Max gave report of the incident based on those findings.

The board discussed the proposed penalties for those involved in the incident as the actions did not align with Lakeview Playgrounds Code of Conduct. The board also discussed the best of the ability to not penalize the children for the parent interactions.

Proposed the following penalties for involved parties:

1. Two game suspension for party against code of conduct on the field
2. One game suspension for all parties ejected from the game
3. One week suspension for party against code of conduct in the stands
4. All children are still permitted to play in Little League Tournament, omitting parent participation for one child.

The board discussed that they believe that all parties involved will be in support of the proposed consequences.

The board also discussed the need for follow up to the park to ensure the community is clear in the park's stance on discrimination and code of conduct.
