Sharing Memories and Telling Stories of A Special Life

This booklet is designed to guide your family through the arrangement process when cremation is chosen. In this booklet you will find several cremation service choices, merchandise for cremation and keepsake items. Many families are not aware that with cremation you can have a visitation/viewing and funeral service prior to the cremation process. There are also service choices without the body present, such as a memorial service or celebration of life. With a cremation your family will need to meet with a funeral director to gather information for the death certificate, obituary notice and sign the proper authorizations. You will also need to select the type of service desired, if any, the cremation casket or identification container that your loved one will be placed in for the cremation process and then the container that the cremated remains will be placed in after the cremation process. There are many choices to fit each families needs and budget as well as fitting the needs of the final resting place. Some families choose a local cemetery, keeping them in your home or scattering them within the laws of the state of Indiana or other state.

Many of the families we serve are choosing cremation and we are happy to accommodate their wishes, please ask your funeral director if you have any special requests or questions.
