Customer Reviews ★★★★★

## **David S.**

Stan makes the impossible possible. As the author of a book in 1993 when I was a reporter at Time magazine, I didn't know how easy and affordable it could be to create a digital version. Stan responded immediately and converted my book into a PDF file in just a couple of days. He couldn't have been kinder, and my book looks fantastic! I highly recommend his services. A+++  
(David S. Senior Contributor, Forbes)

## **Alex B.**

Very professional company. The scans came out beautifully. I would recommend this to anyone looking for high quality scans of books or documents. The customer service was wonderful. I recommend this place to everyone needing scanning projects done.

## **Aaron S.**

Great communication and fast service. Helped me coordinate shipping an Amazon hardcopy of the book directly to him for scanning. Microsoft doc looked great. Thanks Stan.

## **Michelle H.**

Excellent service! My grandfather used to scan his friend's old books and manuscripts one page at a time. It was time consuming, his scanner was not top quality, and there was the occasional human error. ... Switching to Golden Images LLC was one of the best decisions we made for his company! Friendly, professional service. Good communication. And excellent results!

## **Olive S.**

We used Golden Images to scan books that our ministry published but are no longer in print. We tried another business at the same time, but the customer service with Golden Images was so more responsive than the competition and the scan that we got back was also much better and quicker. We have sent Golden Images several times since then and have been quite happy with the services.

## **Don C.**

I decided to rewrite a book and screenplay I had published over thirty years ago. I had only the hard copy. I looked into having it retyped but it was too expensive. I am a senior, living mostly on social security. I found Stan at Golden Images and everything changed. He was experienced and knew exactly what I needed. He was able to put the whole book in Word Doc and now I'm going through my final polish. The story is better than ever and this could be a bestseller. He may help me put it into a format for Amazon Kindle. Thank you Stan for being so helpful and friendly and working to find a price I could afford.

**Lorie C.**

Stan was genuinely interested in my project, was quick to answer all my questions, and made suggestions that worked for both my immediate needs as well as possible future needs. He and his team turned around the job much faster than I expected, with a 94.33% success rate for the first scan (more than 2000 pages from 9 books). The website information is easy to understand, the download portal is easy to use, and the pricing is excellent. It's such a treat to finally be able to do a PDF search through all these old books! I can't recommend Stan and Golden Images highly enough!

**Rugger B.**

Researched a good number of firms to entrust my documents to. The reviews on google were helpful. As a result, thought i'd add one too. Was seeking to get a number of books and other documents scanned (none copyrighted). Stan and his team were highly communicative, made helpful suggestions about how to best approach the project, and executed as described. Would use again and recommend to others.

**Jim F.**

Stan does excellent work. I highly recommend him.

**Joe K.**

I was glad to find Golden Images after much searching. They were fast, efficient, and reasonably price, saving me time and also the tedious work of editing scanned book pages. I highly recommend them. J. Kelly

**Matt B.**

I've been using Golden Images for several years for scanning projects ranging from a few pages to dozens of books. Stan and team always provide great service—fast, thorough, and good reproduction—including for the trickiest projects I've been able to throw at them. Highly recommend.

**Jeffrey K.**

I live more than 1000 miles from Golden Images, but upon a recommendation, when I needed to have an extremely rare and valuable book scanned, without harming the book, I turned to Stan at GI LLC. I wasn't disappointed. Stan took great care to listen to my needs, offer suggestions, and to reach out to collaborate when thorny technical issues arose. His rates were more than fair. The packaging that brought my book back to me (in excellent condition) was top-notch. The scanned document itself was first-rate and word searchable. I highly recommend Golden Images!

**Lisa Q.**

The BEST customer service! Stan personally worked with me and took a sincere interest in my project including patiently answering all of my questions! I had my scanned docs in no time at a very fair price.

**Brian J.**

Very professional. Stan does fast, high quality work.

**Elizabeth I.**

If you care about your books, and I do, have them scanned by an expert. I have many image-heavy, oversize art books and Golden Images did a terrific job with these with personal service and a fast turnaround time. It is wonderful to have my important books in a portable format.

**Adam G.**

I have used Golden Images many, many times. They always have an incredibly fast turnaround and very high quality scans. I've never had any problem. Definitely recommended!

**Jordan W.**

Golden Images has scanned over a dozen volumes for me, often re-doing work at little or no extra charge when it fell short of my (little charge) or Mr. Drew's (no charge) standards and understandings of the job. These volumes have been scanned to such a quality as to permit reprinting and excerpting for classroom or other personal use. His attentiveness to the job at hand, his creativity in solving difficult problems (e.g. a moldy book with severely darkened pages), and his affability throughout have made me a committed customer.

**Kimberly K.**

Stan is wonderful to work with! He's prompt and efficient! I highly recommend his scanning services.

**Kelly S.**

I am very pleased with the books that I had Golden Images scan to pdf format recently. Many times in the course of my studies I am required to read a book for which no eBook or Kindle version exists. Having a company like Golden Images scan a book into pdf format is a big time saver and essential for my work. Thank you so much for your excellent service and courtesy!

**Sharon T.**

We were very pleased with the service we received from Golden Images, LLC. It was especially nice to be able to talk directly with someone who was aware of our needs and took an interest in our project.

**Connie M.**

Excellent services, fast turn around. If you are interested in professional scans, this is the place.

**Janet G.**

Excellent service and care. Highly recommend.

**Meredith & Win B.**

Cannot begin to say how extraordinary my experience was with Stan Drew of Golden Images. He fixed a wonky .mobi for me in no time at all, was always patient, and was happy to take my screen shots and cure the .mobi. He also took one of my husband's backlist books, scanned it, and turned it into a word doc, so that my husband could rewrite part of the book he wasn't thrilled about. (IBM in TX had scanned it previously, and the outcome was a nightmare.) THANK YOU GOLDEN IMAGES!

## **Tracey W.**

Stan and Golden Images was responsive, fast, and made my life so much better.

## **Leeds B.**

Golden Images does excellent work on the most difficult material. I've sent him dense text material with many footnotes and font changes. They also work fast!

## **Jennifer F.**

Great customer service from start to finish. I found this company on an online forum and it was highly recommended. Even though my project was small, the owner, Stan, called me and answered all of the questions I had posed in my initial email. The scans I received of my vintage fashion textbooks were far superior to the original books, very clear and readable text. I live thousands of miles away, but it was worth mailing my things for what are excellent results. Priced fairly for the quality.

## TESTIMONIALS

Good Morning Stan, Thanks again for another prompt, well-done project.
