki™ and Rhonda™ for natural season timing. Potential for black cloth with a slower response.

GARDEN CHRYSANTHEMUM Joan™ White

Joan™ White has small to medium, very late, decorative white flowers that bloom between Mildred™ White and Rhonda™ White. This type flowers with Jane™ Yellow, Judy™ Bronze, and Kathleen™ Dark Red for fall crops and is similar to Jane™ Yellow in black cloth.

GARDEN CHRYSANTHEMUM Josephine™ Red

A small red decorative mum that flowers with the Jacqueline™ family in the fall. Josephine is a more similar plant habit and flower size to Jacqueline™ than Patty™ Pomegranate. For the south, flower timing of Josephine™ is more similar to Jacqueline™ than Patty™.

GARDEN CHRYSANTHEMUM Judy™ Bronze

Judy™ Bronze is an awesome fall color—a rich bronze that blends into a glowing orange-bronze with time. This new decorative, medium sized bronze variety replaces Stephany™ Bronze with a stronger and more long-lasting color. Judy™ Bronze is a well-shaped, compact plant in black cloth, but slower to flower than Cheryl™ or Gigi™.

GARDEN CHRYSANTHEMUM Summer Sunset™

An exciting new multicolor daisy that has shades of pink with yellow and white as the flowers mature. Summer Sunset™ is eye-catching in the field with its unique look and exciting colors. Colors are best when grown outside, but is still a bicolor with hot indoor crops.

GARDEN CHRYSANTHEMUM Teresa™ Pink

Teresa™ Pink is a medium to large, new easy-to-size-up pink/lavender daisy to follow Demi™ Pink. This type flowers before Marsha™ Pink in the North and with Marsha™ Pink in the South. (Except slower than Marsha in Florida.) Teresa™ Pink is good for black cloth crops with timing similar to Brooke™ Dark Pink, Hankie™ Yellow and Edana™ Red.

Chrysanthemum Joan™ White

Chrysanthemum Josephine™ Red

Chrysanthemum Judy™ Bronze

Chrysanthemum Summer™ Sunset

Chrysanthemum Teresa™ Pink

Chrysanthemum Flagstaff™ Gold

Chrysanthemum Pendleton™ Pink

Chrysanthemum Neptune™ Pink

Chrysanthemum Moab™ Red

POT CHRYSANTHEMUM Flagstaff™ Gold

A red colored, small to medium daisy, Flagstaff™ Gold is a similar plant to, but slower in response to Flagstaff™ Topaz. This is a full, non-clubby plant habit with uniform flowering just like Flagstaff™ Topaz, but has faster flowering with shorter and fuller plants than Pueblo™ Yellow. Flagstaff™ Gold is a smaller flower, but more yellow in color and greater plant spread than Emporia™ Golden.

POT CHRYSANTHEMUM Pendleton™ Pink

Pendleton™ Pink is a replacement for New York™ Bold Lavender; it is a shorter plant that is stronger, faster to flower, less clubby and shows less disk flowers when the flowers open. The flower color is a slighter darker than New York™ Bold Lavender or Mount® Ventoux but still works as a soft pastel pink/lavender color. Pendleton™ Pink is also faster to flower than Newark™ Pink Bicolor with a larger flower that is lighter in color and has less disk flowers.

POT CHRYSANTHEMUM Neptune™ Pink

Neptune™ Pink is a replacement for Roseville™ Pink; it is a larger decorative plant that is easier to size up for winter crops and flowers faster with similar flower color. The flower color is a pinkish-lavender that is similar to Roseville™ Pink and similar or bit darker than Newark™ Pink Bicolor without the bicolor effect; the flower color is lighter when finished under high temperatures. Neptune™ Pink is similar or bit faster to flower than Newark™ Pink Bicolor and has a larger flower with less disk flowers once the flower is fully open.

POT CHRYSANTHEMUM Moab™ Red

This medium sized, decorative mum is a great bright red color, ideal for indoor displays. Moab™ Red grows well for fall crops, but flowering response delays in high temperature summer crops. This variety is faster to flower than Crystal Red with a larger plant and larger flower. Moab™ Red is shorter and fuller than Tobago™ Red with a faster response and larger flower size.

Canna South Pacific™

CANNA South Pacific™

NEW IN 2024 Color - South Pacific is a hybrid dwarf Canna series form seed, so it is not prone to diseases transmitted in rhizome production. Thriving in hot and humid conditions, it produces an abundance of showy 4-inch flowers all season on heavily branching plants. Excellent uniform germination with reduced production time in all phases. Beautiful in garden borders, containers, pots, and well suited for shallow areas of ponds and other water features. Impressive in trials and new for 2024. *New color: Yellow*

SNAPDRAGON DoubleShot

NEW IN 2024 Color - A 2023 AAS Ornamental Seed Winner, Snapdragon DoubleShot Orange Bicolor is part of a new series of intermediate-height snaps perfect for the garden or as cut flowers. The stunning open-faced double flowers emerge in beautiful warm shades of orange and orange-red that transition to a dusty shade as they age. Strong stems produce more branches, resulting in a higher flower count. The stems produce romantic flowers all season long (even in lower light conditions) that didn't break off in strong winds. *New color: Orange Bicolor*

Snapdragon DoubleShot

SPREADING BEGONIA Hula

NEW IN 2024 Series - Hula is a unique spreading type of begonia that is highly branched with lots of small flowers. Its trailing habit is perfect for baskets and containers. The series is daylength neutral and it is the earliest interspecific begonia to flower, with timing like BabyWing®. Hula starts to spread at an early stage, and along with early flowering, it provides growers with a high-quality, attractive, salable plant that is covered with blooms at retail, in both hanging baskets and smaller pots.

CUPHEA Sweet Talk

NEW IN 2024 Series - A new heat-loving cuphea series. A natural source of nectar, the flowers attract pollinators like bees and hummingbirds. Offers a more refined plant form compared to competitors, with tighter competitors, with tighter branching and less gaps. A good option for Spring or Summer production, it is more floriferous and less susceptible to oedema. Vivid bloom colors stand out on the bend, and in a true red.

Spreading Begonia Hula

Cuphea Sweet Talk

PETCHOA **Caliburst**

NEW IN 2024 Color - The first Petchoa from seed! Caliburst takes the best colors from calibrachoa and delivers them in the habit, flower size and product form of petunias. Vibrant yellow flower color looks exceptional in any season. Day neutral flowering with a 9-hour daylength response. Cold durable; it can be produced in early Spring using cold growing down to 50°F.

New color: Yellow

Petchoa Caliburst Yellow

PANSY **Cats™ Plus**

These have the same great “whiskers” as the original Cats™ series, but are much easier to grow. Bring a little “cattitude” to your garden! *From Benary. Colors: Blue & Yellow, Marina, Purple & White, White, and Yellow.*

PENTAS **Beehive™ White** lanceolata

The one and only spreading Pentas from seed. Excellent basal branching makes for full and fast hanging baskets and landscape applications. Superior branching creates full coverage of flower for unending color in extreme conditions. Perfect for combination use in high heat. *From Syngenta Flowers.*

RUDBECKIA **Goldblitz** fulgida var. sullivantii

Goldblitz provides a more economical input option for natural daylength growers, as the plugs do not require special treatment to perform to the same quality as Goldsturm. *From PanAmerican Seed.*

VINCA **Virtuosa** Catharanthus Roseus

Compact and uniform in habit and good basal branching in pots. It performs well in the garden, pots or mixed containers. Thrives under a wide range of conditions and is especially suitable for warm and humid areas. *From Sakata. Colors: Orchid, Peach, Pink, Raspberry, and True Blue (not pictured).*

ZINNIA **Zydeco™**

With fully-double flowers that are 25% larger than the competition, this season extender sets the new industry standard. Excellent disease resistance and impressive heat and drought tolerance combine for superior season-long garden performance. *From Syngenta. Colors: Cherry, Deep Yellow, Fire, and White.*

Pentas Beehive™ White

Rudbeckia Goldblitz

Calendula Bon Bon Mix

Impatiens Imara XDR ProFormula Mix

Dianthus Floral Lace Mix

BEGONIA Bada Bing® *semperflorens*

TOP SELLER: Matching, early flowering, green and bronze leaf varieties; Perfect for main season sales. Very early flowering with a narrow bloom window for quick turns and bench-run production. Compact, well-branched plants ideally sized for high-density growing in packs and small pots. Strong germination and seedling vigor to optimize production from sow to finish. *From Syngenta Flowers. Colors: Pink Imp., Rose, Rose Bicolor, Scarlet Imp., White, and Mix.*

CALENDULA Bon Bon Mix *officinalis*

TOP SELLER: These bright and cheerful, fully double flowers are one of the most celebrated blooms of any calendula. Bon Bon Mix is perfectly dwarfed with pops of bright yellow and orange pom-pom like blooms. These are vigorous garden performers are excellent in borders, pots and as cuttings. *Colors: Apricot, Light Yellow, Orange, Yellow, and Bon Bon Mix. From Benary.*

DIANTHUS Floral Lace Mix *chinensis x barbatus*

TOP SELLER: Gorgeous extra-large, lacy-edged flowers with bright green leaves make quite the statement. Floral Lace Mix is not only early flowering with huge 1.5" beautiful blooms, but it's tough, and grows well in challenging conditions as an annual or biennial. Good for high-density spring and fall pack or small pot programs. *From PanAmerican Seed.*

IMPATIENS Imara XDR *walleriana*

TOP SELLER: Take back the shade! The first Impatiens walleriana with a high degree of resistance to downy mildew. Proven landscape performance that fights back with reliable flowering all season long. Easy and economical to produce, with a compact branching habit ideal for high-density growing in packs and pots. A complete range of core and novelty colors in one disease-resistant series. 15 colors in the series. *From Syngenta Flowers.*

PANSY Delta™ Premium

TOP SELLER: Spring or fall, the most uniform growing and flowering pansy series on the market. Delta™ offers the widest range of perfectly matched core and novelty colors and mixes in its class, with large, cheerful, upright-facing flowers. Identical growth and flowering windows eliminate the need to pick and choose among series for colors or season. A tightly branched habit resists stretching, so plants require fewer growth regulators, ships easily, and holds longer at retail. Ideal for high-density finishing. Extra early and uniform flowering under the short days of early spring and late fall, provides fast greenhouse turns and reliable color. *From Syngenta Flowers.*

SALVIA Rhea™ Blue *farinacea*

TOP SELLER: A heat tolerant, and reliable, long-lasting performer with fragrant violet-blue spikes and lanced shaped leaves in a medium to light green color. Bees, butterflies, and hummingbirds enjoy visiting the plants dense spikes and deer are most likely to ignore these landscape favorites. Height 12-16", spread 10-13". Zones 9-11. *From Syngenta Flowers.*

Salvia Rhea™ Blue

SNAPDRAGON Snaptini™ Mix

TOP SELLER: Controlled and consistent across all seasons. Highly programmable with reduced photoperiod sensitivity offers consistent crop timing across all seasons. Bred for high-density production in packs and small pots with a reliable, tight flowering window for bench run finish. Strong central leader combined with sturdy branching creates an easy-to-ship plant and provides a classic look at retail. Height 6-8", width 6-8". Zones 8-11. 9 colors in the series. *From Syngenta Flowers.*

Snapdragon Snaptini™ Mix

VINCA Titan Mix

TOP SELLER: Robust and ready for anything Mother Nature sends! Upgrade your vinca for the best germination and the most reliable supply available on the market! Titan is up to 2 weeks faster to flower than open-pollinated vincas, with superior branching and big flowers in all the top-selling colors. The most uniform F1 vinca series on the market shows off flowers that are up to 50% larger than O.P. types in cooler temperatures. Perfect for landscapes and containers of all types. *From PanAmerican Seed.*

ZINNIA Profusion

TOP SELLER: Incredible uniformity allows for bench-run sales in all colors. Profusion has extreme heat and drought resistance makes for excellent landscape performance. Disease resistant so it's easy to grow and longer flowering in the garden. 14 colors in the series! Profusion Red Yellow Bicolor is a 2021 GOLD MEDAL AAS Flower Winner! Orange, White, Red and Cherry are All America Selections Gold Medal Winners! Cherry and Red are Fleuroselect Gold Medal Winners. *From Sakata Ornamentals.*

Vinca Titan Mix

5 Color Mix

Yellow

Begonia Cocktail® Vodka

BEGONIA Cocktail® Vodka

TOP SELLER: The bestselling fibrous begonias in the world! This pretty little red number packs a powerful punch! Blooms after blooms with cheery yellow centers pile on top of shiny bronze foliage. Use in packs, pots, containers and in the landscape. Plant in full sun or shade; height 9". *From Benary.*

BEGONIA Dragon Wing® Red

TOP SELLER: Angel-wing leaves and large blooms give Dragon Wing a dramatically different look. Unique and beautiful arching, pendulous habit is spectacular in hanging baskets, large containers and commercial landscape plantings. Features best-in-class "bulletproof" performance, fast fill-in, and an easy-care nature. Grows lush and vigorous in southern U.S. heat and under cool, stressful conditions of northern Europe and Canada. Easy to grow from pelleted seed, it surpasses vegetative varieties for branching, vigor and "flower power." *From PanAmerican Seed.*

Begonia Dragon Wing® Red

BEGONIA Super Olympia®

TOP SELLER: This begonia performs in the widest array of conditions. Early flowering and uniform, with large, bright blooms and succulent heart-shaped leaves. The foliage is dark green with bits of coppery-bronze throughout. Vigorous and low maintenance Super Olympia® is perfect for containers, beds or the landscape. Plant in either sun or shade; height 11". *From Benary.*

DUSTY MILLER Silver Dust

TOP SELLER: This, "you-just-want-to-touch-it", velvety foliage is silvery white and finely cut. Silver Dust adds needed contrast and texture to beds and borders. Size and uniform habit also make this Dusty Miller type perfect for container plantings. Height and width 10". *From Benary.*

GERBERA Cartwheel® jamesonii

Large, semi-double blooms come in distinctive designer hues. Multi-blooming, vigorous plants are ideal for larger premium pot programs. Superior shelf life compared to the competition, with reduced leaf stretch or yellowing and longer flower life. Seed-produced plants are an efficient and cost-effective alternative to tissue culture liners.

Begonia Super Olympia® Mix

Dusty Miller Silver Dust

Gerbera Cartwheel® Strawberry Twist

PANSY Delta Premium

TOP SELLER: Offers the widest range of perfectly matched core and novelty colors and mixes in its class, with large, cheerful, upright-facing flowers. Identical growth and flowering windows, across the premium range, eliminate the need to pick and choose among series for colors or season. A tightly branched habit resists stretching, so plants require fewer growth regulators, ship easily, and hold longer at retail. Ideal for high-density finishing. Extra early under the short days of early spring and late fall, provides fast greenhouse turns and reliable color. *From Syngenta Flowers.*

PANSY Inspire® Plus

TOP SELLER: A new milestone in large-flowered pansies! Pansy Inspire® Plus is the most advanced breeding in large-flowered pansies. These beauties are uniform and compact with shorter flower stems – and the plants don't stretch! Plant in full sun, works in packs, pots, mixed containers and landscape, or mass plantings; good overwintering. *From Benary.*

PENTAS BeeBright™

NOTABLE: Fastest finish for packs and small pots, about one week faster than the competition. Tight uniformity and consistent compact habit across all colors. Extremely free flowering with fast flower follow up in the greenhouse and the garden. Available in a mix and five distinct colors including 'Best In Class' BeeBright™ Red.

VINCA Cora® XDR *Catharanthus roseus* / upright

NOTABLE: Season-long flowering and survival in landscape plantings. Highly resistant to 10 of the most virulent isolates of *Phytophthora nicotianae* that cause *Phytophthora* blight on annual vinca. Large showy flowers in a wide range of solid and bicolor patterns. Available in 11 colors a mix.

VIOLA Penny™ Yellow

TOP SELLER: Thoughtful growers grow Penny. Early flowering and uniformity across a wide range of colors make Penny™ suited for high density production in packs and small pots for both fall and spring. A multitude of flowers creates long-lasting landscape displays, and a strong root system ensures reliable overwintering performance. *From Syngenta Flowers.*

BEGONIA F1 BIG

Begonia Bossa Nova™ Orange

Begonia Gryphon

BEGONIA NONSTOP

BEGONIA F1 Big® x benariensis

The most trusted begonia in its class. Period. BIG® is the most vigorous, and well-branched landscape begonia on the market. The large 3", showy flowers are held above the foliage for maximum show. BIGS® are 2 weeks earlier than competing varieties, and they thrive in a wide range of climates and soils; can be planted in sun or shade. *From Benary.*

BEGONIA Bossa Nova™ Orange

Bring the carnival to your containers! Brilliant blooms in a full range of colors offer a perfect seed alternative to vegetative varieties. Fills multiple container sizes with an abundance of color due to the well-branched habit and short internodes. Excels in a variety of climates and conditions including heat, sun, and shade. *From Syngenta Flowers.*

BEGONIA Gryphon x hybrida

These easy to care for, low-water plants, blend beauty with durability to make dramatic mixed or solo containers. Gryphon fits into existing begonia plug culture and is easier and quicker to produce than vegetative foliage types. This particular variety is more tolerant of stress than Rex begonias for less shrink. Retailers will appreciate the longer sales window and versatility for outdoor container and indoor potted plant sales. And consumers can extend their enjoyment by bringing Begonia Gryphon indoors at the end of the season. *From PanAmerican Seed.*

BEGONIA Nonstop® tuberhybrida

The industry leader in tuberous begonias, Nonstop® has large 3-4", fully double flowers and early, lateral branching yielding a full, mounded plant habit. Best for premium quality production. Use in garden beds, patio containers and landscapes, hanging baskets and window boxes. Plant in part to full shade; height 10". *From Benary.*

GERBERA Cartwheel® Strawberry Twist

Beautiful shades at every turn. Large, semi-double blooms come in distinctive designer hues. Multi-blooming, vigorous plants are ideal for larger premium pot programs. Superior shelf life compared to the competition, with reduced leaf stretch and yellowing, and longer flower life. Seed-produced plants offer a cost-effective and efficient alternative to tissue culture liners. *From Syngenta Flowers.*

Gerbera Cartwheel® Strawberry Twist

GERBERA F1 **Majorette Mix** jamesonii

Majorette is very uniform and perfect for quarts and larger containers with multiple plants. Abundant stems and long-lasting large flowers make for irresistible retail appeal. Gardeners LOVE daisies! Available as Slick Coat for streamlined sowing and singulation. *From Sakata.*

GERBERA **Revolution™ Select Mix**

Flower timing is synchronized across the color range in each Revolution series, so your product flows smoothly. No surprises... you grow, pick, pack and ship just as you planned. High uniformity enables a consistent, fully programmable, high-density crop year-round. 11 colors in the series. *From PanAmerican Seed.*

Gerbera F1 Majorette Mix

Gerbera Revolution Select Mix

GERBERA **Colorbloom™ Mix Imp**

Stays tidy for smaller pots; ColorBloom™ stays compact, so it won't get too full or leafy, allowing the colorful blooms to show through in quarts/1l-cm pots. Faster to flower by around 10 days, ColorBloom beats the competition to market. And, first-time plant buyers will love the exciting, non-fading colors and easy care of this indoor/outdoor plant. *From Pan American Seed.*

Gerbera ColorBloom™ Mix Imp

PRIMULA F1 **Sweet 16**

Pink Shades - Enchanting, color-changing blooms open white and mature to a lovely rosy-pink with a delicate fringe of white. As Primrose Sweet 16 continues to change, blooms fade to a soft blush pink. The hardy and robust habit with bright green leaves add plenty of vigor and ground cover. Plant in beds, borders and containers. Flowers three weeks earlier than Danova, with a slightly bigger plant. *From Sakata.*

RANUNCULUS **Sprinkles**

Mix - Ranunculus Sprinkles Original is a half-height potranunculus with fresh, bright colors. The plant has uniform blooms, a fine leaf structure and a compact, full structure. Sprinkles Original performs best at low temperatures. In addition, this variety requires less growth regulator. *From Schoneveld Breeding.*

Ageratum Kona Blue

Snapdragon DoubleShot™ Orange Bicolor

Snapdragon DoubleShot™ Lemon

Snapdragon DoubleShot™ Peach

Celosia Arrabona™ Bronze-Leaf Red

Celosia Arrabona™ Yellow

Celosia Arrabona™ Orange

Celosia Arrabona™ Orange

AGERATUM Kona Blue

Hem's most compact Ageratum. More compact than the Aloha series, Kona is ideal for pack use up to 4" or quart pot production. Good availability of seed and produces very uniform seedlings for plug trays.

ANTIRRHINUM/SNAPDRAGON

DoubleShot™

Series of Tall Snaps (18-20") with double, open-faced flowers on heavily branched plants. DoubleShot was bred to produce strong stems even under short day production, ideal for late season gallon pots in the Deep South. Frost and freeze tolerance make them excellent season extenders. Five colors: Appleblossom, Crimson Red, Orange Bicolor, Peach, and Yellow. *Antirrhinum/Snapdragon DoubleShot™ Orange Bicolor – 2023 AAS National Winner*

CELOSIA Arrabona™

NEW IN 2024 Colors - This series has added three new colors to the former stand-alone Arrabona Red. For 2023, we add **Bronze-Leaf Red**, plus **Orange** and **Yellow**, both with green foliage. Uniform among the colors, in cooler, drier climates they get to 14-16" tall, and in warm, humid climates they achieve a height of 18-20" Ideal dramatic landscape item that hold up to heat and humidity very well. *New colors: Bronze-Leaf Red, Orange, & Yellow*

SALVIA Red Hill

A tall, red flowered Salvia splendens that has a heavily branched habit and produces its red flosser spikes heavily all season long, reaching a height of 20-24". Ideal for tall accents in the garden, Salvia are one of the best hummingbird and pollinator attractants you can plant in your garden, Red Hill also performs beautifully in large mixed patio containers.

Aloha Blue

New Kona Blue

Ageratum Kona Blue

LAVANDULA *Lovely Sky Blue*

A great new lavender grown from seed that blooms reliably the first year with no vernalization! This variety forms a strongly branched plant with beautiful light lavender blue flower, with the beloved lavender fragrance which is so attractive to pollinators. Winter hardy USDA zones 5 to 9. 12-16" tall.

Lavandula Lovely Sky Blue

Lavandula Lovely Sky Blue

LEUCANTHEMUM *Arctic Snow*

A first year flowering daisy ideal for production in quart and gallon pots. It is also very early flowering, producing masses of white single traditional daisies all season long. Arctic Snow grows to a height of 14-16", and is hardy in USDA Zones 5 thru 8.

RUMEX *Twister Copper Red*

An unusual dock/sorrel with narrow copper colored leaves and wiry, contorted flower stems, and a mounding, spreading habit which create a unique item to add color and texture to both your landscape and mixed containers, plus tart lemony foliage for your salads! Twister is hardy in USDA zones 6b to 10a.

Ruta Barry

Salvia Red Hill

RUTA *Barry*

A less common species called Fringed Rue, and has wonderful leaf shape and foliage color to add both that silver blue accent to your gardens or patio containers. Ruta Barry is winter hardy in USDA zones 5 through 9 and grow to a height of 16". The second year they will produce yellow cup-shaped blooms in spring.

Leucanthemum Arctic Snow

Rumex Twister Copper Red

Asparagus FuzzyFern Frizz

Coleus Premium Sun Coral Candy

Cuphea Sweet Talk Deep Pink

Cuphea Sweet Talk Lavender Splash

ASPARAGUS FuzzyFern™ Frizz

NEW IN 2024 Variety - With a demand for Asparagus densiflorus 'Sprengerii' in the market and minimal seed available, we set our sights on improving supply with Fuzz Fern Frizz! This new asparagus fern saves growers money, space, and grief by providing a more reliable supply of seed with higher germination. Plus, it brings a fun texture to mixed containers, hanging baskets and indoor planters.

BEGONIA BabyWing® F₁

NEW IN 2024 Color - Compact, colorful BabyWing is the first interspecific begonia to market! BabyWing and Hula are the earliest to market from the PanAmerican Seed begonia assortment and will be ready at retail for early season sales. *New color: Red Bronze Leaf*

BEGONIA Dragon Wing® F₁

NEW IN 2024 Colors - The ideal begonia for the South! Dragon Wing expands the large-flowered and vigorous series with two core colors over warm bronze leaf foliage. Unique and beautiful arching, pendulous habit is spectacular in hanging baskets, large containers, and commercial landscape plantings. Angel-wing leaves and large blooms give Dragon Wing a dramatically different look. *New colors: Pink Bronze Leaf & Red Bronze Leaf*

BEGONIA Megawatt® F₁

NEW IN 2024 Color - This fresh, high flower-power begonia option has quickly proven itself in the marketplace with great timing benefits and ultimate garden power. These bigger-than-life hybrids offer amazing colour for gardeners. Offers better variety purity, eliminating green-leaf off-types, with deeper bronze foliage colour and improved plant habit with shorter internodes and great basal branching. Earlier to flower, how much earlier depends on daylength conditions. *New colors: Bronze Leaf Improved*

SPREADING BEGONIA Hula™

NEW IN 2024 Color - The addition of this unique spreading begonia to our portfolio that includes Dragon Wing®, BabyWing® and Megawatt™ allows us to expand our offering of begonias that look great on the retail bench! Hula looks amazing as well in hanging baskets and mixed containers, providing an additional opportunity to offer a more premium product. Plus, it is fast to fill in landscape beds, creating a blanket of flowers with high-impact colour! *New color: Red and White Mixture*

TUBEROUS BEGONIA

AmeriHybrid® Ruffled F₁

NEW IN 2024 Color - AmeriHybrid tuberous begonias provide a wide selection of colors, including unique bicolours, along with some of the world's largest blooms! This exciting collection can be sold at a premium price point at retail, and it results in faster turnover in the market. *New color: Red*

TUBEROUS BEGONIA

On Top® F₁

NEW IN 2024 Colors - Tuberous begonia series provide a wide selection of colors, including unique bicolours, along with some of the world's largest blooms! This exciting collection can be sold at a premium price point at retail, and it results in faster turnover in the market. *New color: Polka Dot & Surprise*

CUPHEA Sweet Talk™ F₁

NEW IN 2024 Colors - These beautiful cuphea blooms are a natural source of pollinator-attracting nectar, providing gardeners with a lively backyard gathering place for bees and hummingbirds. A new heat-loving cuphea series from PanAmerican Seed! A natural source of nectar, the flowers attract pollinators like bees and hummingbirds. Offers a more refined plant form compared to competitors, with tighter branching and less gaps. A good option for Spring or Summer production, it is more floriferous and less susceptible to oedema. All varieties can be grown with the same PGR schedule. Vivid bloom colors stand out on the bench, and include a true Red. *New colors: Deep Pink, Lavender Splash, & Red*

DIANTHUS Coronet™ F₁

NEW IN 2024 Color - These are the biggest blooms of any dianthus of this type, with exceptional flower form and a palette of showstopping colour choices. Coronet adds a regal touch to cool-season landscapes, gardens, and patio planters. Brighten colour bowls and gardens with this mix of Cherry Red, Purple, Rose, Strawberry, White and White Purple Eye. Huge flower size and uniformity make it the best choice in this class of dianthus. *New color: Mixture Improved*

IMPATIENS Beacon™ F₁

NEW IN 2024 Colors - Hot new colors join the disease-resistant series. Announcing a popular colour addition for the Beacon Series, NEW Lipstick, along with bold NEW Pearl Island Mixture, a 3-colour mix named after a well-known lighthouse in Nova Scotia, Canada, where Impatiens downy mildew has been a significant problem. Both offer high resistance to the widely prevalent populations of Plasmopara destructor, the cause of Impatiens downy mildew. The series is suitable for packs, pots, hanging baskets and in-ground beds. *New colors: Lipstick & Pearl Island Mixture*

PETCHOA Caliburst™ F₁

NEW IN 2024 Color - PanAmerican Seed now offers a vibrant yellow petchoa from seed that provides an economical option for growers that want the same easy production in large containers and the intensity of vegetative petunia colors. Caliburst has a naturally compact/medium habit without the need for PGRs, and it makes a great mixed container component. *New color: Yellow*

PETUNIA **Ez Rider**

NEW IN 2024 Colors - Grandiflora Ez Rider and multiflora Lo Rider put flexibility at your fingertips and cost savings in your pocket, thanks to their matched and manageable growth from bench to retail. These genetically shorter, more controlled plants need less PGRs and are perfect for high-density programs. The two series solve the seasonal, geographic and control challenges of traditional petunias – they're perfect for growing and selling high-density cell packs to "promo" hanging baskets. *New colors: Mixture Improved & Violet*

PURSLANE **Toucan**

NEW IN 2024 Color - Economical, reliable, and programmable seed-grown purslanes for mass-market baskets, containers, and groundcover. Requires little or no PGRs, no pinching. Colorful buds develop into 2-in./5-cm blooms. Heat loving and drought tolerant. *New color: Fuchsia*

SPREADING PETUNIA **E3 Easy Wave® F₁**

NEW IN 2024 Colors - It's Early, it's Efficient, it's the Evolution of Easy Wave®...it's E3! This exciting Wave® series flowers at 10 hours daylength, and it will be ready at retail to kick off Easy Wave sales even earlier! With a manageable, uniform plant structure and vigor, this new series offers simple production to save on labor costs. *New colors: Repositioned Yellow & Sweet Taffy Mixture*

SPREADING PETUNIA **Easy Wave® F₁**

NEW IN 2024 Color - You'll always stand out in the petunia market with Easy Wave. Bring in a wide array of decorator colors. Put the huge versatility to work – they're perfect for solo and mixed planters and baskets, gardens, and landscapes. Best of all, these all-season salesmakers deliver customer-pleasing performance all Summer. *New color: Blue Improved*

VIOLA **Sorbet® XP F₁**

NEW IN 2024 Color - Violas are a key pro landscaper item and Sorbet XP excels at every turn: plants cover the soil a flowering, with more blooms on every plant and less stretching; stay compact in both heat and cold; excellent overwintering; wide range of clear colors allows for custom mixes. *New color: Orange Jump Up Improved*

ZINNIA **Zesty™**

NEW IN 2024 Color - Extraordinary garden appeal! Features fully double flowers and excellent garden vigor. Displays huge, vibrant colors all season long. Impressive in containers, mixed combinations, and borders. Pollinators love this plant! *New color: Mixture Improved*

FLOWERING CABBAGE **Osaka iQ**

Brassica oleracea

Osaka iQ series has more color earlier for shorter crop cycle. More compact habit leads to less or no required PGR. Late to bolt, meaning longer shelf life at retail and in the landscape. Attractive, textured leaves with more finge. *Colors: Pink Bicolor, and Red.*

PANSY **Majestic Giants II** *x wittrockiana*

Earlier flowering and better matched to the series. Ship all colors at the same time. Majestic Giants II is the best known fall brand. Higher sell-through. Rose w/Blotch Improved has better branching and looks better in packs and pots! Deeper color and better retail appeal. Clear Yellow Improved has larger flowers for more color. *Colors: Blue & White Imp., and Deep Blue w/Blotch Imp.*

PANSY **Grandio Viola** *x wittrockiana*

Red w/Blotch and Silver Blue - Red with Blotch is early with uniform flowering and matches the series. Excellent seed quality. New Silver Blue is excellent for fall to winter flowering and has outstanding uniformity to match the series.

PRIMULA **Dania** *acaulis*

A quality series for early season sales. Compact plant habit for less or no use of PGRs. Early flowering segment. Showy flowers are eye-catchers at retail. *Colors: Blue, Golden Yellow, Red Bicolor, Rose, Rose Bicolor, Scarlet, White, Yellow w/Eye, and Mix.*

PRIMULA **Lighthouse** *polyantha*

Uniform series performance, early timing and matching habit! Compact, uniform habit without PGR allows for multiple color planting program. Continuous flowering means longer shelf life at retail and season extending for final consumer! *Colors: Blue, Pink, Rose, Yellow, and Mix.*

VINCA **Virtuoso** *Catharanthus roseus*

Compact F1 hybrid and uniform habit with great basal branching in pots. Overlapping strong petals with round flower shape. Performs well in the garden, even under extreme conditions - warm and humid to cool with low light. *Colors: Orchid, Peach, Pink, and Raspberry.*

VIOLA **Color Max** *x hybrid*

True Blue - Good for spring and fall and in mixes. New colors to increase sales. Early flowering to match the series. Sell all the colors at the same time.

BEGONIA LIMITLESS™

BEGONIA Limitless™

NEW IN 2024 Series - A symphony of color. Fully double, extra-large flowers are held on top of the foliage, for ultimate presentation and retail appeal. Blooms up to 7 days earlier than competing series. Excellent branching fills containers uniformly for a tidy, mounded pot. Broad color range, including three unique novelties for special occasion sales.

BEGONIA Bossa Nova™

Bring the carnival to your containers! Two new colors for 2021 are Night Fever Rosso and Yellow Imp. Bossa Nova begonia's brilliant blooms in a full range of colors offer a perfect seed alternative to vegetative varieties. Fills multiple container sizes with an abundance of color with well-branched habit and short internodes. Excels in a variety of climates and conditions, including heat, sun, and shade.

BEGONIA Bowler™ interspecific

Contrasting flowers and foliage will bowl you over. Bowler™ is a vigorous, bronze leaf Begonia with large flowers and a unique, branched and mounding habit. Ideally suited for hanging basket production, yet versatile enough to also work in large packs. Chocolate-bronze foliage contrasts beautifully with large, bright white flowers.

BEGONIA Tophat™ interspecific

The biggest blooms and fastest finish put Tophat™ ahead of the pack. Finishes at least one week earlier than the leading competitors. Tophat™ is bred for versatility and is easy to finish in 306-packs up to large patio containers. A pure white, perfectly matched to the rest of the series, brighten shady spots and offers expanded opportunities for uniform mixes.

CLEOME Sparkler 2.0

Brawn and beauty for season-extending programs. F1 hybrid vigor and uniformity offer easy production and superior landscape performance. Heat-loving annuals hold up to summer stress and provide reliable height and structure to landscape beds. Improved with richer, eye-catching color and better branching for quick repeat flowering. No priming is required, improving seed quality and uniformity of young plant stands.

BEGONIA BOSSA NOVA™

CLEOME SPARKLER 2.0

ECHINACEA **Prairie Blaze™**

NEW IN 2024 Series - Striking novelty colors upgrade perennial programs and are a direct match to Prairie Splendor Compact in habit and timing. The first seed grown Echinacea with earliness and uniformity optimized for mass production and with a wide enough color range to offer a true alternative to vegetative varieties. Striking novelty colors upgrade perennial programs and are a direct match to Prairie Splendor Compact in habit and timing.

Delta Pro All Color Mix

MARIGOLD **Endurance™** interspecific

Endurance™ is the next generation in triploid breeding — F1 African x French Marigold brings the absolute best of both worlds! Extra-large double flower on a compact French Marigold habit. Exceptionally quick finishing allows for a nearly African-sized flower with nearly French Marigold timing. Heat tolerance and sterility combine for unsurpassed garden performance, providing masses of blooms all-season long.

Orange

Sunset Gold

Yellow

PANSY **Delta™ Pro**

NEW IN 2024 Series - Produced for Precision. Brings the highest levels of programmability and uniformity to a multi-season Pansy. Early and extremely uniform flowering, within varieties and across the series, takes the guesswork out of planning and production for spring and fall.

Delta Pro Tricolor Mix

VINCA **Cor® Cascade XDR**

There's none other like it. The only trailing vinca powered by high levels of resistance to multiple strains of aerial Phytophthora. Ideal for summer baskets, mixed containers, and large landscape beds. Large, high-quality flowers completely cover plants creating blankets of color lasting all season long.

ZINNIA **Zydeco™** marylandica

Let the good times bloom! 25% larger flowers than competitors. Average measurement across varieties in garden setting. Fully-double flowers increase flower longevity with lasting impact. Excellent disease resistance partnered with heat and drought tolerance provide superior season-long garden performance. Vigorously branched plants are adaptable to production in packs as well as premium pots and baskets. *Colors: Cherry, Deep Yellow, Fire, and White.*

BEGONIA F1 FIONA

BEGONIA F1 **Fiona** *semperflorens*

NEW IN 2020 Pink and White - Excellent uniformity in strong, upright, semi-double type Begonia *semperflorens*. Early flowering habit is same as standard single varieties. Plants are self-cleaning and provide continuous color throughout the summer until first frost; exceptional container performance. Also in the in series *Red and Rose. Height 8-10"; germination 7-10 days. *Fiona Red: 2018 Fleuroselect Gold Medal winner.*

CAPSICUM **Onyx Orange**

NEW IN 2023 Has striking black/dark purple foliage that contrasts with the vibrant, round, orange fruit that is produced in clusters all over the plant. Onyx Orange has an attractive compact, branching habit that makes a lovely presentation even without fruit. Best in 6-inch and gallon pots. *Also available is Onyx Red, an AAS winner.*

FLOWER KALE F1 **Crystal** *brassica oleracea*

Deep Red and Pink - Deep Red features a brilliant red center surrounded by deep green, glossy leaves while Pink's center is framed by bright green leaves. Plants are vigorous and glossy leaf types tend to resist bolting.

Red and Snow - Red has a more vigorous plant shape compared to Glamour Red and the stem is relatively longer than the other varieties. Snow is more compact than Red and has later coloring than the other varieties, it has a soft pink center, with cream colored inner leaves and dark green outer leaves.

FLOWER KALE F1 **Kamome Bright**

Red, and White - Fringe-leaf bedding flowering kale joining Takii's extensive ornamental kale offerings. Kamome Bright is faster coloring (about a week) than the Kamome series. Excellent for gardens, landscapes, mixed containers; fall sales, and winter sales in temperate areas.

HELIANTHUS F1 **Smiley Gold**

NEW IN 2023 - Helianthus F1 Smiley Gold joins the dark disk Smiley. and is a pollenless, pot type sunflower with a branching habit that produces multiple blooms. Height is between 6 and 20 inches (15 to 50 centimeters) depending on pot size. Blooms in about 55 to 60 days regardless of the time of year when grown in temperatures above 60°F (15°C).

DELPHINIUM JENNY'S PEARL

FLOWER KALE F1 CRYSTAL

FLOWER KALE F1 KAMOME

PETUNIA F1 Opera Supreme

NEW IN 2023 **Color** - Supremely superior characteristics define the Petunia F1 Opera Supreme series which now includes **Pink**. Short internodes for an abundance of blooms including the center of each plant. Plant spread is 3.5 to 4 feet (1 to 1.23 meters) with a ground hugging height of 6 to 10 inches (15.24 to 25.4 centimeters). *New color: Pink*

PETUNIA F1 Trilogy™ hybrida

An F1 hybrid Petunia bred to help the grower, retailer and consumer. It requires less growth regulators, lasts longer on the retailer shelf display and performs in the garden with minimal care. A multiflora Petunia with a novel dome habit, flowers prolifically on compact spreading plants. Uniformity across all colors, a controlled habit for less tangling, and less day length sensitivity than other spreading Petunias. Height 10-12"; spread 24-30".

SNAPDRAGON F1 Statement majus

Antirrhinum F1 Statement is a dwarf series series with thicker leaves. It has excellent basal branching and features very large flowers on compact plants. *Colors: Pink, Rose, Scarlet, White, and Yellow.*

ZINNIA Belize

NEW IN 2023 **Series** - An interspecific Zinnia series that is floriferous with a naturally compact and branching habit. Belize has excellent heat tolerance and is early flowering. Ideal for packs and pots, it thrives in containers and gardens. *Available in Cherry, Orange, Rose and White.*

ZINNIA Belize Double

NEW IN 2023 **Series** - Zinnia Belize Double has the same outstanding characteristics as Zinnia Belize. Available in Orange, Rose, Scarlet, White, Yellow and Formula Mix, three of the varieties have earned Fleuroselect awards. Orange and Rose are Fleuroselect Novelty winners and Scarlet earned a Fleuroselect Gold Medal.

Cherry Tomato Sugargloss

SEED | CUTTINGS

Basil
Coldasil™

BASIL (OCIMUM) Coldasil™ *ocimum basilicum*
Working in collaboration with a breeding company that specializes in spice cultivation, is cold tolerant. Coldasil™ has dark green foliage, medium size leaves and vigorous growth. This fantastic new basil is extremely aromatic and produces pink flowers! Available in organic form, Coldasil™ is compact and suitable for pot growers! Exclusive to Hishtil.

LAVENDER BeeZee® *lavandula angustifolia*
NOTABLE A hardy, compact and exciting series with tons of flowers that will attract and keep the bees busy during the long flowering season. Silver-gray foliage in the winter turns gray-green in the summer, and gray in the fall. The compact growth habit, thick spikes, height, and long flowering window are identical. Perfect for mix planting of two or three colors in the same pot. *Colors: Dark Blue® (1st year flowering), Light Blue® (1st year flowering), Pink® (white flower buds and deep pink flowers), Power Blue® (deep mid-blue), and White®.*

LAVENDER Lavlov™ *lavandula stoechas*
A Mediterranean beauty with a heavenly scent, this aromatic lavender is perfect for your garden or home. Densely packed flowers grow up to 16" high and create an ambiance of relaxation!

LIPPIA Giant™ *citriodora*
A Giant form, with bigger and broader leaves compared to the commercial variety. Furthermore, Giant™ grows a bit faster and taller than other Lippia citriodora varieties.

MINT Blackcurrant *mentha spicata*
There is a hint of Blackcurrant scent over a spearmint base with this beautiful plant, which produces dark green leaves with a flush of Blackcurrant color in early growth and a profusion of tasty leaves during the growing season. It is hardy and like most species of the mint family has a spreading habit, so is well suited to being grown in a container.

Lippia
Giant™

Mint
Blackcurrant

MINT **Kentucky Colonel** *mentha spicata*

The official Mint in the Kentucky Derby's mint julep drink! This new mint is super sweet, it has large leaves, dark green foliage, upright plant performance and vigorous growth. *Mentha spicata* 'Kentucky Colonel' is easy to grow and fit well in pots. Also available as organic.

MINT **Lime** *mentha x piperita f. citrata*

A new variety in our wide Mint assortment. Hardy perennial with a rounded plant shape, dark bronze leaves which have a fruity, Lime scent. Complements meats (more specifically mint sauce with lamb), soups, salads, vegetable dishes, sweet dishes, and drinks. Add to fruit dishes, summer drinks, and cocktails. Also available as organic.

ROSEMARY **Green Ginger** *rosmarinus officinalis*

Small dark blue flowers. Short, dark green, ginger scented, needle-shaped aromatic leaves. Green Ginger has great culinary flavor and is excellent with roast vegetables, tomatoes, and pasta dishes.

SANTOLINA **Lemon Fizz** *viridis*

Add sizzle to your summer with compact mounds of fragrant, finely divided foliage in an eye-catching chartreuse green color. Lemon Fizz is a neat, small to medium sized rounded shrub which produces dazzling yellow, button-shaped flowers in the summer. Plant this santolina as a border, in rock gardens, containers or in your garden in full sun. Best grown in containers for cooler climates.

THYMUS **GrowFlow™** *serpyllum*

A true cascading Thyme that is covered with small, bright pink flowers and large, caraway-scented, green leaves. It grows up to 2" high and spreads up to 24" in diameter; plant in full sun. The *serpyllum* species is native to Europe and North Africa.

Cucumber Speedway

Bell Pepper Green Machine

CUCUMBER **Speedway**

Speedway is an early, gynoecious hybrid slicer variety that produces fruit with uniform dark green skin and a cylindrical shape. Featuring a good disease package, Speedway gives growers a yield of high-quality fruit. *This product is commercially sold as a blend of the named gynoecious hybrid and a pollinator variety.

PEPPER, BELL **Green Machine**

Green Machine is ideal for growers who experience pressure from tobamovirus strain O, bacterial leaf spot races 0-10, or Tomato spotted wilt virus. This is a blocky bell with X10R®, Tobamo and Tomato Spotted Wilt disease resistance.

PEPPER, BELL **Playmaker**

Developed specifically for the northeast and notable for its high yield potential, Playmaker (with X10R®) is the first commercial variety with intermediate resistance to bacterial leaf spot races 0-10 and phytophthora blight — resulting in easier management for growers in comparison to other varieties such as Aristotle. This is a compact plant with blocky bell peppers with Tobamo, and phytophthora blight disease resistance.

PEPPER, BELL **Tarpon**

Tarpon is a main-season hybrid with X10R® technology and Intermediate Resistance to Phytophthora blight in the Northeast and Midwest United States and Eastern Canada. Tarpon has a compact plant and produces dark green, smooth blocky fruit. This is a blocky bell with X10R and phytophthora blight disease resistance.

PEPPER, BELL **Turnpike**

Fresh Market growers in search of a hybrid bell pepper with a strong disease package will appreciate Turnpike (with X5R®) for its intermediate resistance to phytophthora blight, concentrated setting and high yield potential. This is a blocky bell with X5R and phytophthora blight disease resistance.

TOMATO **Pink Delicious**

This giant heirloom-style hybrid tomato is as pink as it is delicious! With an average weight of about half of a pound per fruit, this crack-resistant titan of a tomato will be sure to please any heirloom lover. Plant this variety and it won't take long to discover these enormous, ribbed garden gifts that will produce plenty to share with friends and family. Heap this hefty tomato on burgers and BLTs or simply slice it up with some salt and pepper. This tomato is

Bell Pepper Playmaker

Bell Pepper Tarpon

Tomato Pink Delicious

delicious any way you slice it! With a great disease resistance package and a heavenly flavor, Pink Delicious will be a garden favorite for generations to come. *Regional AAS Winner.*

TOMATO Plus Series

If you've ever cared for a garden, you know how disheartening it can be to lose your harvest to disease. We want people to love gardening, that's why we bred the Plus Series. Think of it as your favorite tomatoes PLUS more natural disease resistance, more flavor and better adaptability.

Better Boy Plus - All the great characteristics of the classic Better Boy, plus more flavor, disease resistance and adaptability. This bright red hybrid is unbelievably juicy and packs an unbeatable flavor. Weighing in at about a pound, Better Boy Plus can fill up dinner plates and hungry stomachs. Better Boy Plus is better canned, or cooked into hearty sauces. Height 6', spread 3'.

Big Beef Plus - Boasting better flavor, adaptability, disease resistance and deeper internal red gel color, compared to the classic Big Beef. Growers will appreciate Big Beef Plus for its updated disease resistance package and yield potential. The old-time tomato flavor and colossal fruit size makes this a perfect variety for salads. Height 5', spread 3'.

Celebrity Plus - This tomato is everything growers love about the original Celebrity, plus an added resistance to Tomato spotted wilt virus. A widely adaptable hybrid for the fresh market and home garden, Celebrity Plus produces large, smooth fruit with outstanding flavor. Height 5', spread 3'.

Lemon Boy Plus - All the best qualities of the original Lemon Boy, plus added flavor and disease resistance. This tomato has a unique yellow color and a sweet, tangy flavor. Lemon Boy Plus will liven any salad or side dish. Height 6', spread 3'.

TOMATO Saybrook

Saybrook is a determinate round tomato that is ideal for both the vine ripe and mature green market. The vigorous plant type produces a large set of extra-large smooth fruit all the way to the top of plant with good canopy cover to help reduce the risk of sunscald.

Aristotle

BASIL **Aristotle** Greek type

Small, leaved, highly aromatic with a very neat rounded habit. Strong stems, late flowering and good tolerance to poor weather. Ideal for containers.

BASIL **Floral Spires** thai type

Lavender + White - Produces anise scented leaves are a great alternative to standard basil. Bred for its bloom, Floral Spires will not get bitter when blooming.

BASIL FLORAL SPIRES

Lavender

White

CUCUMBER **Peticue** hybrid/slicer

A short vined cucumber variety perfect for the patio. Short green fruits with good flavor and a slightly sweet taste. High yielding when regularly harvested.

CUCUMBER **Petipikel** hybrid/pickling

Short vining/bush takes up 1/3 the space of standard cucumbers. Best harvested at 3-5" for pickling, though can be left on vine and harvested at 7" for fresh use.

EGGPLANT **Amethyst** dwarf/compact

This compact, basal branching plant produces high yields of purple, egg sized fruit and virtually spineless leaves; weighing 2.75 to 3.5 ounces. Ideal for pots and containers as well as in rich and fertile borders with shelter. Few pests and disease problems but monitor the plants for build-up of aphids and whitefly.

EGGPLANT **Pinstripe**

Unusual light purple fruits are streaked with white and produce virtually spineless leaves. Pinstripe is compact with a basal branching plant habit.

Cucumber Peticue

Cucumber Petipikel

Eggplant Amethyst

Eggplant Pinstripe

Eggplant Pot Black

EGGPLANT **Pot Black** baby type

Small 2-3 ounce patio grown fruit is ripe for the picking once it becomes as big as a ping pong ball and until it grows to the size of a tennis ball.

KALE **Prizm** baby leaf

Produces an abundance of edible leaves. Quick to re-leaf with uniformly-sized, sweet leaves. Performs under high-density planting in small garden spaces and edible patio containers. Deep green, fine-curbed leaves are attractive and tasty. Suitable for small space gardens. *AAS Winner. ** Perfect for small spaces and containers! ***

OKRA **French Quarter** dwarf

A brand new Dwarf Okra series with Pink or Red fruits, and lemon colored flowers. Red has attractive dark red foliage and stems. This compact plant produces 3-5 Okra at a time and will continue to produce as picked. Fruit is best picked young. Habit is open and works well on its own or in a combination. Height 16-18", spread 17". Matures 50-55 days. *Colors: Pink and Red.*

OKRA **Green Fingers**

Compact, spineless Okra with deep, glossy green leaves. A novel okra that starts producing fruit at 15" tall!

PEPPER, SWEET BELL **Encore**

Mid- to-late season variety that is slow to turn red maintains large- to extra-large size and shape under cool temperatures. Consistently delivers very smooth peppers with thick walls. Widely adapted with strong virus tolerance. Medium height plant with excellent foliage cover to protect fruit. Adaptable to patio containers. *** Perfect for small spaces and containers! ***

PEPPER, SWEET BELL **Liberty Belle**

Naturally dwarf plants bear an abundance of very sweet bell peppers. Matures green to bright yellow.

PEPPER, SWEET BELL **Mohawk**

A true bell pepper. Very early and high yielding on a compact, spreading plant. Great performance in packs or pots. Holds fruit well for a long shelf life. Height 12-16", fruit 4-5".

Jalapeño Pepper Paquime

PEPPER, SWEET BELL **Redskin**

A true dwarf bell pepper with medium sized fruit; great for cooking. Very early fruiting with excellent yield on a compact, upright plants. Ideal for pots or containers; matures to red. Height 12-16", fruit 4-5".

PEPPER, CAYENNE **Cayennetta**

A cayenne type chili with a very neat, attractive habit and compact branching. Produces large crops of 4" bright red tapered fruits beneath the attractive leaf canopy. Mild fruit heat 20,000 Scoville units. *AAS Winner.*

PEPPER, CAYENNE **Longhorn**

Vigorous, high yielding plants. Like its namesake cattle, the fruit exhibit a very long taper with a slight curl at the tip. 15,000-20,000 Scoville units.

PEPPER, CUBANELLE **Aruba**

Early maturing, even under conditions that make gaining size difficult. Harvest consistent yields of sweet Cubanelles over an extended season. Outstanding vigor, erect plants supports large sized fruit without overcrowding. Adaptable to patio containers. *** Perfect for small spaces and containers! ***

PEPPER, HOT **Alter Ego** hot edible/ornamental

Naturally dwarf plant, upward facing fruit. Colorful fruit matures from light green, cream, light purple to bright red. It is both tangy sweet and hot in flavor. 30,000-40,000 Scoville units.

PEPPER, HOT **Apache**

Apache turns from green to bright red and fruits all summer long. Height 18". Fruit 2-3". 80,000 Scoville units.

PEPPER, HOT **Atomic**

Dwarf habits producing upward facing fruit. Exceptional branching results in high yields. Has both ornamental and culinary appeal. Fruit are sun-tolerant. 90,000 Scoville units.

PEPPER, HOT **Basket of Fire**

hot edible/ornamental/semi-trailing

A true hanging basket pepper with small leaves and a well rounded appearance! Branches cascade as they develop and new growth fills the top. Matures in 80 days and changes from cream to orange and finally to red as they ripen. 80,000 Scoville units.

PEPPER, HOT **Chenzo** hot edible/ornamental

Compact and well branched; beneath the foliage, multiple, long black peppers cascade and slowly mature to red. Ripens in 68 days. 45,000 Scoville units. *** Perfect for small spaces and containers! ***

PEPPER, JALAPEÑO Paquime

The beginner's jalapeño—just the right amount of heat without overpowering your senses. Consistently produces super-sized jalapeños nearly 5" in length beginning in 70 days. High-yielding with strong, vigorous plants to support the fruit load. Fruit matures green to red. 5000-8000 Scoville units. Adaptable to patio containers. *** Perfect for small spaces and containers! ***

syngentaflowers

Physalis Little Lanterns

PHYSALIS Little Lanterns ground cherry

Compact umbrella shaped habit with stunning flowers, soon followed by delicious fruit. Ideal for hanging baskets.

STRAWBERRY Mignonette Woodland/Alpine

A woodland or alpine strawberry, renowned for its intense aroma and flavor. Known as an everbearing type, it produces fruits over a long harvest period. The small red fruits are attractive and hang down to form a cascading effect. Performs best if planted outdoors in a sheltered, sunny or partial shaded position and can provide fruit in early June from a March sowing. Ideal for pots, containers and hanging baskets. Height 10"; spread 16".

Strawberry Mignonette

TOMATO, BEEFSTEAK Better Bush indeterminate

Early- to mid-season beefsteak produces 8 oz. fruit that delivers real tomato flavor. Compact determinate habit is perfect for large pots or small gardens. Attractive plant habit and beautiful sweet fruit. Suitable for small space gardens. Best for salads, slicing, or eating fresh. *** Perfect for small spaces and containers! ***

TOMATO, BEEFSTEAK Big League determinate

Very large true beefsteak fruits, 320g to 650g. Good flavor for a beefsteak, 6.5 brix rating. Semi-determinate habit, height approximately 3 feet and 5 to 7 fruits per truss.

TOMATO, CHERRY Peardrops

determinate/semi-trailing

Sweet tasting tomatoes with attractive, oval, golden yellow fruit. High yielding plants with a naturally trailing habit. Great in both baskets and containers. Meets the need for a deliciously sweet yellow grape tomato.

Beefsteak Tomato Big League

Cherry Tomato Peardrops

TOMATO, CHERRY Pink Charmer indeterminate

Indeterminate habit, high yielding trusses, yielding, up to 40 fruits per truss. Deep rosy pink fruits 20 to 25 grams weight with very good flavor, and a 10 brix rating.

Tomato
Beefsteak
Better Bush

Cherry Tomato Pink Charmer

Cherry Tomato Red Profusion

Cherry Tomato Sugargloss

Cherry Tomato Supersweet ¹⁰⁰

TOMATO, CHERRY Red Profusion

determinate/trailing

Quick maturity makes it easy to finish for retail sales showing green fruit. Trailing, neat and tidy bushy habit is perfect for hanging gardens. Good weather tolerance.

TOMATO, CHERRY Sugargloss indeterminate

Excellent crack resistance and attractive, bright red glossy fruit make this one of the very best cherry tomatoes available. Indeterminate habit, yielding up to 60 fruits per truss. Very good flavor with a 12 brix rating and weighing 20 to 25 grams.

CHERRY TOMATO SWEET 'N' NEAT

Yellow

TOMATO, CHERRY Super Sweet 100 indeterminate

A top seller and home garden favorite! Produces large clusters of 15-25 cherry-sized fruit. Perfect for amateur markets demanding high-quality and excellent sugary flavor. Same mouthwatering flavor yet more disease resistant than Sweet 100. Best for snacking and salads. *** Perfect for small spaces and containers! ***

TOMATO, CHERRY Sweet 'N' Neat

compact/determinate

A compact dwarf tomato plant that produces a strong upright plant 10-12" high. Tomato Sweet 'n' Neat bears a large crop of small, sweet cherry red fruits which will harvest over a long period throughout the summer months. Retail in 4-6" pots with green fruit 10 weeks from sowing. *Available in Scarlet and Yellow.*

Cherry Tomato Tumbling Tom Yellow

XL Cherry Tomato Summerlast

TOMATO, CHERRY Tumbling Tom Yellow

semi-determinate/trailing

A very high yielding tomato with a cascading, even-branching habit for ornamental container use; vines yield 15 gm/.5 oz. fruit. With a sweet and delicious flavor, Tumbling Tom is a tasty addition to any dish.

TOMATO, XL CHERRY Summerlast

snacking/compact/determinate

Dwarf patio tomato with Late Blight Resistance! Produces deliciously sweet cocktail sized fruit.

TOMATO, XL CHERRY Totem Red Imp

snacking/compact/determinate

Sturdy, compact bush-type; heavy cropping. Adaptable plant is strong and robust but requires support when loaded with fruit.

XL Cherry Tomato Totem Red Imp

PAYMENT TERMS

Customers with an established charge account must make payment within 30 days of the invoice date. Customers without an established charge account must remit a payment in advance. Customers with a Prepay account must place orders exceeding \$1,000.

PRICES

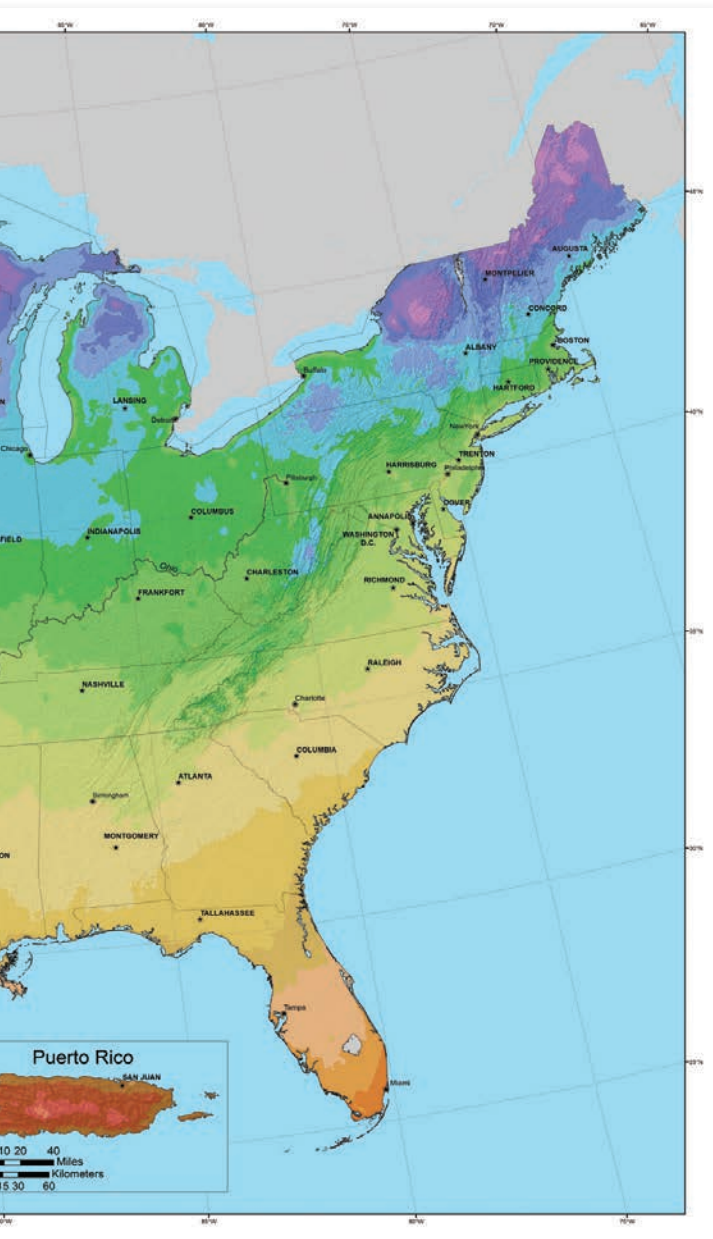

Varieties are sold by seed count. Prices are listed in dollars per 1,000 seed (\$/M). NOTE: Prices are subject to change without notice.

MINIMUM ORDERS

The minimum seed order is \$100 when shipped in the U.S. and Puerto Rico. Below minimum orders are subject to a \$10 handling fee plus freight charges. Orders below \$10 cannot be processed and will not ship.

MINIMUM QUANTITIES

The minimum quantity for each seed item is listed at www.michells.com and on the Seed Order Form. Orders for below-minimum quantities are prohibited. Seed is sold in (integer) multiples of the minimum quantity ONLY. For example, if the minimum quantity is 500 seeds, then the order quantity must be 500 or 1,000 or 1,500, etc.

PLANT HARDINESS ZONE MAP

This map is the standard by which gardeners & growers can determine which plants are most likely to thrive at a location.

The map is based on the average annual minimum winter temperature, divided into 10-degree Fahrenheit zones.

FREIGHT

Shipping charges are invoiced for all below minimum orders. All seed orders under \$200.00 will be shipped by US. Mail. Freight charges are also imposed whenever overnight, next day or second day delivery is requested, or when the package weight exceeds 5 pounds. Items drop shipped from original orders are subject to shipping charges from the vendors. All Michell's shipments require a signature from a person's 18 years or older to receive the package.

PACKAGING

Seed is available in the following package sizes: 0.5M, 1M, 5M, 10M, 25M or BULK (where M = 1,000 seed). Michell's reserves the right to fulfill seed orders using whatever packages are on hand. Requests for multiple packages incur a fee of \$1.00 per package. For example, a seed order for 5M in 1M packages would be charged and extra \$4.00 (one dollar for each extra package).

SEED FORM

Many seed varieties are sold in more than one form. Most seed is sold in its natural (RAW) state. Other forms include: coated (CTD), de-tailed (DET), multi-pellet (MPL), pelletized (PEL), precision multi-pellet (PMPL), and primed (PRI).
