Harrybilt Engineering are proud to present the **Mini Rubber Jaw Platypus**

The platypus is a game changer for handling concrete sleepers with small 5t-8t machines.

It features:

- Lightweight with a tare weight of approximately 300kg
- Robust durable design
- Parallel jaw clamping movement
- Inbuilt rubber pad to reduce damage on sleepers

An Australian owned manufacturing business located in Ballarat, Victoria since 1985.
We specialise in smart innovative design solutions and technology for rail infrastructure, commercial and individual applications.
