## **Michael Vukobratovich** **Irrigation Specialist**

With over a decade of experience in the irrigation industry, Michael Vukobratovich brings unparalleled expertise and dedication to every project he undertakes. Having worked extensively on both residential and commercial properties, Michael specializes in designing and maintaining efficient, reliable irrigation systems tailored to meet each client's unique needs.

As a state-certified backflow tester in Indiana, Michael ensures that every system he works on is safe, efficient, and fully compliant with industry standards. His commitment to excellence doesn't stop there—Michael continuously hones his skills through ongoing training with Hunter Industries, staying ahead of the latest advancements in irrigation technology. This ensures his clients benefit from innovative, cost-effective solutions that maximize performance and value.

Michael's approach to work is defined by his attention to detail, problem-solving abilities, and customer-first mindset. Whether he's troubleshooting a complex system issue or designing a brand-new setup, Michael's professionalism and precision shine through. He takes pride in delivering results that not only meet but exceed client expectations.

Beyond his technical expertise, Michael is known for his warm personality and dedication to creating a positive experience for every client. He understands the importance of clear communication and goes the extra mile to ensure his clients feel informed and confident throughout the process.

Outside of work, Michael enjoys spending time with his family, friends, and loyal dog. He's often found around a cozy fire, hosting cookouts, or engaging in some friendly cornhole competition. These moments of connection and community reflect the values that guide him in both his personal and professional life.

At the heart of Michael's work is a simple mission: to provide dependable, efficient irrigation solutions that enhance the beauty and functionality of every property he touches. With his experience, dedication, and passion for the craft, Michael ensures that each project is completed to the highest standard.

We're proud to have Michael as our irrigation specialist, and we're confident his expertise will make a difference for your property.

## MISSION & VISION

At Wet N Wild Irrigation, our mission is to provide high-quality, efficient, and sustainable irrigation solutions that keep landscapes lush while promoting responsible water usage. We are committed to excellence, customer satisfaction, and innovation, ensuring every system we install or maintain delivers optimal performance and long-term value for our clients.

Our vision is to become the premier irrigation service provider in Northwest Indiana, known for expert craftsmanship, reliability,

## BACKGROUND

Wet N Wild Irrigation was founded to meet the growing demand for professional irrigation services in Northwest Indiana. As an extension of Redwood Landscape, our company is built on expertise, quality workmanship, and customer care. With over 10 years of experience, our team specializes in irrigation design, installation, maintenance, and water conservation, helping homeowners and businesses maintain healthy landscapes.

Certified by Hunter, RainBird, and Backflow Testing, we uphold the highest industry standards, ensuring every system we install or

service is efficient, durable, and sustainable. We stay current with the latest irrigation technology, using smart controllers, drip irrigation, and water-efficient solutions to optimize performance and reduce waste.

Our focus is on innovative, cost-effective solutions that enhance landscape health while minimizing water waste. Whether installing new systems, providing seasonal maintenance, or handling repairs, we take pride in delivering reliable service and customized solutions for every property.

# ***Certifications***

## **Irrigation Installation Fundamentals**

Certified in the fundamentals of irrigation system installation, ensuring proper design, efficiency, and long-term performance using Hunter's industry-leading products.

## **Installation Technician**

Trained in the professional installation of residential and commercial irrigation systems, focusing on proper setup, troubleshooting, and maintenance.

## **Core Product Specialist**

Expert in Hunter's core irrigation products, including controllers, rotors, and spray heads, ensuring optimal system functionality and water efficiency.

# Google Review

KJF

In my five years living in Indiana, finding a quality irrigation team has been a challenge—most are booked up and hard to schedule. That all changed when I found Mike at Wet N Wild Irrigation.

I originally knew Mike from a previous company that closed, and when that happened, I was unsure of my options. He was the best—patient, knowledgeable, and incredibly reliable when it came to my irrigation system.

When I learned Mike had joined Wet N Wild Irrigation, I was thrilled! The same exceptional service, expertise, and customer-first approach I trusted was now backed by a professional, well-run team. Mike's dedication, focus, and kindness set the bar high, and I wouldn't trust anyone else with my system.

So while I give Wet N Wild Irrigation 5 stars, I give a huge shoutout to Mike—wherever he goes, I'll follow, and I wouldn't choose anyone else for my irrigation needs! Highly recommend
