

Trauma Insurance

WHAT IS TRAUMA INSURANCE?

Trauma Insurance provides a lump sum on the diagnosis of a medical condition. The number of conditions you are covered for will vary on the policy you have.

Worldwide protection is also offered by insurers which will cover you anytime, anywhere in the world.

WHY DO YOU NEED TRAUMA INSURANCE?

Quite often the case when you are diagnosed with a trauma condition, ongoing medical costs are regularity and can cause significant financial hardship for those affected – particularly those with young families or mortgages and other repayments to make. Trauma Insurance aims to cover those medical costs that aren't covered by health cover and replace any lost income that may come as a result of your condition.

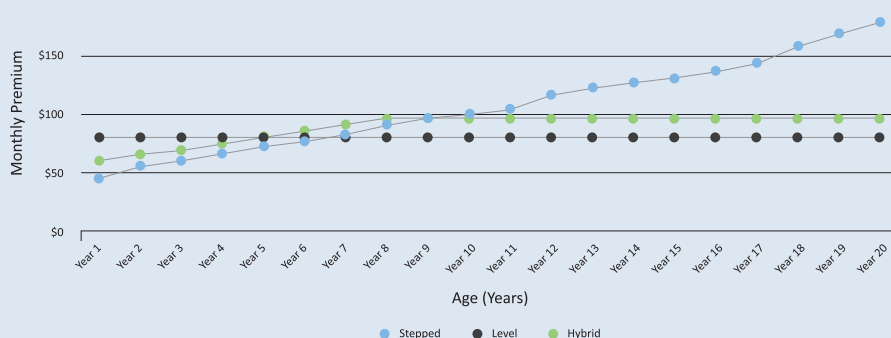

HOW MANY INSURERS ARE OUT THERE?

There are over 50 Insurers within Australia for which we have access to all of them in order to find you the best policy to meet your needs.

PREMIUM STRUCTURE

Premiums are usually paid in 1 of the 3 following ways – either a stepped premium which increases each year. A level premium which consists of a consistent payment each year typically to the age of 65 to counteract the perceived risk which increases alongside your age. The third option is a hybrid premium which is only available through a small number of insurers and combines both the level and stepped premiums.

The table below from shows the difference in premiums paid over time between the 3.

- The stepped premium continues to increase each policy anniversary date due to becoming a year older and ultimately closer to your date of death and more likely to suffer an injury or illness.
- The level premium is initially dearer although remains the same year in year out (minus CPI increases that you can decline if desired).
- The level premium is a hedge against inflation.
- Considering the level premium remains constant this of benefit for cash flow purposes.
- By opting for the level premium, you will lock in the premium rate until age 65.
- Generally, the level premium option will work in your favour from a cost analysis if you intend on owning the cover for an extended period of time.
