## Antique Mirrors

At TCG Glass, we specialize in the art of antique mirror glass — combining traditional hand-silvering and organic distressing techniques with state-of-the-art production. Our antique mirrors are not just decorative panels; they're timeless design elements that add depth, history, and elegance to any interior. Whether you're designing a boutique hotel, luxury residence, or high-end retail space, our mirrors bring unmatched sophistication to your vision.

Antique mirrors are more than just reflective surfaces—they bring history, warmth, and elegance to any space. Here's why they continue to be a top choice for interior designers, architects, and homeowners:

**Timeless Beauty** – The aged, distressed look of antique mirrors adds character and sophistication to any setting.

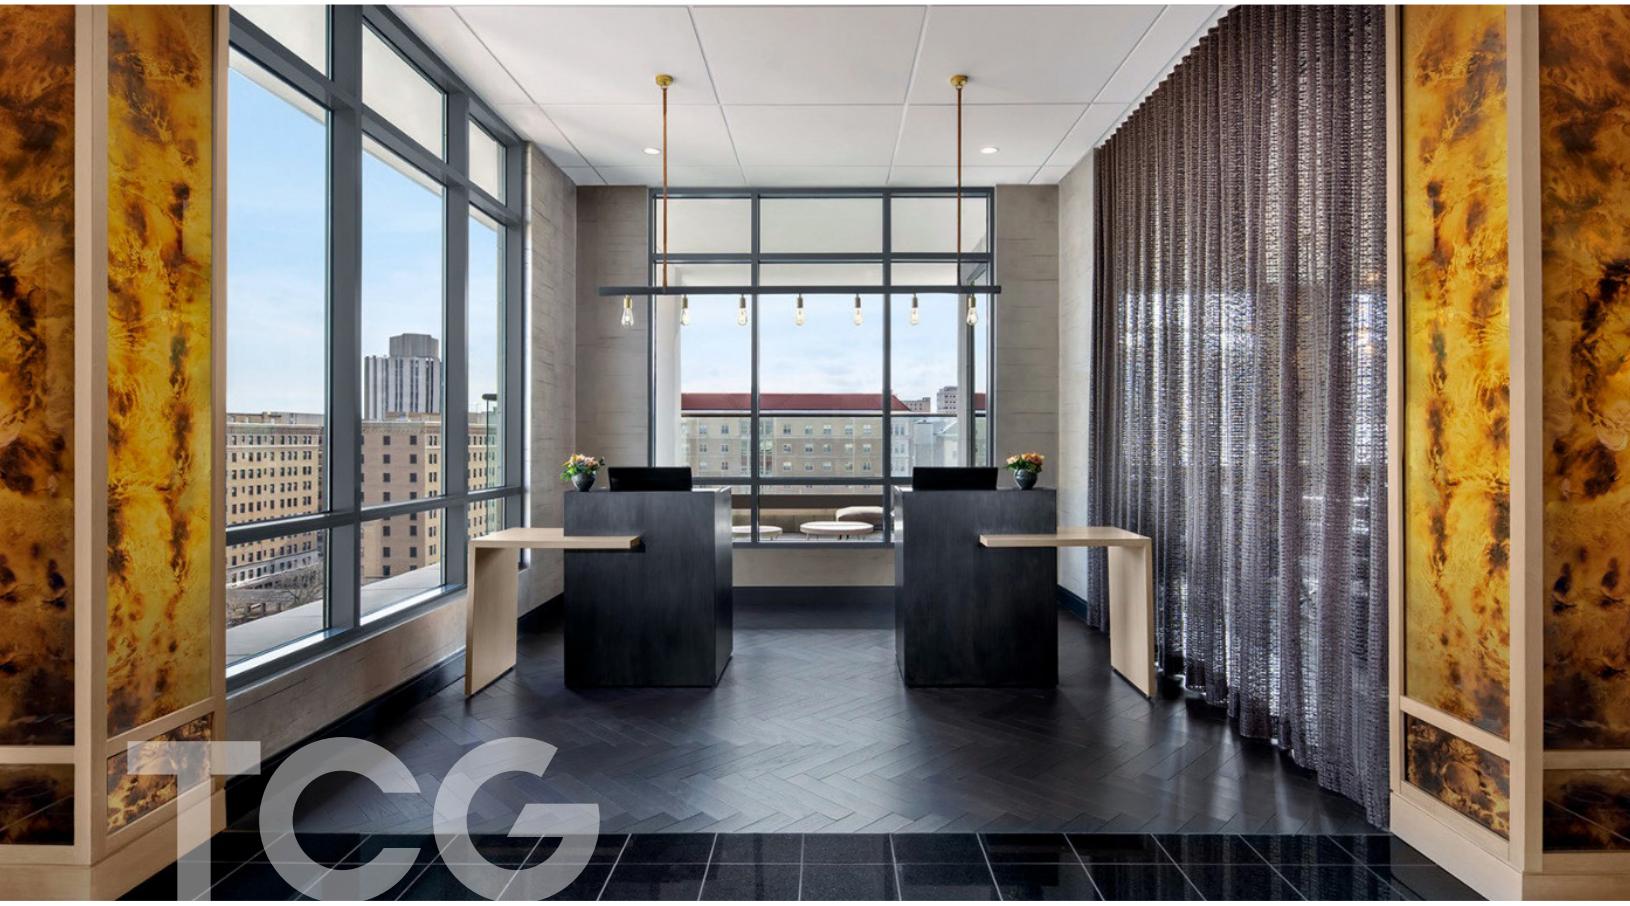

**Luxury Appeal** – Found in high-end hotels, private residences, and exclusive boutiques, antique mirrors elevate interiors with a sense of history and refinement.

**Versatile Design** – Perfect for walls, furniture inlays, backsplashes, and ceiling panels, these antique mirrors enhance both modern and traditional spaces.

**Unique Reflection** – Unlike standard mirrors, the soft, diffused reflection of antique glass creates a warm and inviting ambiance.
