# CRAFTING TIMELESS QUALITY

At Oakwood Designs, craftsmanship and quality have been at the heart of our work since we began manufacturing furniture. With a passion for creating pieces that stand the test of time, we took the leap in 2018 to launch our own business, introducing the Midtown collection. This debut line showcased a diverse range of furniture, offering something special for every home.

Today, as a family-operated business located in the picturesque Southern Lebanon County, PA, we specialize in crafting high-quality hardwood office and fine home furniture that combines timeless design with durability. Our commitment to excellence extends beyond our products to provide an easy and enjoyable shopping experience. From the moment you browse our collection to the day your furniture arrives, our team is dedicated to ensuring your satisfaction with superior customer service and attention to detail.

At Oakwood Designs, we believe that every piece of furniture is more than just an addition to your home—it's an investment in comfort, style, and quality. We're here to help you create a space you'll love for years to come.

# FINISHING OPTIONS

## THE OAKWOOD DESIGNS HEIRLOOM FINISH

At Oakwood Designs, we believe fine furniture should outlast trends and grow more meaningful with time. That belief is carried out through our six-step finishing process - developed to protect with wood, honor its natural character, and ensure every piece can be enjoyed for generations.

### 1. HAND PREPARED SURFACES

Every piece begins with careful, progressive hand sanding. This meticulous preparation removes tool marks and imperfections, allowing the finish to bond directly to the wood - not to shortcuts.

### 2. HAND-WIPED STAIN

Stain is applied and wiped by hand, building depth without obscuring the grain. The natural beauty of the wood remains the focal point, allowing each piece to express its own character.

### 3. SEALING FOR STABILITY

A dedicated sealing step locks in the color and stabilizes the surface. This forms the foundation for durability and helps protect against moisture and environmental changes over time.

### 4. HAND REFINEMENT BETWEEN COATS

After curing, the surface is hand-sanded again. This refinement creates the smooth, inviting feel associated with true heirloom furniture and prepares the surface for last protection.

### 5. PROTECTIVE TOPCOATS

Multiple topcoats are applied and allowed to fully cure. These layers are designed to withstand daily use while maintaining clarity, warmth, and depth.

### 6. FINAL INSPECTION

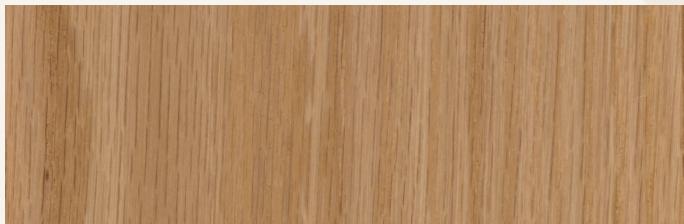

Each piece is thoroughly inspected. Nothing leaves the Oakwood Designs shop until it meets our standards for beauty, durability, and longevity.

## THE OAKWOOD DIFFERENCE

The result is a finish that does not simply look refined - it endures. One that can be maintained, renewed, and refinished decades from now. Furniture built to serve today, age gracefully, and become part of a family's legacy.
