A quality lifestyle exploring this beautiful country
in the comfort & luxury of your Caravan!

TRAVELLER
CARAVANS - AUSTRALIA

AFFORDABLE QUALITY FOR YOUR ADVENTURES

The Traveller Caravan is the perfect match for your next adventure – equipped with all the features and benefits that will reliably take you around the country and make your time on the road enjoyable.

The Traveller caravan features are market-leading including the full composite body construction, onroad or semi offroad suspension and chassis, high durability, yet lightweight, paired with modern & functional design.

BUILT TOUGH FOR THE AUSTRALIAN ROADS

Full Composite Sandwich Panel Construction

Provides superior strength, insulation, and durability while keeping the van lightweight and weather-resistant.

Outdoor Entertainment Hatch

Adds convenience and enhances your lifestyle by bringing movies, music, cooking and more to the great outdoors—all from your caravan.

Quality CNC Furniture throughout

Ensures precise craftsmanship, a modern finish, and long-lasting durability for life on the road.

125Ah Lithium Battery Projecta PM335C System

Delivers reliable, efficient power management for extended off-grid adventures. Matched with a touch screen for updates.

All Australian Steel Made Chassis & Suspension

Ensures unmatched strength, durability, and reliability on the Australian terrain.

Quality Appliances throughout

Deliver dependable performance, everyday convenience, and enhanced comfort, making life on the road feel just like home.

OUTDOOR LEISURE HATCH

Discover the freedom of outdoor living with our new Outdoor Leisure Hatch, designed to transform your caravan experience. With this innovative feature, you can enjoy the fresh air while cooking meals, entertaining guests, or simply relaxing outside without missing the comforts of home. Whether you're grilling breakfast with a view or hosting a sunset dinner, the hatch extends your living space and makes every trip more social and enjoyable. It's the perfect addition for those who love the caravan lifestyle but crave more connection with nature and the outdoors.

Features

- > TV mount and adjustable TV arm
- > 12V and antenna connection
- > Marine grade speakers
- > Remote control radio system
- > LED strip lighting
- > Wireless charger
- > Smart storage shelving
- > 2 storage nets
- > Fold out bench
- > 4 power points
- > Aluminium frame composite fill door with gas strut supports

PROJECTA PM335C BATTERY MANAGEMENT SYSTEM

The PM335C is part of Projecta's Intelli-RV GEN II Low Profile range and serves as a compact power management unit. It centralises wiring with a slim, low-profile design, making battery power and solar management straightforward. Providing 30A AC charging and 30A MPPT Solar to seamlessly manage a wide range of battery chemistries.

Features

- > Low profile design: Slim, low-profile design with cover to hide messy output cables
- > MPPT Solar: Highly effective solar power conversion maximises the output of any solar panel array, even in shady or low-light conditions.
- > Display: 7" touch screen with Bluetooth. Compatible with new suite of Projecta accessories including: Level Sensor, Tyre Pressure Sensors, DC DC Charger Range, Solar Controller Range & Lithium batteries.
- > Central wiring location: Makes power in an RV easy by centralising the wiring to one compact, high-quality unit.
