SOCIAL PROCUREMENT POLICY

Metro Resources Group Pty Ltd (MRG) is committed to achieving positive social, economic and environmental outcomes through the way we purchase goods and services. The organisation will comply with legislative and client requirements that govern procurement and will operate in a transparent and ethical manner that maximises benefits for the wider community.

Our goal is to ensure that procurement decisions deliver value for money while contributing to social wellbeing, community development and sustainable business practices.

In order to achieve social procurement commitments MRG will:

- Promote equitable access to procurement opportunities and support inclusive participation across all supplier categories;
- Provide opportunities for Aboriginal and Torres Strait Islander businesses, disability enterprises and social enterprises;
- Support the engagement of local suppliers and small to medium enterprises (SMEs) to strengthen regional economic growth;
- Ensure all procurement practices are transparent, fair and consistent with MRG's ethical and compliance standards;
- Integrate social value considerations into purchasing decisions to generate measurable community benefits;
- Align procurement activities with applicable State and Federal social procurement frameworks and client-specific requirements;
- Monitor and review social procurement outcomes to ensure ongoing improvement and accountability;
- Commit to open and honest communication with all stakeholders in relation to procurement matters.

This policy is aimed at promoting responsible procurement that contributes to both commercial and social objectives. To maintain this policy, it is the responsibility of each staff member involved in procurement to ensure that all purchasing decisions are conducted ethically, fairly and with consideration of social impact.

Social procurement management is a core responsibility of MRG, and this Policy is supported by the organisation's WHS, Quality, Environmental and Industrial Relations management systems.

Peter Petrovski
Managing Director
