

This is the start where 'One Garden' entrance is. The track on the right where you can see the Plumpton college blue sign is where you start off.

Go to the end of this track where it turns uphill through the large open gate.

This is the large open gate where you turn right. Keep walking uphill ignoring any side tracks or signs.

To the top - don't be distracted by the other track on the left just go straight up to the top of this track walking uphill past the woodchip on your right.

This is the top of the track. If you have driven you can park here if there's a space but that isn't guaranteed. Now turn left and walk straight ahead and you will see this large notice board just inside the gate.

The gate will probably be open otherwise you can walk around it. We are 50 yards along on the left and we have a sign for PYO and a red gate which you can walk through.
