## A few thoughts from Mrs. Carman...

### Shoes and Sneakers:

If your child will be coming to school wearing footwear that requires tying their laces, please dedicate some fun time toward practicing this skill over the summer. It will give your child a boost in their confidence when they become independent with tying up their own laces if they don't already have this skill. Our walk to / from our classroom is a long one with a full flight of stairs I want to ensure all children remain safe as we navigate through the building and outside.

### Water Bottles:

Please consider the size and empty weight of the water bottle before water is even put into it. Some small steel options weigh up to a pound or close to it before water is even put into it. empty. There are some good stainless steel and plastic options on Amazon and at other retailers in town. You tube also has reviews on various water bottles. All water bottles need to be leak / spill proof. A closed straw / sip spout is needed in addition to a secure handle for times when we take our water bottles with us beyond the classroom. We will be practicing water bottle etiquette in class.

### Helpful Hints

- Headphones don't need to be expensive, they can be found at Five Below and other local retailers.
- About those "Ziploc" brands, I use the name to describe what is needed but you choose the brand that fits your wallet and where you shop. Freezer bags and snap closure is best. Aldi's freezer bags are comparable in quality for this item with a good price.
- For years Walmart and Target has had the best pricing on Crayola products, glue sticks and plastic folders without prongs inside.
- **Shop early** before things get picked over has always been my mantra!
- Have a **FUN and SAFE** summer making memories along the way.
- My Welcome Letter will arrive later this summer.

**Thank you for supporting your child's education.**
