

FRANCS ANGUS

ON-FARM AUTUMN SALE 2026

Thursday March 12th 2026 - Gates open 11:00AM, Sale begins at 1:00PM

Francs Angus, 2957 Carngham-Streatham Rd, Beaufort VIC 3373

Phone: 0407 406 509 • Website: www.francsangus.com.au

WELCOME TO FRANCS ANGUS 2026 AUTUMN BULL AUCTION

The last year has been a tough one for many in the livestock industry. An extremely dry period has put pressure on both both farmers and their stock, but we have worked through the challenges and are more than satisfied with how these crop of bulls present.

Following late Spring rains with unprecedented pasture growth, the season had definitely turned around. Then on January 9th we were impacted by the Carranballac fires.

Myself and Faye would like to thank all the people who reached out and supplied fodder, agistment or helped with clean up and in many other ways. Country communities come together in a crisis and this has been very evident over the last 2 months. Strong weaners sales and buoyant red meat prices gives us all confidence heading into the future.

This years bulls are 18 months old and once again are displayed in good working order. Our bulls are not overfed and we like to describe our bulls as “fit not fat”.

This years sale bulls are sired by industry leading sires, both AI and out own walking bulls. Angus stud bulls have been produced on this Jinamoc property for 70 years. We endeavour to breed cattle that are true to the Angus breed. Exceptional phenotype with, structural strength and docile temperament.

All bulls have been genomic tested and sire verified. All working together to give the best possible information.

Franco Angus is a true family run operation, we supply quality bulls and a personal service that leaves customers satisfied.

HEALTH

All bulls have had 2 doses of Pestiguard, Vibrovax and 7 in 1. Bulls were drenched with Eprimectin 28/01/26.

CARING FOR YOUR NEW BULL

These bulls have ran in a herd since birth and have never been alone, please have companions in the yards for them to go in with when they arrive at your farm.

INSURANCE

An insurance agent will be available on sale day to organise insurance, we strongly recommend all bulls be insured for their 1st working 12 months at the fall of the hammer.

REBATE

A 3% rebate to outside agents accompanying clients to the sale and settling within 7 days.

DELIVERY

Delivery of bulls will be coordinated after the sale. Bulls are delivered free of charge in the state of Victoria.

FERTILITY

We semen test ALL sale bulls. Bulls are examined by Nationwide Artificial Breeders for erection abnormalities and satisfactory sperm count specifications.

The visual test includes penile warts, hair rings, injuries and penile frenulums by undergoing a physical examination of the external genitalia and conformation. The crush side semen test involves qualified analysis of spermatozoa for motility, concentration, morphology and semen vesiculitis.

This information provides testicular and epididymal function which helps predict the potential fertility of the bull. Only bulls that pass this strict testing regime are certified and make the sale list.
