OVERVIEW

A'RIZION GROUP SHELTER

A group home alternative from the Foster care , adoption and court placement for Families in crisis.

We provide services to all children in crisis...Jesus walked in love, generosity and concern for those in need. With that example, we strive to support children and families in crisis regardless of religion, gender, age, sexual orientation or socioeconomic status.

H.O.P.E.

H.O.P.E. is a collaborative effort program with A'rizion Group and the N2L Ministries ,with two structural components and one main focus point, Strengthening The Family for Stabilization. The program is designed to create a outlined plan for the family's individual needs through assessment and evaluation. Then to equip them with the necessary tools to enable the family of maintaining a valuable unified family structure.

Those Families that are in crisis, that are in need of housing , food. employment , and childcare assistance or as a preventive measure to eliminate the need of CPS involvement and families that have on going CPS cases are pre-qualified for the H.O.P.E. program. (evaluation and assessment is required for enrollment)

*We come 2 gather in unity to create HOPE for those who feel hopeless...
Providing a Safe Haven for the children & working with the parents to stabilize the Family structure and unity.*

A'RIZION
