Harrybilt Engineering are proud to present the **Platypus 2200 NG Series**

Expanding the Platypus range with the Platypus 2200 Narrow Gauge Series.

Designed to complement the Broad and Standard Gauge Platypus models, this version delivers the same reliability and performance. Tailored specifically for narrow gauge operations.

With the Platypus 2200 NG, operators can expect seamless integration, enhanced versatility, and the trusted engineering excellence that defines the Platypus range.

Weights 830kg and has a W.L.L of 400kg

An Australian owned manufacturing business located in Ballarat, Victoria since 1985.

We specialise in smart innovative design solutions and technology for rail infrastructure, commercial and individual applications.
