WHAT IS BUSINESS EXPENSES INSURANCE?

Business Expenses Insurance is designed specifically for the self-employed and ensures their fixed expenses will be paid in the result of an injury or illness where they are unable to work.

The benefit covers the expenses amount less any amounts reimbursed from anywhere else.

TYPE OF COVER

The only type offered is indemnity which will cover the lesser of:

- Your insured monthly benefit.
- The business expenses that are incurred that relate to the period of your disablement less any amounts reimbursed from anywhere else.

BENEFIT PERIOD

Like Income Protection, Business Expenses Insurance pays a monthly benefit to cover your fixed business overhead expenses if you're injured or ill and cannot work.

The benefit generally lasts a maximum period of 12 months.

This table shows the difference in premiums paid over time between the 3.

PREMIUM STRUCTURE

Premiums are usually paid in 1 of the 3 following ways – either a stepped premium which increases each year. A level premium which consists of a consistent payment each year typically to the age of 65 to counteract the perceived risk which increases alongside your age. The third option is a hybrid premium which is only available through a small number of insurers and combines both the level and stepped premiums.

- The stepped premium continues to increase each policy anniversary date due to becoming a year older and ultimately closer to your date of death and more likely to suffer an injury or illness.
- The level premium is initially dearer although remains the same year in year out (minus CPI increases that you can decline if desired).
- The level premium is a hedge against inflation.

- Considering the level premium remains constant this of benefit for cash flow purposes.
- By opting for the level premium, you will lock in the premium rate until age 65.

Generally, the level premium option will work in your favour from a cost analysis if you intend on owning the cover for an extended period of time.
