RAIL TRAILERS

HARRYBILT ENGINEERING RAIL TRAILERS

Harrybilt Engineering offer a range of Rail Trailers designed to suit every rail application. The range includes sleeper top, flat top and a 2 wheel A frame rail trailer with a choice of size to suit your needs. The rail trailers have options available such as, draw bars, brake lighting, directional lighting, work lighting, nonslip flooring etc. to comply with individual and network standards.

FLAT DECK RAIL TRAILERS

The Flat Deck Rail Trailers can be triple gauge – narrow/standard/broad with 4 fully compliant insulated wheels including wheel brakes with fail safe breakaway braking system.

Trailers also feature 50mm tow coupling 1 end to enable “Trailer to Machine” hook up with no personnel in the crush zone.

For 3m, 4m, 5m and 6m Trailers, Heavy Duty 5mm Plate Floor is supplied along with 6 Post Pockets with 4x75x75 SHS Posts supplied, Lifting Chains and Tie Down Rail fitted as standard.

For the 6m Trailer 4 x Container Locks are Supplied

16T 4M FLAT DECK

20T 5M FLAT DECK

20T 6M FLAT DECK

SLEEPER/SKELETON TRAILERS

Harrybilt Engineering manufacture rail trailers to specific customer requirements. Sleeper Deck/Skeleton Trailers are triple gauge – narrow/standard/broad with a 3 m deck 10 ton capacity; or 4m deck 15 ton capacity. o These trailers come with two underfloor forklift pockets or lifting chain to enable easy lifting of the trailer on and off rail.

LIGHT TRAILER RANGE

With an in house Engineer, the team can design products to satisfy customer needs. The Light Rail Trailers have been added to the product range to suit smaller excavators working on rail. In 2016, the Light Weight Trailer was developed to be 750kg in weight and in 2019, the 5t 2x2m and 2x3m Rail Trailers were then added. These trailers are perfect for 5t-8t excavators.
