Friday 14th March 2025 - Gates open 11:00_{AM}, sale begins at 1:00_{PM}

Francs Angus, 2957 Carngham-Streatham Rd, Beaufort VIC 3373

Phone: 0407 406 509 • Website: www.francsangus.com.au

SIRE REFERENCE: SIRES RECENTLY USED

Sire: ELLINGSON RANGELAND

Sire: S S BRICKYARD

Sire: PAINTROCK TRAPPER

Sire: WOODHILL PATENT

WELCOME TO FRANCS ANGUS AUTUMN SALE 2025

Welcome to our 3rd annual on-farm Autumn bull sale.

This sale will be run in conjunction with AuctionsPlus using the Helmsman Auction system.

This years bulls are 18 months old and once again are displayed in good working order. Our bulls are not overfed and we like to describe our bulls as "fit not fat".

This years sale bulls are sired by industry leading sires, both AI and out own walking bulls. Angus stud bulls have been produced on this Jinamoc property for 70 years. We endeavour to breed cattle that are true to the Angus breed. Exceptional phenotype with, structural strength and docile temperament.

All bulls have been genomic tested and sire verified. All working together to give the best possible information.

Frans Angus is a true family run operation, we supply quality bulls and a personal service that leaves customers satisfied.

HEALTH

All bulls have had 2 doses of Pestiguard, Vibrovax and 7 in 1. Bulls were drenched with Eprimectin 11/02/25.

CARING FOR YOUR NEW BULL

These bulls have ran in a herd since birth and have never been alone, please have companions in the yards for them to go in with when they arrive at your farm.

INSURANCE

An insurance agent will be available on sale day to organise insurance, we strongly recommend all bulls be insured for their 1st working 12 months at the fall of the hammer.

REBATE

A 3% rebate to outside agents accompanying clients to the sale and settling within 7 days.

DELIVERY

Delivery of bulls will be coordinated after the sale. Bulls are delivered free of charge in the state of Victoria.

FERTILITY

As with any species, fertility can be a problem. This is why we semen test ALL sale bulls. Bulls are examined by Nationwide Artificial Breeders for erection abnormalities and satisfactory sperm count specifications.

The visual test includes penile warts, hair rings, injuries and penile frenulums by undergoing a physical examination of the external genitalia and conformation. The crush side semen test involves qualified analysis of spermatozoa for motility, concentration, morphology and semen vesiculitis.

This information provides testicular and epididymal function which helps predict the potential fertility of the bull. Only bulls that pass this strict testing regime are certified and make the sale list.

LOT 1

FRANC'S ANGUS U72^{SV}

VKP23U72

Date of Birth: 29/07/2023

Register: APR

Sire: WOODHILL BLUEPRINT^{PV}

Sire: MYERS FAIR-N-SQUARE M39^{PV}

Dam: MYERS MISS BEAUTY M136[#]

Sire: ASCOT LION HEART L305^{PV}

Dam: KOORNANG PARK FRANCS Q64[#]

Dam: KOORNANG PARK K80[#]

Notes: A bull by Fair-n-Square, very thick and compact, and if you are looking for growth, all are in the top 2%. Will definitely put weight into prodginy.
