

Descriptions - Specifications

FERTICELL P 0-20-0 LIQUID SOLUBLE is a certified organic fertilizer, from mineral (phosphoric rock) to supply high available P2O5 to the plant.

FERTICELL P 0-20-0 LIQUID SOLUBLE can be applied both foliar and/or irrigation in all kind of crops during any stage of the vegetative cycle. The phosphorus is an essential nutrient and it's involved in most of the biochemical reactions of the plant: photosynthesis, respiration, synthesis of proteins and carbohydrates; etc. The phosphorus (P) participates as well, in processes such as obtaining cellular energy (being part of the ADP and ATP molecules).

FERTICELL P 0-20-0 LIQUID SOLUBLE is especially indicated to improve the development of roots, to stimulate the formation of buttons in flowers and a healthy development of fruits in plants, avoiding the abscission phenomenon. Contain unicellular algae, being completely neutral and biologically active, making the assimilation of calcium that accompanies it faster and more complete. Algae are especially important in plant nutrition, as they give a higher yield, precocity and quality in all crops.

FERTICELL P 0-20-0 LIQUID SOLUBLE increases the resistance of plants in unfavorable weather conditions, and must be used especially during the flowering phase.

Uses

Foliar
Fertigation

Available Containers

3.5 Gal
170 Gal
275 Gal

GUARANTEED ANALYSIS

Composition	Percentage (w/w)
Total Phosphor (P2O5)	20.00%
Algae solution (100 % from unicellular fresh water algae extract)	25%

PHYSICAL PROPERTIES

State:	Liquid
Color:	Light Br
Density:	10.18 lbs / gallon @ 68 degrees F
pH:	0.5 ± 0.10

GENERAL USAGE AND DOSAGE RECOMMENDATIONS

Crop	Foliar dose	Fertigation dose
Fruit trees (Citrus fruits, Apples, Pears, Blueberries, Almonds, Cherries, Peaches, Avocado, Mango, Banana, etc)	1-4 quarts / acre	1-4 quarts / acre
Horticultural crops: (Tomato, Potato, Cucumber, Melon Courgette, Cauliflower, Onion, Carrot, Pepper, etc)	1-4 quarts / acre	1-4 quarts / acre
Extensive crops: (Cereals, Alfalfa, Cotton, Beetroot, Corn, Sunflower, etc)	1-4 quarts / acre	1-4 quarts / acre

- The specified dosages are general recommendations. The amounts depend on the crop, phenological state, level of deficiency and soil type. Keep the product at room temperature, in a cool and dry place.
- The physical and appearance characteristics of the product may be altered due to the ecological nature of the product.
- Use under technical advice. Keep the product at **room temperature**.
